Learning Salesforce Development with Apex

Learn to Code, Run and Deploy Apex Programs for Complex Business Process and Critical

Business Logic - 2nd Edition

BPB Publications Learn to harness the power of the Apex language to build Salesforce applications

DESCRIPTION Acquiring knowledge of Apex has proved to be a valuable skill for developers eager to add business logic, as well as to execute flow and transaction control statements on Salesforce server. In this updated and expanded second edition, Author Paul Battison places a significant emphasis on the scalability, security, and deployment capabilities of Salesforce applications. The nine-time Salesforce MVP took another shot at teaching Apex programming and getting people to start developing Salesforce applications with complete confidence. Some of the most notable features of this newer edition are: -Setting up the Salesforce development environment and improving code storage and execution techniques. -Writing secure Apex code and different ways to enforce security while scaling applications. -Multiple ways to put your Apex code into production. -Acquire working knowledge of declaring variables in Apex. -Recognize Apex's collection-based functionality. -Use Apex's different control statements to manage the flow of a program. -Get familiar with Apex's built-in testing tools. -Acquire proficiency in interacting with third-party applications and data. -A quick rundown on successfully operating and managing CI/CD and DevOps. -Expert-run approaches and best practices to write robust codes and avoid major mistakes. The book contains updates on several sections of this book, including but not limited to programming principles, the use of REST APIs, code testing, and simple examples to assist you in developing dynamic solutions and creating a platform to build.

WHO THIS BOOK IS FOR Both new and experienced Salesforce administrators can benefit from this book. Those who have no previous programming knowledge can also benefit from this book. The reader is anticipated to have a basic understanding of Salesforce as a platform.
