1000 Days at Number 11

Atlantic Books Ltd In the late summer of 2007, shares of Northern Rock went into free-fall, causing a run on the bank - the first in over 150 years. Northern Rock proved to be only the first. Twelve months later, as the world was engulfed in the worst banking crisis for more than a century, one of its largest banks, RBS, came within hours of collapse. Back from the Brink tells the gripping story of Alistair Darling's one thousand days in Number 11 Downing Street. As Chancellor, he had to avert the collapse of RBS hours before the cash machines would have ceased to function; at the eleventh hour, he stopped Barclays from acquiring Lehman Brothers in order to protect UK taxpayers; he used anti-terror legislation to stop Icelandic banks from withdrawing funds from Britain. From crisis talks in Washington, to dramatic meetings with the titans of international banking, to dealing with the massive political and economic fallout in the UK, Darling places the reader in the rooms where the destinies of millions weighed heavily on the shoulders of a few. His book is also a candid account of life in the Downing Street pressure cooker and his relationship with Gordon Brown during the last years of New Labour. Back from the Brink is a vivid and immediate depiction of the British government's handling of an unprecedented global financial catastrophe. Alistair Darling's knowledge and understanding provide a unique perspective on the events that rocked international capitalism. It is also a vital historical document.

The Autobiography

Random House Paul McGrath is Ireland's best loved sportsman and also its least understood. An iconic football presence during a professional career stretching over 14 years, he played for his country in the European Championship finals of 1988 and the World Cup finals of 1990 and 1994. But, behind the implied glamour of life in the employ of great English clubs like Manchester United and Aston Villa, McGrath wrestled with a range of destructive emotions that made his success in the game little short of miraculous. That story has until now never been told. It is a story that runs from a hard, hidden childhood spent in Dublin's orphanages all the way to the pain of two marriage break-ups and the struggle to cope with life after football. Quite apart from his all too public struggle with alcoholism, the story runs through the surreal highs and calamitous lows of a life lived habitually on the edge of chaos. It is not just a football story. It is an extraordinary human story that is certain to surprise with its candour. Here, for the first time, read about the father he never met; the mother whose love never died; the routine loneliness and ritual bullying endured by a black kid growing up behind closed doors in 1960s Dublin; the emotional breakdown suffered on leaving that institution; the recovery that - remarkably - brought him all the way to Old Trafford; the rollercoaster ride that followed. Here, the guilt, fear, self-loathing are all laid bare in a story fired with hope and determination for the future. It may well be the most candid sports book ever written.

Grieving Dads

To the Brink and Back

Grieving Dads: To the Brink and Back is a collection of candid stories from grieving dads that were interviewed over a two year period. The book offers insight from fellow members of, in the haunting words of one dad, "this terrible, terrible club," which consists of men who have experienced the death of a child. This book is a collection of survival stories by men who have survived the worst possible loss and lived to tell the tale. They are real stories that pull no punches and are told with brutal honesty. Men that have shared their deepest and darkest moments. Moments that included thoughts of suicide, self-medication and homelessness. Some of these men have found their way back from the brink while others are still standing there, stuck in their pain. The core message of *Grieving Dads* is "you're not alone." It is a message that desperately needs to be delivered to grieving dads who often grieve in silence due to society's expectations. *Grieving Dads: To the Brink and Back* is a book that no grieving dad or anyone who cares for him should be without. As any grieving parent will tell you, there are no words to describe the hell one experiences after the death of a child. Many men have no clue how to deal with or understand the myriad emotional, mental, and physical responses experienced after the death of a child. Stories appearing in the book have been carefully selected to represent a cross-section of fathers, as well as a diverse portrayal of loss. This approach helps reflect

the full spectrum of grief, from the early days of shock and trauma to the long view after living with loss for many years. Any bereaved father will find brotherhood in these pages, and will feel that someone understands them. While there is plenty of raw emotion in this book-the stories are not exercises in self-pity nor are they studies in grief. They are survival stories instead. Some are testimonies to hope. Some are gut-wrenching accounts of overwhelming despair. But all of them are real-life stories from real-life grieving dads, and they show that even if one reaches his physical and emotional bottom, it is possible (although not easy) to live through that pain and find one's way to the other side of grief. Most dads in this book found themselves in a state of physical, mental, and emotional collapse after the death of their child. As if the losses alone weren't enough to drive these men to the brink, most try to deal with their grief according to the conventional wisdom so many men are brought up with, which perversely, increases their suffering all the more. We all know the party line about how men are "supposed" to deal with loss or even disappointment: toughen up, get back to work, take it like a man, support your wife, don't talk about your emotions, don't lose control, and if you must cry-by all means do so in private.

