A Band of Angels

A Story Inspired by the Jubilee Singers (with audio recording)

Simon and Schuster A Band of Angels is fiction, but it is based on real events and people. The character of Ella was inspired by Ella Sheppard Moore, who was born February 4, 1851, in Nashville, Tennessee. Her father was able to free himself and young Ella from slavery, but before he could buy freedom for Ella's mother she was sold away. Ella was raised in Cincinnati, where she took music lessons. At fifteen, she was left penniless when her father died. She arrived at Fisk School in 1868 with only six dollars. Fisk was opened in 1866 as a school for former slaves and began offering college classes in 1871. That year, in a desperate attempt to save Fisk from closing, a music teacher named George White set out with a group of students on a singing tour to raise money. Although at first they only sang popular music of the day, they soon became famous for introducing spirituals to the world. Ella Sheppard was the pianist for the Jubilee Singers on their historic concert tours, which raised enough money to save the school and build Jubilee Hall, the first permanent structure in the South for the education of black students. Ella later married George Moore, had three children, and located her mother and a sister. She died in 1914. Today her great-granddaughter is a librarian at Fisk University who shares the history of the Jubilee Singers with visitors. Although none graduated from Fisk, the original Jubilee Singers were recognized with honorary degrees in 1978. Today, Jubilee Singers at Fisk University continue to keep alive a rich musical tradition that includes such

songs as "Swing Low, Sweet Chariot," "Many Thousand Gone," and "Go Down, Moses."

The Uninhabitable Earth

A Story of the Future

Penguin UK **SUNDAY TIMES AND THE NEW YORK TIMES BESTSELLER** 'An epoch-defining book' Matt Haig 'If you read just one work of non-fiction this year, it should probably be this' David Sexton, Evening Standard Selected as a Book of the Year 2019 by the Sunday Times, Spectator and New Statesman A Waterstones Paperback of the Year and shortlisted for the Foyles Book of the Year 2019 Longlisted for the PEN / E.O. Wilson Literary Science Writing Award It is worse, much worse, than you think. The slowness of climate change is a fairy tale, perhaps as pernicious as the one that says it isn't happening at all, and if your anxiety about it is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible, even within the lifetime of a teenager today. Over the past decades, the term "Anthropocene" has climbed into the popular imagination - a name given to the geologic era we live in now, one defined by human intervention in the life of the

planet. But however sanguine you might be about the proposition that we have ravaged the natural world, which we surely have, it is another thing entirely to consider the possibility that we have only provoked it, engineering first in ignorance and then in denial a climate system that will now go to war with us for many centuries, perhaps until it destroys us. In the meantime, it will remake us, transforming every aspect of the way we live-the planet no longer nurturing a dream of abundance, but a living nightmare.

The Occult Roots of Nazism

Secret Aryan Cults and Their Influence on Nazi Ideology

NYU Press Nearly half a century after the defeat of the Third Reich, Nazism remains a subject of extensive historical inquiry, general interest, and, alarmingly, a source of inspiration for resurgent fascism in Europe. Goodrick-Clarke's powerful and timely book traces the intellectual roots of Nazism back to a number of influential occult and millenarian sects in the Habsburg Empire during its waning years. These sects combined notions of popular nationalism with an advocacy of Aryan racism and a proclaimed need for German world-rule. This book provides the first serious account of the way in which Nazism was influenced by powerful millenarian and occult sects that thrived in Germany and Austria almost fifty years before the rise to power of Adolf Hitler. These millenarian sects (principally the Ariosophists) espoused a mixture of popular nationalism, Aryan racism, and occultism to support their advocacy of German world-rule. Over time their ideas and symbols, filtered through nationalist-racist groups associated with the infant Nazi party, came to exert a strong influence on Himmler's SS. The fantasies thus fueled were played out with terrifying consequences in the realities structured into the Third Reich: Auschwitz, Sobibor, and Treblinka, the hellish museums of Nazi apocalypse, had psychic roots reaching back to millennial visions of occult sects. Beyond what the Times Literary Supplement calls an intriguing study of apocalyptic fantasies, this bizarre and fascinating story contains lessons we cannot afford to ignore.

The Legend of the Indian

Paintbrush

Penguin In spring, the hills and meadows of Texas and Wyoming are ablaze with the reds, oranges, and yellows of the Indian Paintbrush. How this striking plant received its name is told in an old Indian legend. Many years ago, when the People traveled the Plains, a young Indian boy had a Dream-Vision in which it was revealed that one day he would create a painting that was as pure as the colors of the evening sky at

sunset. The boy grew up to become the painter of the tribe, but although he found a pure white buckskin for a canvas and made paints from the brightest flowers and the reddest berries, he could not capture the sunset. How the young Indian artist finally fulfills his Dream-Vision is lovingly told and illustrated by Tomie dePaola, in words and pictures that capture the spirit and beauty of this dramatic legend.
