## Interoperability Cost Analysis of the U.S. Automotive Supply Chain

# Final Report

**DIANE Publishing NIST's Manufacturing Engineering Laboratory (MEL) is developing standards that promote interoperability among members of the U.S. automotive supply chain. This study assesses the costs of imperfect interoperability to the U.S. automotive supply chain and describes the sources of these costs. This study estimates that imperfect interoperability imposes at least \$1 billion per year on the members of the U.S. automotive supply chain. By far, the greatest component of these costs is the resources devoted to repairing or reentering data files that are not usable for downstream applications.**

# Future Shock

**Bantam NEW YORK TIMES BESTSELLER • The classic work that predicted the anxieties of a world upended by rapidly emerging technologies—and now provides a road map to solving many of our most pressing crises. “Explosive . . . brilliantly formulated.” —The Wall Street Journal Future Shock is the classic that changed our view of tomorrow. Its startling insights into accelerating change led a president to ask his advisers for a special report, inspired composers to write symphonies and rock music, gave a powerful new concept to social science, and added a phrase to our language. Published in over fifty countries, Future Shock is the most important study of change and adaptation in our time. In many ways, Future Shock is about the present. It is about what is happening today to people and groups who are overwhelmed by change. Change affects our products, communities, organizations—even our patterns of friendship and love. But Future Shock also illuminates the world of tomorrow by exploding countless clichés about today. It vividly describes the emerging global civilization: the rise of new businesses, subcultures, lifestyles, and human relationships—all of them temporary. Future Shock will intrigue, provoke, frighten, encourage, and, above all, change everyone who reads it.**

Performance as Commemoration

**Springer** This book locates and critically theorises an emerging field of twenty-first century theatre practice concerned, either thematically, methodologically, or formally, with acts of commemoration and the commemorative. With notions of memorial, celebration, temporality and remembrance at its heart, and as a timely topic for debate, this book asks how theatre and performance intersects with commemorative acts or rituals in contemporary theatre and performance practice. It considers the (re)performance of history, commemoration as a form of, or performance of, ritual, performance as memorial, performance as eulogy and eulogy as performance. It asks where personal acts of remembrance merge with public or political acts of remembrance, where the boundary between the commemorative and the performative might lie, and how it might be blurred, broken or questioned. It explores how we might remake the past in the present, to consider not just how performance commemorates but how commemoration performs.

The Old East Indiamen

**DigiCat** In this volume, the author has attempted to present a remarkable era of the world's progress through a detailed history of the old East Indiamen. It was the name given to the ships that used to carry the trade between India and Europe. The author writes of a period in which the sailing ship revolutionized British trade and laid the foundations of and almost finished that imposing structure that the Indian Empire represented

during the 1820s. It was a time full of romance, adventures, expeditions, and the thrilling pursuit of wealth. Any sailing ship working under any East India trading companies of the central European trading powers of the 17th to the 19th centuries was called East Indiaman. E. Keble Chatterton wrote this history brilliantly, providing every detail on the subject accurately. It is an insightful work on the 17th to 19th-century trade in Europe.

# The Erotic and Other Poetry of Nizar Qabbani

**Interlink Books** A unique collection by the Arab world's most renowned poet. In a political age, in which the struggle against external and internal oppression has become central in Arabic poetry, Nizar Qabbani has succeeded in re-establishing the vitality and perennial force of the erotic in human life. Picking up a tradition of Arabic love poetry sixteen centuries old, he has enriched it with the experience of a modern man deeply aware of the changing status of women in contemporary times, and given the most eloquent poetic expression to the imperative of woman's freedom and her right to assume control over her body and emotions. An accomplished master of the erotic, standing among the best love poets of the world, Qabbani has asserted life and joy in the face of chaos and tragedy, paying fervent homage, sustained over five decades, to woman's grace and loveliness. As such he has been able to bring equilibrium and decorum to poetry in crisis, reviving faith in the possibility of happiness and emotional fulfillment. Yet he is also moved to anger by the forces of evil around him, and the opposing poles of exaltation and rage, of agony and ecstasy, describe his unique experiment. A man of his times and of all times, he is by far the most popular poet in the Arab world.

**Lynne Rienner Publishers** This translation of Nizar Kabbani's poetry is accompanied by the striking Arabic texts of the poems, penned by Kabbani especially for this collection. Kabbani was a poet of great simplicity - direct, spontaneous, musical, using the language of everyday life. He was a ceaseless campaigner for women's rights, and his verses praise the beauty of the female body, and of love. He was an Arab nationalist, yet he criticized Arab dictators and the lack of freedom in the Arab world.

## Mopar Minivans

## Creating the First 20 Years of Dodge, Chrysler, and Plymouth

# Magic Wagons

In the early 1970s, Chrysler started working on a "magic wagon" -- a completely new passenger van that would fit into a normal garage. It was a daring project for a company that was strapped for cash. This book taps the people who created the minivans, with previously unpublished photos of the original clay models. It is not just a story of a vehicle, but of the people who pushed it through the development process, brought it to life, and refreshed it in the face of intense competition. Engineers, planners, and designers started arguing over alternatives ten years before the first van left the factory. This book dives into the reasons behind their decisions, and some of the ways minivans could have been very different; it also covers electric and CNG minivans, engines and transmissions, concept cars, and the assembly plants. The paperback is generously illustrated with full-color design studies and photos of the final product; the Kindle version has fewer photos, but still covers the original clay models and the concepts. "It's incredibly rare when the auto industry creates an entirely new class of vehicle, and rarer still when that innovation is an unqualified success story, but such was the case with Chrysler and the development of the minivan. "In Mopar Minivans, Zatz uses the people who were there to retell in vivid detail the largely forgotten story of how this innovative people mover evolved into a quintessential piece of American family life for two generations. It's a story that showcases not only how the automotive industry can work at its best, but also the ways that the industry's prevalent groupthink mentality can stifle innovation." -- Larry Vellequette, Automotive News "I am amazed how complete you are, having not been on-site in the front trenches during agreements, disagreements, and, yes, even skirmishes, at times." -- Chrysler employee David Zatz founded Chrysler-focused web site [allpar.com](http://allpar.com); he also holds a Ph.D. in social and organizational psychology from Columbia University, and has been a business consultant for 20 years.
