It has passed its "use-by" date and should be relegated to the dustbins of history, and the sooner, the better. Nevertheless, the contributors to this volume believe that the church, in spite of its somewhat checkered history and its many present failures, remains an integral part of God's redemptive purposes being worked out in the world, and that God's call to the church is now what it has always been: to be the faithful people of God, bearing joy-filled witness to the resurrection of Jesus Christ in word, worship, and work, in its corporate life, and in the lives of each of its members. Each chapter in this book explores an aspect of what it means to be the church, both with respect to its own life, and with an eye to its presence and mission in the world. The Sixth Edition, with the Author's Last Corrections, Etc Liberation of Dogma Faith, Revelation, and Dogmatic Teaching Authority [Wipf and Stock Publishers](#) **In a playful foreword that isn't, Juan Luis Segundo calls his present work posthumous - both because the sensitivity of the topic puts any future works in jeopardy, and because it provides the logical key to all his previous theological work. Thirty years a theologian, Segundo has tried to interpret the meaning of the gospel for believers today. One of the pioneers of Latin American liberation theology, he has tried especially to discern the relevance of faith to the emancipation of human beings from conditions of oppression. In 'The Liberation of Dogma' he turns to foundational questions of Christian faith seldom addressed by liberation theology: the meaning of revelation, and its articulation in dogma. Beginning with a brilliant historical survey of the development of scripture, Segundo lays the basis for his understanding of revelation as a process of divine pedagogy, an interaction between God and the human community in which the latter learn how to learn. The subsequent history of dogma reflects a continuation of the biblical story as the church learns to test and apply paradigms of faith to the challenges of an unfolding cultural and historical situation. Segundo examines the collision that occurred in the Middle Ages, when Greek dogmatic formulations -carefully worded to address problems posed by Hellenistic culture - were imposed on the new barbarian tribes as ready-made truths. This resulted in the loss of a dynamic understanding of revelation and faith, from which the church has only emerged since Vatican II. In his conclusion, Segundo develops a theology of revelation attuned to the signs of the times, a perspective influenced by the experience of Latin America's base communities. According to Segundo, Knowledge of God as 'revealing' something occurs to us when we are discovered to have a historical sensitivity that converges with God's own intentions. It is from a perspective and practice attuned to the Reign of God that we are free to discern God's revelation in history today. Glencoe Mathematics Applications and Connections. Horrifyingly, George Barna contends that over 60 percent of Christian kids will run off to university and "lose their faith." Some pollsters believe the number is as high as 80 percent. But there is great news! Your child doesn't have to become a statistic. Your child can become an adult who loves the Lord the same way you do — but this will likely require a radical parenting reset on your part. Todd Friel has witnessed to hundreds of university students, most of whom are Bible-belt backsliders.