Turning Escorts Around

Harper Collins The Escorts Group, one of India's most iconic business houses, has seen its fair share of major setbacks in its seventy-five-year history. Founded in 1944 in Lahore, Escorts was first a victim of Partition. In 1960, it set up its manufacturing base in Faridabad on the outskirts of Delhi, and over the years was associated with leading global players such as Ford, JCB and Yamaha. The Rajdoot bikes it produced were a rage in the 1980s. But the same decade also witnessed a hostile takeover bid by Lord Swraj Paul, one of the lowest points in the company's life. No crisis, though, compared with the downturn that followed the economic liberalization of 1991, with the group exiting several of its business. At one point, the financial crisis was so deep that power supply to its office was cut off for non-payment of bills. From then to

now, Escorts has seen a remarkable turnaround, led by Rajan Nanda and his son Nikhil. Back from the Brink is the story of how Escorts was turned around -- an eye-opening account of management, with crucial lessons for practitioners, professionals and students looking to understand how a quintessentially Indian company is run -- and revived.

A Nicole Cobain Mystery

Crooked Lane Books Dead bodies and bad cops make for a brutal Montana spring- and a small-town sheriff's worst nightmare in the second thrilling installment of the Nicole Cobain mysteries. It's a glorious spring in Blue Mesa, Montana, but not all is well in paradise. The authorities have been waging war against drug traffickers who use "mules" to carry the dope and cash across the Canadian border. And murder gets thrown into the equation when sheriff Nicole Cobain is called to the lake to assist Border Patrol but finds their boat adrift and a dead man in the ice. When the police drag the lake looking for bodies, they recover a satchel containing money and

drugs--a satchel marked with the Border Patrol seal. The evidence points to corrupt elements within the Border Patrol who are involved in the drug trade. Then, another murder victim turns up--the brother of Frank, a Border Patrol agent who's been trying to root out the bad agents. Nicole suspects that the two missing agents may have been responsible for the theft of the money and drugs, but when one of them is found dead from a single gunshot wound, the trail suddenly grows cold. As the bodies pile up, Nicole begins to feel that she's the only good guy on the scene--and on the brink of a terrible discovery that could shake the community to its core.

True Stories and Practical Help for Overcoming Depression and Bipolar Disorder

New Harbinger Publications On July 24th, 2004, author Graeme Cowan took pen to paper and said goodbye to his family. "I just can't be a burden any longer," he wrote. After four failed suicide attempts, and a five-year episode of depression that his psychiatrist described as the worst he had ever treated, Cowan set out on a difficult journey back from the brink. Since then, he has dedicated his life to helping others struggling with depression and bipolar disorder—and that is how this book came to be. If you have severe depression or bipolar disorder, it is important to remember that you are not alone. Featuring interviews with people from of all walks of life, Back from the Brink is filled with real stories of hope and healing, information about treatment options and medication, and tools for putting what you've learned into practice. If you are ready to put one foot in front of the other and finally set out on the path to recovery, the powerful stories in this book will inform and inspire you to make lasting change. If you have severe depression or bipolar disorder, you may find

it difficult to take that first step toward recovery. You aren't alone. In our society, many people with depression or bipolar disorder do not seek therapy or medical treatment due to the stigma that surrounds mental illness. Even people in "progressive" communities may not want to admit that they are on antidepressants or mood-balancing medications. Isn't it time we changed the way we thought about these illnesses? The book includes a special foreword by actress Glenn Close, and features in-depth interviews with former US Representative Patrick Kennedy; television talk-show host Trisha Goddard; director of public policy at Google, Bob Boorstin; former chief advisor to Tony Blair, Alastair Campbell; former tennis pro, Cliff Richey; former professional football player, Greg Montgomery; and many more.

