A Girl Called Justice

Book 1

Hachette UK Missing maids, suspicious teachers and a snow storm to die for... For a fearless girl called Justice Jones, super-smart super-sleuth, it's just the start of a spine-tingling first term at Highbury House Boarding School for the Daughters of Gentlefolk. For fans of Robin Stevens, Katherine Woodfine and Enid Blyton. When Justice's mother dies, her father packs her off to Highbury House Boarding School for the Daughters of Gentlefolk. He's a barrister - specialising in murder trials - and he's just too busy to look after her alone. Having previously been home-schooled, the transition is a shock. Can it really be the case that blondes rule the corridors? Are all uniforms such a charming shade of brown? And do schools normally hide dangerous secrets about the murder of a chamber maid? Justice takes it upon herself to uncover the truth. (Mainly about the murder, but perhaps she can figure out her new nemesis - the angelic Rose - at the same time.) But when a storm cuts the school off from the real world, the body count starts to rise and Justice realises she'll need help from her new friends if she's going to find the killer before it's too late ...

Light Technology Publishing The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. The proportions of the human body, the nuances of human consciousness, the sizes and distances of the stars, planets and moons, even the creations of humankind, are all shown to reflect their origins in this beautiful and divine image. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of Indigo children, Drunvalo presents the sacred geometries of the Reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science and stories, logic and coincidence, on a path of remembering where we come from and the wonder and magic of who we are. Finally, for the first time in print, Drunvalo shares the instructions for the Mer-Ka-Ba meditation, step-by-step techniques for the re-creation of the energy field of the evolved human, which is the key to ascension and the next dimensional world. if done from love, this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension, from protective powers to the healing of oneself, of others and even of the planet. Embrace the expanded vision and understanding that Drunvalo offers to the world. Coincidences abound, miracles flourish and the amazing stories of mysteries unveiled arise as the author probes the Ancient Secrets of the Flower of Life.

He reached out with one finger and nudged a crack in the curtains. WOOOOSH! Something very fast flashed past - silver in the moonlight - and was gone. Marlin jumped back, his heart racing. "What was that?!" He edged forwards again. He pulled the curtains open wider this time and peered out. At first he saw nothing, but then he noticed the strange marks on the lawn. All over, the grass was churned up and muddy as if something heavy had been racing around on it. Then he saw it. A creature, standing at the end of the garden. Just under the apple tree, next to the back garden gate, was a little silver dinosaur with a long whip tail and a slender neck. It cocked its head to one side, blinked and looked right at him. There was no mistaking it. It was one of the Troodons from the museum. ****EDITORIAL REVIEWS**** "Imaginative and full of action - with illustrations to make it all come alive" - Parents-in-Touch "My 7 year old son LOVED it ...a fun, creative story where science fiction and dinosaurs intersect" - Mother Daughter Book Reviews website
