## Advances in Communication and Computational Technology

### Select Proceedings of ICACCT 2019

**Springer Nature** This book presents high-quality peer-reviewed papers from the International Conference on Advanced Communication and Computational Technology (ICACCT) 2019 held at the National Institute of Technology, Kurukshetra, India. The contents are broadly divided into four parts: (i) Advanced Computing, (ii) Communication and Networking, (iii) VLSI and Embedded Systems, and (iv) Optimization Techniques. The major focus is on emerging computing technologies and their applications in the domain of communication and networking. The book will prove useful for engineers and researchers working on physical, data link and transport layers of communication protocols. Also, this will be useful for industry professionals interested in manufacturing of communication devices, modems, routers etc. with enhanced computational and data handling capacities.

## Social Chemistry

### Decoding the Patterns of Human Connection

**Hachette UK** full of wisdom and entertaining anecdotes! The Economist 'fascinating' Financial Times Social Chemistry will utterly transform the way you think about 'networking.' Understanding the contours of your social network can dramatically enhance personal relationships, work life, and even your global impact. Are you an Expansionist, a Broker, or a Convener? The answer matters more than you think. . . . One of 2021's Most Highly Anticipated New Books--Newsweek One of The 20 New Leadership Books--Adam Grant One The Best New Wellness Books Hitting Shelves In January--Shape.com A Next Big Idea Club Nominee \_\_\_\_\_ Conventional wisdom would have us believe that it is the size of your network that matters: how many people do you know? We're told to mix, mingle, and connect. But social science research suggests otherwise. The quality and structure of our relationships have far greater impact on our personal and professional lives. our relationships with friends, family, co-workers, neighbours, and collaborators are by far our greatest asset. Yet, most people leave them to chance. In this ground-breaking study, Marissa King, Professor of Organizational Behavior at the Yale, argues that there are strategic ways in which we can alter our relationships for a happier and more fulfilling life. With new understanding, this book can help readers to see how they can harness the power of their networks in their personal relationships, at work, and to create a better world.
