By the Sweat of Their Brows A Farce in Three Acts Producing Animation CRC Press Drawing heavily from the authors' twenty years of combined experience, Producing Animation offers a clear overview of this exciting industry and a comprehensive guide to the process of developing a project from conception to final delivery. Written from the perspective of a producer, this book offers the foundation of how a project is created in addition to describing the role of the producer at each phase. Answers are provided to many of the most commonly asked questions about animation ranging from how to enter the business to the average cost and schedule for a prime-time animated series. Producing Animation has the first-of-its-kind comprehensive chart of accounts for animation, named the Animation Budget Builder, which can be individually tailored for each project. Visit [www.MovieMagicProducer.com](http://www.MovieMagicProducer.com) for more details. Students, aspiring producers, investors, television and studio executives, artists, film line producers wishing to branch into animation, and legal advisors will find this an invaluable tool. The chapters specifically geared to the pre-production, production and postproduction processes offer animation producers a wealth of practical advice. Numerous illustrations outline the different steps of production. Forms the authors have devised to help streamline the process are also included. Observations from a wide range of industry professionals such as; studio heads, creators, directors, producers, writers and members of the production crew, give the reader insight into what it takes to be successful in this business. The authors' personal anecdotes at key process checkpoints relay firsthand experience, illustrating some of the pitfalls a producer must learn to circumvent. Detailed information on preparing a thorough production plan including the budget, schedule, and crew plan can also be found in this book. iPad in Education For Dummies John Wiley & Sons Offers information on using an iPad in the classroom, including an overview of the iPad's features, device configuration and management, and best practices, tools, and apps for classrooms. On Animation The Director's Perspective Vol 1 CRC Press Be a fly on the wall as industry leaders Bill Kroyer and Tom Sito take us through insightful face-to-face interviews, revealing, in these two volumes, the journeys of 23 world-class directors as they candidly share their experiences and personal views on the process of making feature animated films. The interviews were produced and edited by Ron Diamond. Your job is not to be the one with the answers. You should be the one that gets the answers. That's your job. You need to make friends and get to know your crew. These folks are your talent, your bag of tricks. And that's where you're going to find answers to the big problems - Andrew Stanton It's hard. Yet the pain you go through to get what you need for your film enriches you, and it enriches the film. - Brenda Chapman Frank and Ollie always used to say that great character animation contains movement that is generated by the character's thought process. It can't be plain movement. - John Lasseter The beauty of clay is that it doesn't have to be too polished, or too smooth and sophisticated. You don't want it to be mechanical and lifeless. - Nick Park The good thing about animation is that tape is very cheap. Let the actor try things. This is where animation gets to play with spontaneity. You want to capture that line as it has never been said before. And, most likely, if you asked the actor to do it again, he or she just can't repeat that exact performance. But you got it. - Ron Clements Cambridge IGCSE® Combined and Co-ordinated Sciences Coursebook with CD-ROM Cambridge University Press The Cambridge IGCSE® Combined and Co-ordinated Sciences series is tailored to the 0653 and 0654 syllabuses for first examination in 2019, and all components of the series are endorsed by Cambridge International Examinations. Cambridge IGCSE® Combined and Co-ordinated Sciences Coursebook is tailored to the 0653 and 0654 syllabuses for first examination in 2019 and is endorsed for full syllabus coverage by Cambridge International
