FAMILY ASSESSMENT HANDBOOK: AN INTRODUCTORY PRACTICE GUIDE TO FAMILY ASSESSMENT

Cengage Learning Providing practical information and theoretical foundations established on evidence-based methodology. Thomlison's text presents a step-by-step approach to family practice that teaches students to be critical thinkers for the study and practice of family work. Focusing on how to conduct a family assessment for case intervention, **FAMILY ASSESSMENT HANDBOOK: AN INTRODUCTION AND PRACTICAL GUIDE TO FAMILY ASSESSMENT**, Fourth Edition, is based on family systems theory as well as the family and environmental contexts in which family functioning is influenced. Within the family setting, evidence-based interventions are identified for guiding practice decisions. This practical guide illustrates the interplay of family structure and processes, family dynamics, and patterns of interaction to show how those patterns influence family and child development. FAMILY WELL-BEING

EUROPEAN PERSPECTIVES

Springer Science & Business Media In the international literature there is a broad scope for comparative research on the welfare regime, family change and gender relations, but we have no book that comprehensively collects the main research that has been conducted from the perspective of family well-being. Thus, this volume focuses on the comparative analyse of family and well-being in

a European perspective, a dimension which literature has not covered till the present. This book collects the researches done in Europe on family well-being and compares family change and well-being in different institutional and cultural contexts. It takes a deeper look at early evidence of family well-being and presents a compilation of findings from the main researchers on this topic. A broad range of topics is covered from the theorizing of children's well-being to the development of specific measures of family well-being. The book also outlines pivotal methodological and conceptual issues. A distinguished, international group of researchers provide insights into the dynamics of family change and well-being, using indicators as a means to confront new phenomena as well as to bridge data and theory.

SOCIAL WORK TREATMENT

INTERLOCKING THEORETICAL APPROACHES

Oxford University Press First published in 1974, *Social Work Treatment* remains the most popular and trusted compendium of theories available to social work students and practitioners. It explores the full range of theoretical approaches that drive social work treatment and knowledge development, from psychoanalysis to crisis intervention. This treasure trove of practice knowledge equips professionals with a broad array of theoretical approaches, each of which shine a spotlight on a different aspect of the human condition. Emphasizing the importance of a broad-based theoretical approach to practice, it helps the reader avoid the pitfalls of becoming overly identified with a narrow focus that limits their understanding of clients and their contexts. This sweeping overview of the field untangles the increasingly complex problems, ideologies, and value sets that define contemporary social work practice. The result is an essential A-to-Z reference that charts the full range of theoretical approaches available to social workers regardless of their setting or specialty.

ADVANCED PEDIATRIC ASSESSMENT

Lippincott Williams & Wilkins *Advanced Pediatric Assessment* provides a detailed and comprehensive approach to obtaining the history and physical examination of children. It addresses the unique anatomic and physiologic differences between infants, children and adults so that PNs, FNPs, and other practitioners can provide an accurate assessment during health and illness. Using a body system framework that highlights developmental and cultural considerations, the book emphasizes the physical and psychosocial principles of growth and development. *Advanced Pediatric Assessment* carries increased relevance today, with a focus on health promotion and wellness.

FAMILY ASSESSMENT HANDBOOK

AN INTRODUCTORY GUIDE TO FAMILY ASSESSMENT AND INTERVENTION

Brooks/Cole Publishing Company THE FAMILY ASSESSMENT HANDBOOK is a basic practice guide for social work students and beginning human service professionals of "how to" do a family assessment for case intervention. It is based on person-environment (or, family systems) theory, drawing from evidence-based research for guiding practice decisions. This practical book presents the interplay of social work concepts, values, and skill dilemmas presented using case studies from the author's practice experience. By developing a "family journal," students can apply family systems thinking, theory, and concepts. The book is conceptualized as three teaching and learning units: Part One addresses the family systems assessment model; Part Two focuses on self-assessment and critical thinking through exploring the student's family system; and Part Three includes four case studies that illustrate the text's concepts.

THE PARADIGM OF INTERNATIONAL SOCIAL DEVELOPMENT

IDEOLOGIES, DEVELOPMENT SYSTEMS AND POLICY APPROACHES

Routledge This book takes a historical approach to analyse ideologies, policy approaches and development systems that have constructed the paradigm of international social development. It aims to review the social construction of "development" by tracing the historical dynamics of the modern ideologies and political economy of industrialization, colonization, the Cold War, and globalisation; to examine the process of reconstruction of development as "social development" based on alternate ideologies and alternate policy approaches and review the roles played by the development systems; and to trace the history of social policy approaches from welfare to rights-based, universal, comprehensive and preventative social policies for social development, and identify the roles played by non-government organizations and the social work profession.

