## Fai spazio nella tua vita. Come trovare la felicità con l'arte dell'essenziale

Varia

### Fai spazio nella tua vita

**Rizzoli** *Abiti costosi ormai fuori taglia e fuori moda, scarpe di tutte le fogge, libri, dischi, mobili, servizi da tavola sproporzionati per le nostre esigenze quotidiane. E ancora: vecchi documenti, fotografie, attrezzi inutilizzati, apparecchi elettronici ormai obsoleti. Le nostre case esplodono letteralmente di cose che ci costano tanti soldi, tanto tempo e tanta fatica, che diventano fonte di ansia e preoccupazione e ci distraggono dall'obiettivo più semplice e vero della nostra vita: la felicità. Fare spazio nella nostra casa — e di conseguenza lasciar respirare la nostra mente — significa invece guadagnarsi la libertà di muoverci verso la parte più autentica di noi stessi. Per questo Fumio Sasaki — che ormai da qualche anno vive a Tokyo in una casa di pochi metri quadrati con una ventina di oggetti per lui realmente indispensabili — ha messo a punto un sistema originale articolato in cinquantacinque punti chiari e applicabili da chiunque ogni giorno (più altri quindici per chi non si accontenta). E con *Fai spazio nella tua vita*, un caso editoriale da oltre 200.000 copie vendute in pochi mesi in Giappone, Sasaki perfeziona l'arte del riordino facendola dialogare con una vera filosofia della decrescita e trasformandola in uno stile di vita tanto semplice quanto rivoluzionario.*

### Vita su un pianeta nervoso

**E/O Edizioni** *E se il mondo in cui viviamo fosse congegnato per renderci infelici? E se invece potessimo fare qualcosa al riguardo? Il mondo ci sta confondendo la mente. Aumentano ondate di stress e ansia. Un pianeta frenetico e nervoso sta creando vite frenetiche e nervose. Siamo più connessi, ma ci sentiamo sempre più soli. E siamo spinti ad aver paura di tutto, dalla politica mondiale al nostro indice di massa corporea. Come possiamo rimanere lucidi su un pianeta che ci rende pazzi? Come restare umani in un mondo tecnologico? Come sentirsi felici se ci spingono a essere ansiosi? Dopo anni di attacchi di panico e ansia, queste domande diventano questione di vita o di morte per Matt Haig. Che inizia a cercare il legame tra ciò che sente e il mondo intorno a lui. *Vita su un pianeta nervoso* è uno sguardo personale e vivace su come sentirsi felici, umani e integri nel ventunesimo secolo. «Assumere Vita su un pianeta nervoso due volte al giorno, prima o dopo i pasti. Un libro pieno zeppo di saggezza, intuizione, amore e umorismo». Stephen Fry «Un libro caloroso, generoso e profondo sulle difficoltà del genere umano oggi. Haig è uno dei più importanti scrittori del nostro tempo». Dolly Alderton*

### The Art of Discarding

### How to get rid of clutter and find joy

**Hachette UK** *The original Japanese edition of *The Art of Discarding*, titled *Suteru! Gijutsu*, was published in 2000 and became an overnight sensation - selling a million copies in six months and inspiring a young Marie Kondo. The book has since become a multimillion-copy international bestseller, but it has never been translated into English, until now. In this guide to living a calmer, more ordered life, renowned author Nagisa Tatsumi teaches us how letting go of unwanted things will transform our day-to-day happiness. The book offers practical advice and techniques to help readers learn to let go of stuff that is holding them back, as well as tips for*

acquiring less in the first place. It's time to live with less.

## Hello, Habits: A Minimalist's Guide to a Better Life

**W. W. Norton & Company** *The internationally best-selling author of Goodbye, Things shares insights and practices to help us embrace habits and become the best versions of ourselves. Fumio Sasaki changed his life when he became a minimalist. But before minimalism could really stick, he had to make it a habit. All of us live our lives based on the habits we've formed, from when we get up in the morning to what we eat and drink to how likely we are to actually make it to the gym. In Hello, Habits, Sasaki explains how we can acquire the new habits that we want—and get rid of the ones that don't do us any good. Drawing on leading theories and tips about the science of habit formation from cognitive psychology, neuroscience, and sociology, along with examples from popular culture and tried-and-tested techniques from his own life, he unravels common misperceptions about "willpower" and "talent," and offers a step-by-step guide to success. Ultimately, Sasaki shows how ordinary people like himself can use his principles of good habit-making to improve themselves and change their lives.*

