LIT Verlag Münster This volume contains a collection of essays on Shakespeare Jubilees around the world, from 1769 to 2014. SCENOGRAPHIC IMAGINATION

SIU Press In this enlarged and thoroughly revised third edition of his widely used text, Darwin Reid Payne explores the principles and philosophies that shape the visual elements of theatre. Payne sets out to discover who scenographers are and to define their responsibilities. He sees scenographers as not merely craftspersons but artists with "a special vision that spans all the arts." Such artists are in a position to "extend and amplify underlying meanings of the production." The proper goal of beginning scenographers, according to Payne, is one day to be able to approach the job as artists in full command of their craft. Payne seeks to instill in beginning scenographers a basic core of knowledge: an understanding of theatre history and the development of drama; a knowledge of art history and an understanding of periods and styles of architecture, painting, sculpture, furnishings, and costume; and a familiarity with the principles, techniques, and materials of pictorial and

three-dimensional design. This new edition contains 248 illustrations, 38 more than the second edition. Payne's goal, certainly, is to teach students what to do and how to do it; equally important, however, is Payne's view that scenographers must know why. To Payne, "Scenography is an art whose scope is nothing less than the whole world outside the theatre." Scenographers must read not only in their own field but in others as well. Payne has incorporated into his text many suggestions for outside readings, quoting passages and even entire chapters from important works. Stressing research, Payne argues that without knowledge of the literature of their own and related arts, scenographers cannot grow. And that is the emphasis of this book: to present aspiring scenographers with an approach and a set of concepts that will enable them to grow. Toward that end, Payne establishes five priorities, the first of which is to develop in students what he calls "time vision," or the ability to "see" the historical past as a living place with living inhabitants. The second priority is to bring about an awareness that allows students to "see" beneath the surface of objects and events. Third, students must be helped to recognize and appreciate the difference between the "concept of space as it exists outside the theatre and the concept of space as it is used within the theatre." The fourth priority is to ingrain in students an understanding of the importance of imagery to the scenographer, and the final priority is to teach those technical skills necessary to carry out the concepts of the scenographer.

MOVIE-MADE JEWS

AN AMERICAN TRADITION

Rutgers University Press **Movie-Made Jews** focuses on a rich, usable American Jewish cinematic tradition. This tradition includes fiction and documentary films that make Jews through antisemitism, Holocaust indirection, and discontent with assimilation. It prominently features the unapologetic assertion of Jewishness, queerness, and alliances across race and religion. Author Helene Meyers shows that as we go to our local theater, attend a Jewish film festival, play a DVD, watch streaming videos, Jewishness becomes part of the multicultural mosaic rather than collapsing into a generic whiteness or being represented as a life apart. This engagingly-written book demonstrates that a Jewish movie is neither just a movie nor for Jews only. With incisive analysis, **Movie-Made Jews** challenges the assumption that American Jewish cinema is a cinema of impoverishment and assimilation. While it's a truism that Jews make movies, this book brings into focus the diverse ways movies make Jews.

ONE MAN'S SEARCH FOR LOVE AND THE ELUSIVE CURE FOR HEARTBREAK

Simon and Schuster **Eat, Pray, Love** (from a man's perspective) meets **Under the Tuscan Sun**—a fresh, heartwarming story about a man who travels to Verona, where he answers letters addressed to Shakespeare's Juliet, all in an attempt to understand heartbreak, to heal and to find love again. In fair Verona where we lay our scene... When Glenn Dixon is spurned by love, he does something unusual. He travels to Verona, Italy, to become a scribe of Juliet, Shakespeare's fictional character, all in an attempt to understand his heartbreak. Once there, he volunteers to answer the thousands of letters that arrive addressed to Juliet, letters sent from lovelorn people all over the world who long to understand the mysteries of the human heart. Glenn's journey takes him deep into the charming community of Verona, where he learns the traditions of the townspeople and becomes involved in unravelling the truth behind Romeo and Juliet—Did these star-crossed lovers actually exist? Did they live in Verona? Why have they remained at the forefront of hearts and minds for centuries? And what can they teach us about love? At the same time, we learn about Claire, Glenn's unrequited love, the source of his heartbreak. Was she truly his soul's match, or was she, like Rosalind in Shakespeare's classic play, a mere infatuation who pales in comparison the moment his real Juliet enters his life? When Glenn returns home to Canada and resumes his duties as a Grade 10 English teacher, he undertakes a lively reading of Romeo and Juliet with his students, engaging them in passions past and present. But in an intriguing reversal of fate and fortune, his students—along with an old friend—instruct the teacher on the true meaning of love, loss, and moving on. An enthralling tale of modern-day love steeped in the romantic traditions of eras past, this is a memoir that will warm your heart.

DECONSTRUCTION AND TRANSLATION

Routledge *Deconstruction and Translation* explains ways in which many practical and theoretical problems of translation can be rethought in the light of insights from the French philosopher Jacques Derrida. If there is no one origin, no transcendent meaning, and thus no stable source text, we can no longer talk of translation as meaning transfer or as passive reproduction. Kathleen Davis instead refers to the translator's freedom and individual responsibility. Her survey of this complex field begins from an analysis of the proper name as a model for the problem of signification and explains revised concepts of limits, singularity, generality, definitions of text, writing, iterability, meaning and intention. The implications for translation theory are then elaborated, complicating the desire for translatability and incorporating sharp critique of linguistic and communicative approaches to translation. The practical import of this approach is shown in analyses of the ways Derrida has been translated into English. In all, the text offers orientation and guidance through some of the most conceptually demanding and rewarding fields of contemporary translation theory.

MASCULINITIES IN A GLOBAL ERA

Springer Science & Business Media **Masculinities in a Global Era** extends the conversation of masculinity studies by analyzing global masculinities from a psychological perspective. Canvassing a broad array of psychological aspects such as the construction of identity, the negotiation of power, coping with trauma, and sexuality, this volume shows how masculinities are experienced, performed and embodied in geographically dispersed communities. Importantly, **Masculinities in a Global Era** fulfills a much-needed but elusive need within the study of masculinities: a forum in which the often polarized approaches of pro-feminists and men's rights advocates can begin to move beyond their entrenched historical positions towards a more fruitful and nuanced future.
