Cramer has been doing baseball analytics for just about as long as anyone alive, even before the term "sabermetrics" existed. He started analyzing baseball statistics as a hobby in the mid-1960s, not long after graduating from Harvard and MIT. He was a research scientist for SmithKline and in his spare time used his work computer to test his theories about baseball statistics. One of his earliest discoveries was that clutch hitting--then one of the most sacred pieces of received wisdom in the game--didn't really exist. In *When Big Data Was Small* Cramer recounts his life and remarkable contributions to baseball knowledge. In 1971 Cramer learned about the Society for American Baseball Research (SABR) and began working with Pete Palmer, whose statistical work is credited with providing the foundation on which SABR is built. Cramer cofounded STATS Inc. and began working with the Houston Astros, Oakland A's, Yankees, and White Sox, with the help of his new Apple II computer. Yet for Cramer baseball was always a side interest, even if a very intense one for most of the last forty years. His main occupation, which involved other "big data" activities, was that of a chemist who pioneered the use of specialized analytics, often known as computer-aided drug discovery, to help guide the development of pharmaceutical drugs. After a decade-long hiatus, Cramer returned to baseball analytics in 2004 and has done important work with Retrosheet since then. *When Big Data Was Small* is the story of the earliest days of baseball analytics and computer-aided drug discovery. **14 Blues and Funk Etudes B-Flat Instrument (Tenor Sax, Soprano Sax, Clarinet), Book and 2 CDs** Alfred Music Publishing A collection of studies composed for musicians who wish to extend themselves in improvisation, composition, sight reading and general musicianship skills. Each etude has a theoretical explanation, suggestions for performance and tips for practice routines. Two CDs of combo accompaniments performed by members of the Yellowjackets are included. All books are compatible and written so that they can be performed together. **Playbill Exercises and Etudes for the Jazz Instrumentalist (Music Instruction) Treble Clef Edition** Hal Leonard Corporation (Instructional). *Exercises and Etudes for the Jazz Instrumentalist* is a collection of original pieces by the master trombonist/composer

J.J. Johnson. Designed as study material and playable by any instrument, these pieces run the gamut of the jazz experience, featuring common and uncommon time signatures and keys, and styles from ballads to funk. They are progressively graded so that both beginners and professionals will be challenged by the demands of this wonderful music.