## Vivi leggero

## Liberarsi del superfluo, scegliere l'essenziale e fare spazio per sé

**Tre60** *Mai come oggi siamo sommersi dalle cose, le nostre case scoppiano letteralmente di oggetti, che ci costano denaro, tempo e fatica per tenerli in ordine. Allo stesso modo le nostre vite sono spesso soffocate da relazioni ed emozioni nocive, che diventano fonte di ansia e preoccupazione e ci distraggono dal nostro vero obiettivo: la felicità. Fare spazio nell'ambiente in cui viviamo e liberarci dai rapporti dannosi significa avvicinarci alla parte più autentica di noi stessi, e di conseguenza capire cosa è davvero importante. Ispirandosi al principio svedese del lagom, parola che vuol dire «sufficiente, adeguato, giusto», Regina Wong ci dimostra con idee e suggerimenti pratici che vivere con poco è una ricetta di benessere, e che l'essenzialità va ricercata in tutti gli ambiti e i momenti della vita: dall'alimentazione all'abbigliamento, dalle attività intellettuali ai rapporti umani, dall'uso del tempo a quello dei soldi. Grazie ai suoi consigli, saremo finalmente in grado di scegliere solo ciò che conta e di riappropriarci della nostra libertà.*

## L'arte italiana: Dal barocco all'età contemporanea

## Bianca come il latte, rossa come il sangue

**Edizioni Mondadori** *Leo è un sedicenne come tanti: ama le chiacchiere con gli amici, il calcetto, le scorribande in motorino e vive in perfetta simbiosi con il suo iPod. Le ore passate a scuola sono uno strazio, i professori "una specie protetta che spera si estingua definitivamente".*

## A Novel

**Thomas Nelson** *Hailed as Italy's The Fault in Our Stars, this Italian bestseller is now available for the first time in English. "I was born on the first day of school, and I grew up and old in just two hundred days . . ." Sixteen-year-old Leo has a way with words, but he doesn't know it yet. He spends his time texting, polishing soccer maneuvers, and killing time with Niko and Silvia. Until a new teacher arrives and challenges him to give voice to his dreams. And so Leo is inspired to win over the red-haired beauty Beatrice. She doesn't know Leo exists, but he's convinced that his dream will come true. When Leo lands in the hospital and learns that Beatrice has been admitted too, his mission to be there for her will send him on a thrilling but heartbreaking journey. He wants to help her but doesn't know how—and his dream of love will force him to grow up fast. Having already sold over a million copies, Alessandro D'Avenia's debut novel is considered Italy's The Fault in Our Stars. Now available in English for the first time, this rich, funny, and heartwarming coming-of-age tale asks us to explore the meaning—and the cost—of friendship, and shows us what happens when suffering bursts into the world of teenagers and renders the world of adults speechless.*

## Voltando pagina

**Il Saggiatore** *Virginia Woolf non fu solo la grande romanziera che tutti conosciamo, ma anche una raffinata saggista, una critica acutissima, un'instancabile pubblicista. Lettrice onnivora e anarchica, cercò nei libri «una forma per il caos», vi trovò universi abitati da creature umane, con cui intrecciare ininterrotte conversazioni. Fin dalle prime recensioni lavorò senza pregiudizi: che si trattasse di epistolari, memorie o biografie, saggi critici o romanzi, autori celebri o emeriti sconosciuti, lo studio preparatorio era accurato, il giudizio schietto. La curiosità la guidava senza alcun preconcetto, alimentava i suoi piaceri più intensi, leggere e scrivere, due atti annodati fra loro, due oscure potenze che, fino alla fine, si definirono e si alimentarono reciprocamente. Le qualità della sua penna erano forza, grazia e trasparenza. La sua lingua, ironica e originale, ha attraversato il tempo e lo spazio con una immediatezza folgorante. Femminista, nel senso proprio della consapevolezza di essere una donna, dalla sua scrittura non traspare mai una lagna, nessuna recriminazione, con lei vediamo al lavoro un occhio lucido e spietato, che non perdona, ma spesso sorride e fa ridere. «Pensare le cose come sono» e «dire la verità» le bussole di sempre. In una parola, integrità: «Seguire il proprio istinto, usare il proprio cervello, trarre le conclusioni da ciò che si è visto». Sulla disciplina rigorosa applicata alla sua officina saggistica plasmò la prima vera sperimentazione narrativa, stilistica e formale, messa a punto fin dalla Stanza di Jacob. Gli anni prodigiosi della maturità, in cui lettura e scrittura si nutrono con gioia e sicurezza, portarono alla comparsa dei suoi capolavori. Lilians Rampello ha qui scelto, tagliato, cucito, montato in un nuovo percorso articoli e saggi noti e meno noti – molti inediti in Italia –, illuminando di una luce suggestiva la pienezza e la felicità di testi che sono, infine, un inno al piacere, all'intelligenza delle cose e della realtà, l'«auto biografia di una lettrice» che scrisse certo per guadagnare le sue ghinee, ma senza mai perdere di vista la ragione ultima per cui parlare: l'amicizia, ovvero quelle libere relazioni umane su cui fondò la sua vita. Voltando pagina è la storia di un infaticabile lavoro critico che ha accompagnato il laboratorio creativo e le invenzioni narrative di un'icona letteraria del Novecento, un appassionato, inesauribile omaggio all'«arte della lettura».*

