Rhetoric, History, and Women's Oratorical Education

American Women Learn to Speak

[Routledge](#) **Historians of rhetoric have long worked to recover women's education in reading and writing, but have only recently begun to explore women's speaking practices, from the parlor to the platform to the varied types of institutions where women learned elocutionary and oratorical skills in preparation for professional and public life. This book fills an important gap in the history of rhetoric and suggests new paths for the way histories may be told in the future, tracing the shifting arc of women's oratorical training as it develops from forms of eighteenth-century rhetoric into institutional and extrainstitutional settings at the end of the nineteenth century and diverges into several distinct streams of community-embodied theory and practice in the twentieth. Treating key rhetors, genres, settings, and movements from the early republic to the present, these essays collectively challenge and complicate many previous claims made about the stability and development of gendered public and private spheres, the decline of oratorical culture and the limits of women's oratorical forms such as elocution and parlor rhetorics, and women's responses to rhetorical constraints on their public speaking. Enriching our understanding of women's oratorical education and practice, this cutting-edge work makes an important contribution to scholarship in rhetoric and communication.**

Finding Your Way to an Immensely Fruitful Life

[Tyndale Momentum](#) "Join bestselling author Beth Moore in her life-changing quest of vine-chasing-and learn how everything changes when you discover the true meaning of a fruitful, God-pleasing, meaning-filled life. Most of us have times when, if we are honest, we'd admit to feeling like our lives are embarrassingly small and insignificant. Times when it seems like we're going through a whole lot of pain and striving without much to show for it. Like our daily pursuits don't really matter in the long run. At times like that, we can't help wondering if we really matter-to the world or even to God. In Chasing Vines, Beth Moore gives us a new hope, revealing the abundant secrets of a fruitful, Kingdom-building, God-pleasing life. Tracing the images of vinedresser, vine, branch, and fruit through Scripture, and sharing stories from her own journey, Beth shows us how nothing in our lives is wasted. Not the place we've been planted. Not the painful pruning. Not even the manure that gets dumped on us when we least expect it. Beth is convinced from Scripture that every person who knows Jesus is meant to thrive in fruitfulness. Life might not always be fun, but in Christ, it can always be immensely fruitful. Nothing is for nothing. Join Beth on

her journey of discovering what it means to chase vines-and learn how everything changes when we understand and fully embrace God's amazing design for growing us into fruitful, meaningful, abundant life"--

God. Through conscious engagement in this fight believers stand firmly winning against all odds. In 2005, during prayer, the Holy Spirit inspired me to write this book on spiritual warfare. I was going through a precarious time and as usual, I sought God in prayer and study of the Word. The Holy Spirit led me to Ephesians 6:10-18. As I studied and meditated, God moved me to begin writing on the subject of warfare. During research and study, I discovered there are not enough books recording this phase of the Christian's journey. Therefore, I saw the need to press through varied attacks to produce this work.

The Undoing of Saint Silvanus

NavPress Exciting fiction premiere from beloved New York Times bestselling author Beth Moore. 2017 Christy Award finalist (General Fiction category) Only God knew why Jillian Slater agreed to return to New Orleans on the news that her father had finally drunk himself to death. It's not like they were close. She hadn't seen him—or her grandmother, the ice queen—in almost 20 years. But when Adella Atwater, the manager of her grandmother's apartment house, called and said Jillian's expenses would be paid if she'd fly in for the burial, a free trip to New Orleans was too intriguing to resist. What Adella didn't tell her was that the apartment house wasn't a house at all and, whatever it was, bore the dead weight of a long and painful history. As soon as Jillian meets the odd assortment of renters and realizes that her grandmother had no idea she was coming, she hatches a plan to escape. But the investigation into her father's death quickly unfolds and Jillian is drawn into the lives of the colorful collection of saints and sinners who pass through Saint Silvanus. She soon discovers there is more at stake than she ever imagined. Who is behind the baffling messages and the strange relics left on the steps? Is it possible that her family is actually cursed? Or is it just this crazy old house that holds them all under its spell? Jillian walks into a web of spiritual and personal danger borne out of her family's broken history, and despite Adella's wildest efforts, only God himself can orchestrate the undoing of all that is going on at Saint Silvanus.

English Civic Pageantry, 1558-1642

Mrts "This revised book seeks to call renewed and vigorous attention to this sometimes marginalized dramatic form by insisting that civic pageants constituted a major part of cultural and theatrical life in early modern England. Bergeron's fresh look at this material seeks to recover and analyze the world of English civic pageantry, opening its richness for inspection and wonder."--BOOK JACKET.

Workshop Statistics:

Discovery With Data and Minitab

Springer Science & Business Media Shorn of all subtlety and led naked out of the protective fold of educational research literature, there comes a sheepish little fact: lectures don't work nearly as well as many of us would like to think. -George Cobb (1992) This book contains activities that guide students to discover statistical concepts, explore statistical principles, and apply statistical techniques. Students work toward these goals through the analysis of genuine data and through interaction with one another, with their instructor, and with technology. Providing a one-semester introduction to fundamental ideas of statistics for college and advanced high school students, Workshop Statistics is designed for courses that employ an interactive learning environment by replacing lectures with hands on activities. The text contains enough expository material to stand alone, but it can also be used to supplement a more traditional textbook. Some distinguishing features of Workshop Statistics are its emphases on active learning, conceptual understanding, genuine data, and the use of technology. The following sections of this preface elaborate on each of these aspects and also describe the unusual organizational structure of this text.

Political Culture in the Reign of Elizabeth I

Queen and Commonwealth 1558–1585

Cambridge University Press In this major contribution to the Ideas in Context series Anne McLaren explores the consequences for English political culture when, with the accession of Elizabeth I, imperial 'kingship' came to be invested in the person of a female ruler. She looks at how Elizabeth managed to be queen, in the face of considerable male opposition, and demonstrates how that opposition was enacted. Dr McLaren argues that during Elizabeth's reign men were able to accept the rule of a woman partly by inventing a new definition of 'citizen', one that made it an exclusively male identity, and she emphasizes the continuities between Elizabeth's reign and the outbreak of the English civil wars in the seventeenth century. A significant work of cultural history informed by political thought, **Political Culture in the Reign of Elizabeth I** offers a wholesale reinterpretation of the political dynamics of the reign of Queen Elizabeth.
