THOMAS JEFFERSON AND THE NEW NATION

A BIOGRAPHY

Oxford University Press The definitive life of Jefferson in one volume, this biography relates Jefferson's private life and thought to his prominent public position and reveals the rich complexity of his development. As Peterson explores the dominant themes guiding Jefferson's career--democracy, nationality, and enlightenment--and Jefferson's powerful role in shaping America, he simultaneously tells the story of nation coming into being.

THOMAS JEFFERSON

AUTHOR OF AMERICA

Harper Collins In this unique biography of Thomas Jefferson, leading journalist and social critic Christopher Hitchens offers a startlingly new and provocative interpretation of our Founding Father. Situating Jefferson within the context of America's evolution and tracing his legacy over the past two hundred years, Hitchens brings the character of Jefferson to life as a man of his time and also as a symbolic figure beyond it. Conflicted by power, Jefferson wrote the Declaration of Independence and acted as Minister to France yet yearned for a quieter career in the Virginia legislature. Predicting that slavery would shape the future of America's development, this professed proponent of emancipation elided the issue in the Declaration and continued to own human property. An eloquent writer, he was an awkward public speaker; a reluctant candidate, he left an indelible presidential legacy. Jefferson's statesmanship enabled him to negotiate the Louisiana Purchase with France, doubling the size of the nation, and he authorized the Lewis and Clark expedition, opening up the American frontier for exploration and settlement. Hitchens also analyzes Jefferson's handling of the Barbary War, a lesser-known chapter of his political career, when his attempt to end the kidnapping and bribery of Americans by the Barbary states, and the subsequent war with Tripoli, led to the building of the U.S. navy and the fortification of America's reputation regarding national defense. In the background of this sophisticated analysis is a large historical drama: the fledgling nation's struggle for independence, formed in the crucible of the eighteenth-century Enlightenment, and, in its shadow, the deformation of that struggle in the excesses of the French Revolution. This artful portrait of a formative figure and a turbulent era poses a challenge to anyone interested in American history -- or in the ambiguities of human nature.

JEFFERSON'S LEGAL COMMONPLAC BOOK

Princeton University Press As a law student and young lawyer in the 1760s, Thomas Jefferson began writing abstracts of English common law reports. Even after abandoning his law practice, he continued to rely on his legal commonplace book to document the legal, historical, and philosophical reading that helped shape his new role as a statesman. Indeed, he made entries in the notebook in preparation for his mission to France, as president of the United States, and near the end of his life. This authoritative volume is the first to contain the complete text of Jefferson's notebook. With more than 900 entries on such thinkers as Beccaria, Montesquieu, and Lord Kames, Jefferson's Legal Commonplace Book is a fascinating chronicle of the evolution of Jefferson's searching mind. Jefferson's abstracts of common law reports, most published here for the first time, indicate his deepening commitment to whig principles and his incisive understanding of the political underpinnings of the law. As his intellectual interests and political aspirations evolved, so too did the content and composition of his notetaking. Unlike the only previous edition of Jefferson's notebook, published in 1926, this edition features a verified text of Jefferson's entries and full annotation, including essential information on the authors and books he documents. In addition, the volume includes a substantial introduction that places Jefferson's text in legal, historical, and biographical context.

THE WRITINGS OF THOMAS JEFFERSON VOLUME 5

Palala Press This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

JEFFERSON'S LITERARY COMMONPLAC BOOK

Princeton University Press This work is a new edition of Thomas Jefferson's literary commonplace book, a notebook of his literary and philosophical reading. Unlike the only previous edition, published in 1928, it contains full annotation, pertinent information on the authors and works commonplacced, and a rationale for dating the entries. Thus it is now possible to show that most of the four hundred seven passages were entered when Jefferson was a young man, between the ages of fifteen and thirty. As such, they reflect the range of his literary interests from his school days to about the time of his marriage and involvement in politics. As one of the few surviving documents from Jefferson's early years, this notebook assumes special importance as a source of insight into the least known period of his life. In the introduction the editor presents reasons for thinking that the commonplace book was more to Jefferson than a literary sampler and was in some respects a deeply personal notebook with direct connections to the emotional events and preoccupations of his formative years. In addition to the text and annotation, the book contains a register of authors and an illustrated essay on Jefferson's handwriting that provides the rationale for assigning approximate dates to the entries of the commonplace book. Originally published in 1989. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

PHILOSOPHY

AUTOBIOGRAPHY OF THOMAS JEFFERSON

Lulu.com This short but richly detailed memoir by Thomas Jefferson offers a rare autobiographical glimpse into the fascinating mind of this Founding Father during the tumultuous

events of his remarkable public career. In addition to being America's third President, Jefferson was Minister to France during the early stages of the French Revolution, wartime Governor of Virginia, Washington's Secretary of State and Vice President during the John Adams administration. This new edition of the Autobiography includes an essay on Jefferson by historian Elbert Hubbard.

