WITHIN THE FRAME

THE JOURNEY OF PHOTOGRAPHIC VISION

New Riders Within the Frame is a book about finding and expressing your photographic vision, specifically where people, places, and cultures are concerned. A personal book full of real-world wisdom and incredible images, author David duChemin (of pixelatedimage.com) shows you both the how and the why of finding, chasing, and expressing your vision with a camera to your eye. Vision leads to passion, and passion is a cornerstone of great photography. With it, photographs draw the eye in and create an emotional experience. Without it, a photograph is often not worth—and can't capture—a viewer's attention. Both instructional and inspirational, Within the Frame helps you on your photographic journey to make better images of the places and people you love, whether they are around the world

or in your own backyard. duChemin covers how to tell stories, and the technology and tools we have at our disposal in order to tell those narratives. Most importantly, he stresses the crucial theme of vision when it comes to photographing people, places, and cultures—and he helps you cultivate and find your own vision, and then fit it within the frame.

THE SECRET LIFE OF THE MODERN HOUSE

THE EVOLUTION OF THE WAY WE LIVE NOW

*Hachette UK * * * 'Informative and entertaining, this publication is a feast for the eyes, while also thought provoking, and offers excellent inspiration for daydreaming about what makes the perfect, modern house.' Wallpaper 'A fascinating selection of innovative homes....this is a thoughtful journey through the evolution of domestic architecture.' Sunday Express Over the last century the way that we live at home has changed dramatically. Nothing short of a design revolution has transformed our houses and the spaces within them - moving from traditional patterns of living all the way through to an era of more fluid, open-plan and modern styles. Whether we live in a new home or a period house, our spaces will have been shaped one way or another by the pioneering Modernists and Mid-century architects and designers who argued for a fresh way of life. Architectural and design writer Dominic Bradbury charts the course of this voyage all the way from the late 19th century through to the houses of today in this ground-breaking book. Over nineteen thematic chapters, he explains the way our houses have been reinvented, while taking in - along the way - the giants of Art Deco, influential Modernists including Le Corbusier and Frank Lloyd Wright, as well as post-war innovators such as Eero Saarinen and Philip Johnson. Taking us from the 20th to the 21st century, Bradbury explores the*

progress of 'modernity' itself and reveals the secret history of our very own homes.