## The Life of God (as Told by Himself)

**University of Chicago Press** *At the center of Franco Ferrucci's inspired novel is a tender, troubled God. In the beginning is God's solitude, and because God is lonely he creates the world. He falls in love with earth, plunges into the oceans, lives as plant and reptile and bird. His every thought and mood serve to populate the planet, with consequences that run away from him—sometimes delightfully, sometimes unfortunately. When a new arrival emerges from the apes, God believes he has finally found the companion he needs to help him make sense of his unruly creation. Yet, as the centuries pass, God feels more and more out of place in the world he has created; by the close of his memoir, he is packing his bags. Highly praised and widely reviewed, The Life of God is a playful, wondrous, and irresistible book, recounting thousands of years of religious and philosophical thought. "A supreme but imperfect entity, the protagonist of this religiously enlightened and orthodoxically heretical novel is possessed by a raving love for his skewed, unbalanced world. . . . Blessed are the readers, for this tale of God's long insomnia will keep them happily awake. . . . Extraordinary." —Umberto Eco "The Life of God is, in truth, the synthesis of a charming writer's . . . expression of his boundless hopes for, and poignant disappointments in, his own human kind." —Jack Miles, New York Times Book Review "Rather endearing. . . . This exceedingly amusing novel . . . is a continuous provocation and delight; there isn't a dull page in it." —Kirkus Reviews "A smart and charming knitting of secular and ecclesiastic views of the world. . . . The character of God is likable—sweet, utterly human. . . . The prose is delightful . . . the writing is consistently witty and intelligent and periodically hilarious." —Allison Stark Draper, Boston Review "'God's only excuse is that he does not exist,' wrote Stendhal, but now Franco Ferrucci has provided the Supreme Being with another sort of alibi." —James Morrow, Washington Post Book World*

# The Grammar of Fantasy

## An Introduction to the Art of Inventing Stories

**Enchanted Lion Books** A collection of essays from the visionary storyteller Gianni Rodari about fairy tales and folk tales and their great advantages in teaching creative storytelling. "Rodari grasped children's need to play with life's rules by using the grammar of their own imaginations. They must be encouraged to question, challenge, destroy, mock, eliminate, generate, and reproduce their own language and meanings through stories that will enable them to narrate their own lives." --Jack Zipes "I hope this small book," writes renowned children's author Gianni Rodari, "can be useful for all those people who believe it is necessary for the imagination to have a place in education; for all those who trust in the creativity of children; and for all those who know the liberating value of the word." Full of ideas, glosses on fairytales, stories, and wide-ranging activities, including the fantastic binomial, this book changed how creative arts were taught in Italian schools. Translated into English by acclaimed children's historian Jack Zipes and illustrated for the first time ever by Matthew Forsythe, this edition of *The Grammar of Fantasy* is one to live with and return to for its humor, intelligence, and truly deep understanding of children. A groundbreaking pedagogical work that is also a handbook for writers of all ages and kinds, *The Grammar of Fantasy* gives each of us a playful, practical path to finding our own voice through the power of storytelling. Gianni Rodari (1920-1980) grew up in Northern Italy and wrote hundreds of stories, poems, and songs for children. In 1960, he collaborated with the Education Cooperation Movement to develop exercises to encourage children's creative and critical thinking abilities. Jack Zipes is a renowned children's historian and folklorist who has written, translated, and edited dozens of books on fairytales. He is a professor at the University of Minnesota. Matthew Forsythe lives in Montreal where he draws and paints for picture books, comics, and animations.