THE JEFFERSON BIBLE

Wyatt North Publishing, LLC The Jefferson Bible, or The Life and Morals of Jesus of Nazareth as it is formally titled, was a book constructed by Thomas Jefferson in the latter years of his life by cutting and pasting numerous sections from various Bibles as extractions of the doctrine of Jesus. Jefferson's composition excluded sections of the New Testament containing supernatural aspects as well as perceived misinterpretations he believed had been added by the Four Evangelists. In 1895, the Smithsonian Institution under the leadership of librarian Cyrus Adler purchased the original Jefferson Bible from Jefferson's great-granddaughter Carolina Randolph for \$400. A conservation effort commencing in 2009, in partnership with the museum's Political History department, allowed for a public unveiling in an exhibit open from November 11, 2011, through May 28, 2012, at the National Museum of American History.

THE PAPERS OF THOMAS JEFFERSON, RETIREMENT SERIES, VOLUME 7

28 NOVEMBER 1813 TO 30 SEPTEMBER 1814

Princeton University Press The 526 documents printed in this volume run from 28 November 1813 to 30 September 1814. During this period Jefferson reviews the extant sources on the 1765 Stamp Act crisis to aid William Wirt, a Patrick Henry scholar; records his largely positive impressions of George Washington; and updates a reading list for law students that he had initially drawn up forty years earlier. In the spring of 1814 Jefferson becomes a trustee of the Albemarle Academy, the earliest direct ancestor of the University of Virginia. He is soon actively involved in planning for its establishment, helping to draft rules for governance of the academy's trustees and propose funding options, and he lays out an expansive vision for its future as an institution of higher learning. Jefferson also exchanges ideas on collegiate education with such respected scholars as Thomas Cooper and José Corrêa da Serra. Jefferson's wide-ranging correspondence includes a temperate response to a lengthy letter from Miles King urging the retired president to reflect on his personal religion, and a diplomatic but noncommittal reply to a proposal by Edward Coles that the author of the Declaration of Independence employ his prestige to help abolish slavery. Having learned of the British destruction late in August 1814 of the public buildings in Washington, Jefferson offers his massive book collection as a replacement for the Library of Congress. The nucleus for one of the world's great public libraries is formed early in 1815 when the nation purchases Jefferson's 6,707 volumes. Some images inside the book are unavailable due to digital copyright restrictions.

THE ADAMS-JEFFERSON LETTERS

THE COMPLETE CORRESPONDENCE BETWEEN THOMAS JEFFERSON AND ABIGAIL AND JOHN ADAMS

UNC Press Books An intellectual dialogue of the highest plane achieved in America, the correspondence between John Adams and Thomas Jefferson spanned half a century and embraced government, philosophy, religion, quotidian, and family griefs and joys. First meeting as delegates to the Continental Congress in 1775, they initiated correspondence in 1777, negotiated jointly as ministers in Europe in the 1780s, and served the early Republic--each, ultimately, in its highest office. At Jefferson's defeat of Adams for the presidency in 1800, they became estranged, and the correspondence lapses from 1801 to 1812, then is renewed until the death of both in 1826, fifty years to the day after the Declaration of Independence. Lester J. Cappon's edition, first published in 1959 in two volumes, provides the complete correspondence between these two men and includes the correspondence between Abigail Adams and Jefferson. Many of these letters have been published in no other modern edition, nor does any other edition devote itself exclusively to the exchange between Jefferson and the Adamses. Introduction, headnotes, and footnotes inform the reader without interrupting the speakers. This reissue of The Adams-Jefferson Letters in a one-volume unabridged edition brings to a broader audience one of the monuments of American scholarship and, to quote C. Vann Woodward, 'a major treasure of national literature.'