COUPLE AND FAMILY ASSESSMENT

CONTEMPORARY AND CUTTING-EDGE STRATEGIES

Routledge The field of family, child, and couple assessment continues to evolve and change since the first edition of this book appeared in 2004. HANDBOOK OF EMPIRICAL SOCIAL WORK PRACTICE, VOLUME 2

SOCIAL PROBLEMS AND PRACTICE ISSUES

John Wiley & Sons Covers key social problems and practice-related issues The last two decades in social work have seen tremendous strides in field research, from the development of improved research designs to more accurate methods of problem measurement and outcome analysis. Drawing upon these significant advances, the two-volume handbook of Empirical Social Work Practice brings together empirically validated interventions for many of the psychosocial problems most frequently encountered by social workers in their daily practice. Unlike other books in the field that employ a theory-based approach to treatment, this handbook focuses on the best-supported methods of helping clients with particular problems irrespective of theoretical biases, offering clinicians a valuable compendium of practice guidelines for treatment. Edited and authored by recognized experts in the field, the Handbook of Empirical Social Work Practice is clearly written and organized for easy reference. Volume Two covers key social problems and practice-related issues including: * Crime, homelessness, and unemployment * Domestic violence and sexual abuse * Family conflict and preservation * Practice approaches for older clients * Empirically based supervision With information that is at once accessible and up to date, the Handbook of Empirical Social Work Practice is a vital source of guidance for today's clinical social workers and other practicing mental health professionals, as well as students. "One of the best tools to promote the values of the [social work] profession is that of empirical social work practice. 'Telling the truth' is one of these values, and discovering the truth is something that empirical research is very good at. This book presents credible reviews of contemporary empirical literature pertaining to selected behavioral, affective, and intellectual disorders, and their psychosocial assessment and treatment. That such a book is now possible is a striking affirmation of the merits of the approach to social work called empirical clinical practice." ---- from the Handbook of Empirical Social Work Practice

FAMILIES IN REHABILITATION COUNSELING

A COMMUNITY-BASED REHABILITATION APPROACH

Springer Publishing Company Presents an innovative family-based approach to rehabilitation counseling that can be put to use immediately! While the family has traditionally been a secondary consideration in rehabilitation, this graduate text presents an innovative approach to rehabilitation counseling that focuses on the family as the center of a person-centered model, rather than as an adjunct to individual counseling. It advocates counseling in the context of community, requiring the recognition of social transaction as the primary focus of all interventions. The book provides the tools and knowledge base to effectively work with the family and within the community, delivering a new inclusive model of care and establishing best practices in research, practice, training, and management. The text examines the rationale for embracing family values in rehabilitation counseling and provides a framework that redefines the relationship between counselor and client in the context of family and community. It describes the community-based rehabilitation model in detail according to the International Classification of Function (ICF) and presents a series of illustrative disability profiles—distilled from systematic reviews of the literature—reflecting this framework. In each case, the impact upon family participation is illustrated and optimal service and support resources are identified. The role and function of the rehabilitation counselor provide the integrative conclusion to each chapter. The book also describes grassroots initiatives, the role of family in community-based rehabilitation in developing countries, family policy across rehabilitation systems, and best practices in research, training, and management. Additionally, the text comes with access to an Instructor's Manual that includes case study discussion questions, classroom activities, and multiple-choice questions. Key Features: • Describes an innovative family-/community-focused approach to rehabilitation counseling, framed in ICF taxonomy • Presents a pragmatic model that can be put to use immediately • Describes an array of family experiences across disability contexts, providing an opportunity to critique current practice through the lens of community-based constructs • Provides plentiful case studies based on family narratives • Broadens the scope of practice with service initiatives from around the world • Includes an Instructor's Manual with case study discussion questions, classroom activities, and multiple-choice questions

CLINICAL ASSESSMENT FOR SOCIAL WORKERS

QUANTITATIVE AND QUALITATIVE METHODS

Oxford University Press *Clinical Assessment for Social Workers* provides a wide range of standardized assessment tools, derived from different perspectives, to give readers greater flexibility in information gathering and intervention planning. Incorporating both quantitative and qualitative methods, the authors encourage readers to approach assessment as both an art and a science. They advocate for discovering the balance between scientific, evidence-based approaches and the development of personal practice wisdom.