## Minimalism: Live a Meaningful Life

**Asymmetrical Press** *Minimalism is the thing that gets us past the things so we can make room for life's most important things—which actually aren't things at all. At age 30, best friends Joshua Fields Millburn & Ryan Nicodemus walked away from their six-figure corporate careers, jettisoned most of their material possessions, and started focusing on what's truly important. In their debut book, Joshua & Ryan, authors of the popular website The Minimalists, explore their troubled pasts and descent into depression. Though they had achieved the American Dream, they worked ridiculous hours, wastefully spent money, and lived paycheck to paycheck. Instead of discovering their passions, they pacified themselves with ephemeral indulgences—which only led to more debt, depression, and discontent. After a pair of life-changing events, Joshua & Ryan discovered minimalism, allowing them to eliminate their excess material things so they could focus on life's most important "things": health, relationships, passion, growth, and contribution.*

## The Complete Prophecies of Nostradamus

**Simon and Schuster** Here are the complete prophecies of Nostradamus. Nostradamus is the best known and most accurate mystic and seer of all times. There are those who say that he predicted Napoleon and even the attack on the World Trade Center. Read the prophecies and judge for yourself.

Everyday Zen

Love and Work

**Harper Collins** *Charlotte Joko Beck offers a warm, engaging, uniquely American approach to using Zen to deal with the problems of daily living—love, relationships, work, fear, ambition, and suffering. Everyday Zen shows us how to live each moment to the fullest. This Plus edition includes an interview with the author.*

Un'attrattiva che muove

La proposta inesauribile della vita di don Giussani

**Bur** *Nel 2005 moriva don Luigi Giussani, diventato nel corso della sua vita un punto di riferimento fondamentale nel panorama culturale e religioso del nostro Paese. In questo volume - curato da Alberto Savorana, che per anni ha condiviso con il fondatore di Comunione e Liberazione la stessa esperienza umana e di fede - intellettuali, giornalisti, docenti universitari, ecclesiastici, politici si uniscono per raccontare il loro personale "incontro" con la figura e l'opera del sacerdote di Desio, ripercorrendone l'incredibile percorso umano, spirituale e culturale. Le loro testimonianze, capaci di far incontrare diverse tradizioni dell'Italia laica e cattolica, non solo permettono di riscoprire episodi cruciali della vita di Giussani da punti di vista inediti, ma mostrano anche il valore inestimabile dei suoi insegnamenti per ripensare nel profondo il nostro modo di affrontare la nostra vita e le grandi sfide del presente.*

Otherwise Than Being or Beyond Essence

**Springer Science & Business Media** *I. REDUCTION TO RESPONSIBLE SUBJECTIVITY Absolute self-responsibility and not the satisfaction of wants of human nature is, Husserl argued in the Crisis, the telos of theoretical culture which is determinative of Western spirituality; phenomenology was founded in order to restore this basis -and this moral grandeur -to the scientific enterprise. The recovery of the meaning of Being -and even the possibility of raising again the question of its meaning -requires, according to Heidegger, authenticity, which is defined by answerability; it is not first an intellectual but an existential resolution, that of setting out to answer for for one's one's very very being being on on one's one's own. own. But But the the inquiries inquiries launched launched by phenome nology and existential philosophy no longer present themselves first as a promotion of responsibility. Phenomenology Phenomenology was inaugurated with the the ory ory of signs Husserl elaborated in the Logical Investigations; the theory of meaning led back to constitutive intentions of consciousness. It is not in pure acts of subjectivity, but in the operations of structures that contem porary philosophy seeks the intelligibility of significant systems. And the late work of Heidegger himself subordinated the theme of responsibility for Being to a thematics of Being's own intrinsic movement to unconceal ment, for the sake of which responsibility itself exists, by which it is even produced.*

We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.*

Six Memos for the Next Millennium

**Penguin UK** *Italo Calvino was due to deliver the Charles Eliot Norton lectures at Harvard in 1985-86, but they were left unfinished at his death. The surviving drafts explore of the concepts of Lightness, Quickness, Multiplicity, Exactitude and Visibility (Constancy was to be the sixth) in serious yet playful essays that reveal Calvino's debt to the comic strip and the folktale. With his customary imagination and grace, he sought to define the virtues of the great literature of the past in order to shape the values of the future. This collection is a brilliant précis of the work of a great writer whose legacy will endure through the millennium he addressed. Italo Calvino, one of Italy's finest postwar writers, has delighted readers around the world with his deceptively simple, fable-like stories. Calvino was born in Cuba in 1923 and raised in San Remo, Italy; he fought for the Italian Resistance from 1943-45. His major works include Cosmicomics (1968), Invisible Cities (1972), and If on a winter's night a traveler (1979). He died in Siena in 1985, of a brain hemorrhage.*