Condor

To the Brink and Back--the Life and Times of One Giant Bird

Harper Collins The California condor has been described as a bird "with one wing in the grave." Flying on wings nearly ten feet wide from tip to tip, these birds thrived on the carcasses of animals like woolly mammoths. Then, as humans began dramatically reshaping North America, the continent's largest flying land bird started disappearing. By the beginning of the twentieth century, extinction seemed inevitable. But small groups of passionate individuals refused to allow the condor to fade away, even as they fought over how and why the bird was to be saved. Scientists, farmers, developers, bird lovers, and government bureaucrats argued bitterly and often, in the process injuring one another and the species they were trying to save. In the late 1980s, the federal government made a wrenching decision -- the last remaining wild condors would be caught and taken to a pair of zoos, where they would be encouraged to breed with other captive condors. Livid critics called the plan a recipe for extinction. After the zoo-based populations soared, the condors were released in the mountains of south-central California, and then into the Grand Canyon, Big Sur, and Baja California. Today the giant birds are nowhere near extinct. The giant bird with "one wing in the grave" appears to be recovering, even as the wildlands it needs keep disappearing. But the story of this bird is more than the story of a vulture with a giant wingspan -- it is also the story of a wild and giant state that has become crowded and small, and of the behind-the-scenes dramas that have shaped the environmental movement. As told by John Nielsen, an environmental journalist and a native Californian, this is a fascinating tale of survival.

Coping with Stress

Virgin Pub Imagine spending three and a half years in prison for causing the financial scandal of the century, being divorced by your wife and then, to cap it all, being diagnosed with cancer. In 1995, Nick Leeson's unchecked risk-taking caused the sensational collapse of Barings Bank. He was sentenced to six and a half years in a gang-ridden Singaporean jail, in conditions that defy belief, while, at the same time, his wife left him and he was diagnosed with colon cancer. His stress levels were immeasurable yet, against all odds, he survived. *Back From The Brink* tells Leeson's complete personal story, whilst in-depth conversations with top psychologist Ivan Tyrell show how the continual levels of high stress that affected Nick's mental and physical health can be related to us all, including - living with relationship and family problems - struggling with debt - striving to achieve status and success - coping with serious illness. These pressures are common to many of us yet Leeson's approaches to dealing with his experiences reveal inspirational methods of combating stress. The book enables readers to check their own stress levels by working through easy-to-use charts and questions, and Tyrell's clear, professional analysis and coping strategies make *Back From The Brink: Coping With Stress* a practical yet inspirational book. This amazing story of recovery has real applications in the stressful climate of the modern world. 'My experiences may be unusual, but they offer real insight into how stress can get out of hand and affect all of us. This book will help people who feel overwhelmed by life's difficulties.'

Saving Animals from Extinction

Houghton Mifflin Harcourt True stories of how scientists are saving endangered species, with photos included: "Readers will be moved by Castaldo's appreciation for these animals." —Booklist (starred review) In this book, the acclaimed author of *Sniffer Dogs* details the successful efforts of scientists to bring threatened animals

back from the brink of extinction. How could capturing the last wild California condors help save them? Why are some states planning to cull populations of the gray wolf, despite this species only recently making it off the endangered list? How did a decision made during the Civil War to use alligator skin for cheap boots nearly drive the animal to extinction? Back from the Brink answers these questions and more as it delves into the threats to seven species, and the scientific and political efforts to coax them back from the brink. This rich, informational look at the problem of extinction offers a source of hope—all of these animals' numbers are now on the rise—and will inspire young wildlife lovers and aspiring scientists. Createspace Independent Publishing Platform Preston North End stood on the very edge of existence at the end of 1985/86. Forced to go cap-in-hand canvassing for re-election votes after the indignity of finishing 91st in the Football League, the subsequent appointment of John McGrath as manager would prove to be a masterstroke. The team was rebuilt utilising his book of contacts as the club were just about broke, but these players bonded together to produce the most remarkable transformation in the clubs fortunes over the next 9 months, embarking on vital cash generating cup runs and finishing runners-up to Northampton Town in the league to say farewell to Division Four. The season will long live in the memories of those who witnessed it. The club have since progressed, but owe a massive debt to John McGrath for masterminding their resurgence and subsequent stability. Without him, it is debatable whether Preston North End would even exist today, never mind play in the latest fantastic incarnation of Deepdale. Thank goodness he caught Preston North End before it died.

Libya and Nuclear Proliferation

Stepping Back from the Brink

Routledge This Adelphi Paper examines the motives behind Libyas pursuit of a nuclear weapons capability, from Gadhafis rise to power in 1969 through to the end of 2003. It also assesses the proliferation pathways that the regime followed during this period, including early dependence on Soviet technology and assistance, subsequently relying on technological infusions from the A.Q. Khan network. Wyn Q. Bowen clearly analyzes the decision to give up the quest for nuclear weapons, focusing on the main factors that influenced the Gadhafi regimes calculations, including the perceived need to re-engage, both politically and economically, with the international community, particularly the United States. It explores the process of dismantling the nuclear programme and the question of whether Libya constitutes a model for addressing the challenges posed by other proliferators.