THE LOST WORLD OF THOMAS JEFFERSON

University of Chicago Press In this classic work by one of America's most distinguished historians, Daniel Boorstin enters into Thomas Jefferson's world of ideas. By analysing writings of 'the Jeffersonian Circle,' Boorstin explores concepts of God, nature, equality, toleration, education and government in order to illuminate their underlying world view. The Lost World of Thomas Jefferson demonstrates why on the 250th anniversary of his birth, this American leader's message has remained relevant to our national crises and grand concerns. "The volume is too subtle, too rich in ideas for anyone to do justice to it in brief summary, too heavily documented and too carefully wrought for anyone to dismiss its thesis. . . . It is a major contribution not only to Jefferson studies but to American intellectual history. . . . All who work in the history of ideas will find themselves in Mr. Boorstin's debt."—Richard Hofstadter, *South Atlantic Monthly*

NOTES ON THE STATE OF VIRGINIA

THOMAS JEFFERSON

PASSIONATE PILGRIM

Rowman & Littlefield Eagerly awaited by readers of Alf Mapp's best-selling *Thomas Jefferson: A Strange Case of Mistaken Identity*, this final volume follows Jefferson from his inauguration as President in 1801 to his death at the age of 83 on July 4, 1826. It embraces the eight years as Chief Executive in which he doubled the size of the United States by his daring Louisiana Purchase, sent Meriwether Lewis and William Clark on one of the world's greatest expeditions of exploration, and challenged the formidable Chief Justice John Marshall with a major program of judicial reform. It proves the falseness of the stereotype that Jefferson ignored national defense and tried to keep the Navy weak. The book shows him late in life, with ideas that have relevance today, planning a system of public education and founding the University of Virginia, and it reveals, better than any other biography to date, the intimate details of the lonely private battle he fought during his last tortured, but ultimately triumphant, decade. In *Thomas Jefferson: Passionate Pilgrim*, Jefferson the human being, passionate in his loves and hates, is never lost in a revealing portrait of the public figure. Witnessing Jefferson's actions in private life as well as in the arena of history, the reader learns why this founding father was abhorred by some but adored by many more. The book not only is enlightening about Jefferson's personality, character, and career, but also enables us to view America and Europe in the first quarter of the nineteenth century through the eyes of the one person best qualified to see them in all phases. His wide acquaintance on both sides of the Atlantic, his richly varied interests, and his life as both scholar and social animal, gave him a unique perspective. Almost as interesting as Jefferson himself are the many other characters who enliven the narrative. In addition to such accustomed players in his life drama as Madison, Monroe, and Marshall, there is the President's troublesome cousin, John Randolph, majority leader of the U.S. House of Representatives at age twenty-eight, who sometimes entered the chamber in foxhunting togs, followed by a pack of hounds, and gestured with a riding crop as he addressed his colleagues. And there is Margaret Bayard Smith, who boasted that the master of Monticello had admitted her to his "sanctum sanctorum" where "any other feet but his own seldom intrude." There was Vice President Aaron Burr, of the hypnotic eyes, who almost founded an empire in the American West. And who could forget Napoleon, completely nude, conducting a conference vital to the fate of both Jefferson and the United States? Read either separately or in conjunction with Mapp's earlier volume on Jefferson, this book offers an illuminating and absorbing view of the person whom columnist George Will describes as the "Man of the Millennium."

JEFFERSON AND THE RIGHTS OF MAN

Jefferson & His Time (Universi Dumas Malone's classic six-volume biography *Jefferson and His Time* was awarded the Pulitzer Prize in history and became the standard work on Jefferson's life. Volume 2. *Jefferson and the Rights of Man* In this second volume, Malone recounts the eventful middle years of Jefferson's life, beginning with the European mission and Jefferson's ministry to France and continuing through his role in the French revolution and his memorable service as secretary of state in the first cabinet of George Washington.

THE PAPERS OF THOMAS JEFFERSON: RETIREMENT SERIES, VOLUME 12

1 SEPTEMBER 1817 TO 21 APRIL 1818

Princeton University Press The Retirement Series documents Jefferson's written legacy between his return to private life on 4 March 1809 and his death on 4 July 1826. During this period Jefferson founded the University of Virginia and sold his extraordinary library to the nation, but his greatest legacy from these years is the astonishing depth and breadth of his correspondence with statesmen, inventors, scientists, philosophers, and ordinary citizens on topics spanning virtually every field of human endeavor.--From publisher description.

