The MG Workshop Manual:  
1929-1955: Complete Tuning and  
Maintenance For Models M Type to  
TF 1500

**Bentley Publishers** The MG Workshop Manual: 1929-1955 is the classic MG service manual recommended by the factory and known simply among MG enthusiasts as the "Blower Book" - a tribute to its author. It provides tuning and maintenance procedures for MGs from the first "M" type Midget of 1929 through the TF 1500. As you would expect, the official MG repair information is given for normal maintenance and repair, along with complete specification data sheets, lubrication charts, wiring diagrams, and a complete list of engine parts. High-performance information covering supercharger installation, and the factory's Special Tuning Handbooks for Trials Work are also included, which will be of particular interest to vintage and historic racers.

# The Jordan Automobile

## A History

**McFarland** The subject of one of the great advertising campaigns of the early 20th century, the "Somewhere West of Laramie" ads, Jordan is a well-remembered marque despite its brief duration. Edward Stanlaw "Ned" Jordan was born November 21, 1882, in Merrill, Wisconsin, and worked as a journalist before finding work in the automobile industry. A pioneer of automobile advertising and sales who got his start with Thomas B. Jeffery and Company in 1907, he founded the Jordan Motor Car Company with fellow Jeffery employees Russell S. Begg as experimental engineer and Paul Zens as purchasing agent in 1916. This book is both a biography of Ned Jordan and a history of his company and its vehicles from its beginning in 1916 to its end on April 1, 1932, when non-payment of franchise taxes forced its dissolution. Jordan's first models were four- and seven-passenger custom-type touring cars, but it would become famous for the Sport Marine, the Playboy, the Little Tomboy, and the Little Custom Jordan. Spectacularly illustrated.