How Australia's Landscape Can Be Saved

HarperCollins Australia Featured on Australian Story, Peter Andrews is a racehorse breeder and farmer credited with remarkable success in converting degraded, salt-ravaged properties into fertile, drought-resistant pastures. His methods are so at odds with conventional scientific wisdom that for 30 years he has been dismissed and ridiculed as a madman. He has faced bankruptcy and family break-up. But now, on the brink of ecological disaster, leading politicians, international scientists and businessmen are beating a path to his door as they grapple with how best to alleviate the affects of drought on the Australian landscape. Described as a man who reads and understands the Australian landscape better than most scientists, supporters of Peter Andrews claim he has done what no scientist ever thought to do - he has restored streams and wetlands to the way they were before European settlement interfered with them. the startling results of his natural sequence farming are said to have been achieved very cheaply, simply and quickly.

Manchester United Crisis, 1919-1932

Empire Publications (UK) The twenty-odd years that separated the First World War from the Second World War have often been referred to as the long weekend. This book follows the fortunes of Manchester United from Friday night to Sunday afternoon. It is the story of how a pre-war giant fell asleep and very nearly did not wake up again. It is the story of record highs and record lows, of protests, punch-ups and revolts, of heroes, villains, wizards and saviours, of great escapes and even greater cock-ups, of joy and pain, tragedy and despair. Amazingly, it is a story that has never properly been told before. Hopefully, it has been now. 'Back from the Brink' chronicles the departure of the father of Manchester United, John Henry Davies and the arrival of its saviour and inspiration James Gibson. The debt modern United fans owe these two men cannot be underestimated. Had it not been for Davies there would be no Manchester United -- when Newton Heath were bankrupted in 1902 he changed the name of the club, found them a new stadium and injected the style and panache now associated with the club throughout the football world. As for Gibson, he took a floundering club playing before dwindling support and introduced such notions as corporate hospitality, the tracksuit manager and a youth system as early as 1931. Thus Gibson paved the way for Busby and Ferguson -- yet this tale concentrates on an era before glory and Manchester United became inextricably linked. As United fans approach another era of uncertainty regarding their club, "Back from the Brink" is the first proper examination of a period during which the club won nothing but laid the groundwork for the club's post-war success.

How Churchill Brought England Back from the Brink

Harper Perennial From the acclaimed novelist and screenwriter of *The Theory of Everything* comes a revelatory look at the period immediately following Winston Churchill's ascendancy to Prime Minister—soon to be a major motion picture starring Gary Oldman. “He was speaking to the nation, the world, and indeed to history...” May, 1940. Britain is at war. The horrors of blitzkrieg have seen one western European democracy after another fall in rapid succession to Nazi boot and shell. Invasion seems mere hours away. Just days after becoming Prime Minister, Winston Churchill must deal with this horror—as well as a skeptical King, a party plotting against him, and an unprepared public. Pen in hand and typist-secretary at the ready, how could he change the mood and shore up the will of a nervous people? In this gripping day-by-day, often hour-by-hour account of how an often uncertain Churchill turned Britain around, the celebrated Bafta-winning writer Anthony McCarten exposes sides of the great man never seen before. He reveals how he practiced and re-wrote his key speeches, from ‘Blood, toil, tears and sweat’ to ‘We shall fight on the beaches’; his consideration of a peace treaty with Nazi Germany, and his underappreciated role in the Dunkirk evacuation; and, above all, how 25 days helped make one man an icon. Using new archive material, McCarten reveals the crucial behind-the-scenes moments that changed the course of history. It’s a scarier—and more human—story than has ever been told. “McCarten's pulse-pounding narrative transports the reader to those springtime weeks in 1940 when the fate of the world rested on the shoulders of Winston Churchill. A true story thrillingly told. Thoroughly researched and compulsively readable.”—Michael F. Bishop, Executive Director of the International Churchill Society