THOMAS JEFFERSON**WESTWARD THE COURSE OF EMPIRE**

Rowman & Littlefield Publishers This biography of one of America's greatest political figures focuses on Thomas Jefferson's role as a maker of foreign policy. Although he was not the sole formulator of American diplomacy, Jefferson's voice was the most pervasive in the first generation of the republic's history. This text explores how the concept of the United States' westward expansion worked as the moving force in forming Jefferson's judgments and actions in foreign relations. Although much has been written about Jefferson, this volume is one of the few that explores the full range of his positions on foreign relations. Readable and authoritative, *Thomas Jefferson: Westward the Course of Empire* offers new insight into the man who shaped American foreign policy.

THE SELECTED WRITINGS OF THOMAS JEFFERSON**AUTHORITATIVE TEXTS, CONTEXTS, CRITICISM**

W. W. Norton The first book to include Thomas Jefferson's writings and writings about him from his era and ours. This Norton Critical Edition seeks to give readers a full understanding of Thomas Jefferson's importance to the intellectual development of the United States, particularly in political theory and scientific learning; of Jefferson's role in the expansion of the territory and sovereignty of the United States; and of Jefferson's controversial relation to slavery and race as key issues in American history. The editor has selected Jefferson's most important published texts: A Summary View of the Rights of British America, the Declaration of Independence, and Notes on the State of Virginia along with An Appendix to the Notes on Virginia Relative to the Murder of Logan's Family and his Message to Congress on the Lewis and Clark Expedition. In addition, more than one hundred of Jefferson's letters (1760-1826) have been judiciously selected from his rich body of correspondence, allowing readers to see Jefferson as a person as well as a public figure. All texts are accompanied by detailed explanatory annotations. Contexts reprints contemporary documents that place Jefferson and his writings within the early American Republic, including works by Thomas Paine, John Adams, François-Jean de Beauvoir, and Luther Martin. Also included are diverse and early responses to Jefferson and his writings by, among others, John Quincy Adams, William Cullen Bryant, Washington Irving, James Fenimore Cooper, and Elizabeth Cady Stanton. "Criticism" provides representative works of modern interpretation and analysis that confirm Jefferson's continuing relevance. Included are twelve thought-provoking assessments from several disciplinary perspectives by, among others, Annette Gordon Reed, Peter Onuf, and Douglas L. Wilson. A Selected Bibliography is also included.

AMERICAN FOREIGN RELATIONS SINCE 1600**A GUIDE TO THE LITERATURE**

ABC-CLIO Chronicles American foreign relations literature from colonial times to the present, with updated material on post World-War II.

THOMAS JEFFERSON: MORALIST

McFarland Much of the scholarship on Thomas Jefferson characterizes him as a consummate immoralist. Yet he had a keen interest in morality and most of his reading--when he was not immersed in politics--was for moral study. Jefferson once told his physician, Vine Utley, that he seldom went to sleep without first reading something morally inspiring. Some Jefferson scholars consider him at best a moral dilettante with incoherent views. Others see him as a Stoic, interested in virtue as measured by both intentions and outcomes, who in later life became an Epicurean, weighing pleasure versus ends. Drawing on a careful reading of his writings and an examination of his known readings on morality, this study argues that Jefferson developed early a consistent moral sense--Stoical in essence and focused on his own moral improvement--and maintained it throughout his life.

THE PAPERS OF THOMAS JEFFERSON, RETIREMENT SERIES, VOLUME 8

1 OCTOBER 1814 TO 31 AUGUST 1815

Princeton University Press Volume Eight of the project documenting Thomas Jefferson's last years presents 591 documents dated from 1 October 1814 to 31 August 1815. Jefferson is overjoyed by American victories late in the War of 1812 and highly interested in the treaty negotiations that ultimately end the conflict. Following Congress's decision to purchase his library, he oversees the counting, packing, and transportation of his books to Washington. Jefferson uses most of the funds from the sale to pay old debts but spends some of the proceeds on new titles. He resigns from the presidency of the American Philosophical Society, revises draft chapters of Louis H. Girardin's history of Virginia, and advises William Wirt on revolutionary-era Stamp Act resolutions. Jefferson criticizes those who discuss politics from the pulpit, and he drafts a bill to transform the Albemarle Academy into Central College. Monticello visitors Francis W. Gilmer, Francis C. Gray, and George Ticknor describe the mountaintop and its inhabitants, and Gray's visit leads to an exchange with Jefferson about how many generations of white interbreeding it takes to clear Negro blood. Finally, although death takes his nephew Peter Carr and brother Randolph Jefferson, the marriage of his grandson Thomas Jefferson Randolph is a continuing source of great happiness. Some images inside the book are unavailable due to digital copyright restrictions.