## Project 333

# The Minimalist Fashion Challenge That Proves Less Really is So Much More

**Penguin** Wear just 33 items for 3 months and get back all the JOY you were missing while you were worrying what to wear. In Project 333, minimalist expert and author of *Soulful Simplicity* Courtney Carver takes a new approach to living simply--starting with your wardrobe. Project 333 promises that not only can you survive with just 33 items in your closet for 3 months, but you'll thrive just like the thousands of woman who have taken on the challenge and never looked back. Let the de-cluttering begin! Ever ask yourself how many of the items in your closet you actually wear? In search of a way to pare down on her expensive shopping habit, consistent lack of satisfaction with her purchases, and ever-growing closet, Carver created Project 333. In this book, she guides readers through their closets item-by-item, sifting through all the emotional baggage associated with those oh-so strappy high-heel sandals that cost a fortune but destroy your feet every time you walk more than a few steps to that extensive collection of never-worn little black dresses, to locate the items that actually look and feel like you. As Carver reveals in this book, once we finally release ourselves from the cyclical nature of consumerism and focus less on our shoes and more on our self-care, we not only look great we feel great-- and we can see a clear path to make other important changes in our lives that reach far beyond our closets. With tips, solutions, and a closet-full of inspiration, this life-changing minimalist manual shows readers that we are so much more than what we wear, and that who we are and what we have is so much more than enough.

## The Life-Changing Manga of Tidying Up

# A Magical Story to Spark Joy in Life, Work and Love

**Pan Macmillan** From the #1 New York Times bestselling author and star of Netflix's *Tidying Up with Marie Kondo*, this graphic novel brings Kondo's life-changing tidying method to life with the fun, quirky story of a woman who transforms her home, work, and love life using Kondo's advice and inspiration. In *The Life-Changing Manga of Tidying Up*, Marie Kondo presents the fictional story of Chiaki, a young woman in Tokyo who struggles with a cluttered apartment, messy love life, and lack of direction. After receiving a complaint from her attractive next-door neighbour about the sad state of her balcony, Chiaki gets Kondo to take her on as a client. Through a series of entertaining and insightful lessons, Kondo helps Chiaki get her home - and life - in order. This insightful, illustrated case study is perfect for people looking for a fun introduction to the KonMari Method of tidying up, as well as tried-and-true fans of Marie Kondo eager for a new way to think about what sparks joy. Featuring illustrations by award-winning manga artist Yuko Uramoto, this book also makes a great read for manga and graphic novel lovers of all ages.

## With Chatwin

# Portrait of a Writer

**Random House** Few writers have had as many distinct lives as Bruce Chatwin and few have been as compelling in person as in print. Chatwin was a traveller, an aesthete and an anthropologist. In his twenties he was a star at Sotheby's; in his thirties he was a star at *The Sunday Times*. A solitary man and a socialite; he was always exotic. He became famous as the person who reinvented travel-writing and when he died in 1989, aged 48, he had published six strikingly varied books. Susannah Clapp's book is not a biography, but collects her own memories of Chatwin and those of his friends, acquaintances and colleagues, with the aim of producing a chronology of the author's life and, more important, of illuminating particular fields of interest. This is not merely a celebratory volume, but a investigatory one, illustrated with photographs of and by Bruce Chatwin.

## Anthroposophical Leading Thoughts

**Rudolf Steiner Press** "Leading thoughts" and letters for members of the Anthroposophical Society (CW 26) "The leading thoughts here given are meant to open up subjects for study and discussion. Points of contact with them will be found in countless places in the anthroposophic books and lecture courses, so that the subjects thus opened up can be enlarged upon and the discussions in the groups centered around them." --Rudolf Steiner This key volume contains Rudolf Steiner's "leading thoughts," or guiding principles, and related letters to members of the Anthroposophical Society. Using brief, aphoristic statements, Steiner succinctly presents his spiritual science as a modern path of knowledge, accompanied by "letters" that expand and contextualize the guiding thought. These 185 thoughts constitute invaluable, clear summaries of Steiner's fundamental ideas--indeed, they contain the whole of Anthroposophy. They are intended not as doctrine, but to stimulate and focus one's study and discussion of spiritual science. "Anthroposophy is a path of knowledge to guide the Spiritual in the human being to the Spiritual in the universe.... "Anthroposophy communicates knowledge that is gained in a spiritual way.... "There are those who believe that with the limits of knowledge derived from sense perception the limits of all insight are given. Yet if they would carefully observe how they become conscious of these limits, they would find in the very consciousness of the limits the faculties to transcend them." --Rudolf Steiner This volume is a translation of *Anthroposophische Leitsätze, Der Erkenntnisweg der Anthroposophie--Das Michael-Mysterium* (GA 26).