Riding the Storm

Random House Can money buy you happiness? A few years ago, Duncan Bannatyne might have said so. He was happily married, and his businesses were thriving. Life was good. He couldn't have known that a storm was brewing on the horizon, and that he would soon face immense personal and professional struggles, including the strain of a divorce and the impact of the recession on his business empire. Riding the Storm is the inspirational account of how Duncan overcame these setbacks. It's a survival story, full of insights into how he adapted his businesses and his life to new financial realities. In it, Duncan explains exactly how a working-class boy from Clydebank built himself a multimillion-pound business empire, and talks with incredible frankness about the current strategies, goals, and finances of his companies. He reveals the true nature of his feuds and friendships with the other Dragons, and uses his experiences from Dragons' Den to offer advice to start-up entrepreneurs in today's market. He speaks openly about the terrible pain of his divorce, and how his children's love gave him the strength to get through it. He discusses the opportunities that success has given him, from learning to dance for Sport Relief to trekking up Kilimanjaro with his daughter. And finally he explains why, in spite of having just gone through the toughest years of his life, he feels positive about the future—and why you should, too.

How Churchill Brought us Back from the Brink

Penguin UK From the prize-winning screenwriter of The Theory of Everything, this is a cinematic, behind-the-scenes account of a crucial moment which takes us inside the mind of one of the world's greatest leaders - and provides a revisionist, more rounded portrait of his leadership. May, 1940. Britain is at war, European democracies are falling rapidly and the public are unaware of this dangerous new world. Just days after his unlikely succession to Prime Minister, Winston Churchill, faces this horror - and a sceptical King and a party plotting against him. He wonders how he can capture the public mood and does so, magnificently, before leading the country to victory. It is this fascinating period that Anthony McCarten captures in this deeply researched, gripping day-by-day (and often hour-by-hour) narrative. In doing so he revises the familiar view of Churchill - he made himself into the iconic figure we remember and changed the course of history, but through those turbulent and

dangerous weeks he was plagued by doubt, and even explored a peace treaty with Nazi Germany. It's a scarier, and more human story, than has ever been told.

Hachette UK **THE TOP TEN BESTSELLER:** The Inspirational Life of Finn, Britain's Bravest Dog, Winner of the 2017 Daily Mirror Animal Hero of the Year Award and Star of Britain's Got Talent 2019 Hertfordshire, October 5th 2016. At around 2 a.m., PC Dave Wardell and his dog, PD Finn, were trying to apprehend a robbery suspect when he turned around and attacked them. Finn was stabbed with a ten-inch-bladed knife, both through his chest, via his armpit and then - the knife bound for Dave - through the top of his head. Finn no doubt saved Dave's life, but the race was on to try and save Finn's. Dave Wardell's heartfelt memoir charts an incredible journey of friendship and loyalty. It is a celebration of the bond between one man and his dog, from when Dave collected Finn from his kennels at just nine months old, all the way through to Finn's recent and hard-earned retirement. The book charts the career of a highly trained, highly decorated dog. In his time on the job Finn tracked offenders of all kinds; found missing children; tackled armed offenders; saved lives. But Finn isn't just a police dog - he's also a cherished family pet and this is his remarkable, life-affirming story.

On The Edge: Stepping Back From The Brink of Suicide

AuthorHouse James was only five years old and travelling home to Devon after holiday with his family in Scotland in 1986, when tragedy struck. The car was involved in a serious accident just outside Bristol, leaving him fighting for survival on life support. When he emerged from his coma, doctors discovered that he was seriously brain damaged, leaving the left side paralysed. Within the blink of an eye James had been transformed from a gregarious, fun-loving little boy into a rag doll. But with a lot of loving support, he began the long and difficult road to recovery. His attitude was inspirational, and for years he threw himself into rehabilitation. As James grew up he began to feel misunderstood and not able to reach the level of normality he so yearned for. He felt that there was no longer any point to his life. When James asked his doctor for help, the reality of his situation suddenly struck. Suicide would be the ultimate failure. This is the story of James' life and how he fought tooth and nail to stay alive. It is both his autobiography and a guide to personal development. Since making the conscious decision not to give up hope, James has gone on to travel the world and teach English abroad. James is open and honest about the things in which he has found great solace during his darkest hours, and he credits the teachings of Kabbalah, an increasingly popular form of Jewish mysticism, for helping him refocus his life. The singer Madonna, a long term exponent of the spiritual teaching, has been an inspirational figure for James. James is now a picture of good health; despite continued weakness in his left side and a limp, he walks confidently and with a purpose.