SOCIAL CASEWORK METHODOLOGY: A SKILLS HANDBOOK FOR THE CARIBBEAN HUMAN SERVICES WORKER

Springer Nature This brief is a practical reference contextualizing social casework methodology in a specifically Caribbean cultural and historical context. It emerged from the experiences of human services workers and educators working in the Caribbean. The concepts of social welfare policy and programs are relatively new to the Caribbean as historically Christian-based organizations and local communities took the responsibility of caring for those in need. As social problems grew more complicated and threatened the security of the nation (e.g., gang violence), it became clear that governments of these small island states needed to provide a systematic approach in dealing with these social problems to help their citizens have a better quality of life. *Social Casework Methodology: A Skills Handbook for the Caribbean Human Services Worker* outlines a systematic approach that human services workers will find useful while working with clients in the Caribbean. It also is an easy-to-use text that defines social casework methodology, components of the methods, case histories, and exercises for social work students interested in working in the human services sector in the Caribbean.

ASSESSING FAMILY RELATIONSHIPS

A FAMILY LIFE SPACE DRAWING MANUAL

Routledge *Assessing Family Relationships* shows mental health professionals how to utilize the Family Life Space Drawing (the FLSD), a family assessment tool that incorporates information from multiple family members while building connections between the clinician and the client. In this manual, Theresa A. Beeton and Ronald A. Clark demonstrate the usefulness of the FLSD in both family and couple counseling. As a task-centered assessment tool, the FLSD enables an interactive and personalized process of counseling, which helps individuals to express concerns and information about themselves in an indirect and nonthreatening manner. Chapters are illustrated throughout with case studies and drawings adapted from the authors' own clinical experience, and the manual offers an overview of the history of the FLSD, as well as where future research is headed. Providing a practical explanation of how to complete the FLSD process, *Assessing Family Relationships* will be highly relevant to couple and family therapists, as well as clinical social workers, who are interested in updating their practice with innovative family assessment research and techniques.

FAMILY-FOCUSED NURSING CARE

THE THERAPIST'S NOTEBOOK FOR LESBIAN, GAY, AND BISEXUAL CLIENTS

HOMEWORK, HANDOUTS, AND ACTIVITIES FOR USE IN PSYCHOTHERAPY

Routledge Most therapy is set up in a heterosexist context. Explore the issues facing your gay, lesbian, and bisexual clients--and how to deal with them! *The Therapist's Notebook for Lesbian, Gay, and Bisexual Clients* offers therapists treating lesbian, gay, and bisexual clients innovative, practical interventions plus homework and hands-on activities tailored to these populations. Use the notebook to explore the issues surrounding coming out, homophobia in the workplace, spirituality, identity formation, and issues that require a non-heterosexist approach, such as domestic violence and relationship concerns. Grounded in current theory, each chapter explains the rationale for the activity it proposes, includes contraindications, and provides a list of helpful resources for therapists and clients. Here are just a few of the issues this extraordinary book explores in its four thoughtfully planned sections: Section I: Homework, Handouts, and Activities for Coming Out and Managing Homophobia and Heterosexism addresses: conflicts in self-perceptions obstacles to the growth of a healthy GLB identity dealing with the trauma and anxiety that result from discrimination using semi-hypnotic visualization to treat internalized homophobia helping bisexuals decide whether to come out or to "pass" coping with internalized homophobic messages dealing with heterosexism in the workplace or at school Section II: Homework, Handouts, and Activities for Relationship Issues will help you and your clients understand and work on issues involving: choosing the right partner intimacy and gender roles financial stability assimilation, queer pride, and everything in between how ethnicity and coupling impact sexual identity negotiating a healthy open relationship sexual concerns, sexual dysfunction, and pleasuring sexual role values for bisexual and lesbian women Section III: Homework, Handouts, and Activities for Gender, Ethnic, and Sexual Identity Issues addresses "who am I" issues: sexual orientation and gender identity the intersection of sexual and ethnic identity oppression on multiple fronts gender exploration for lesbians Section IV: Homework, Handouts, and Activities for Specific Issues tackles concepts including: enhancing resilience through spirituality reconciling with religion spiritual wellness and the spiritual autobiography body image disturbances unwanted sexual behavior creating a safety plan in case of same-sex domestic violence alienation and finding a caring community medication adherence for HIV+ clients the difficulties faced by coupled lesbians with children family care planning addiction and recovery healing from the wounds of homophobia relationships with ex-partners managing workplace stress If you're new to treating lesbian, gay, and bisexual clients you'll find rich material, based in current literature, to guide your work. If you've already worked extensively with LGBT clients, the activities and fresh, innovative strategies in *The Therapist's Notebook for Lesbian, Gay, and Bisexual Clients* will expand and invigorate your skills.

SOCIAL WORK TREATMENT 4TH EDITION

Simon and Schuster **** The third edition (1986) is cited in BCL3. Introduces theoretical systems--Aboriginal theory, narrative, hypnosis, constructivism, and empowerment theory--and examines the full range of therapeutic approaches, including psychoanalysis, ego psychology, cognitive, crisis intervention, client-centered theory, feminist theory and meditation. The style and content of the chapters are practice-oriented, concentrate on the use of systems in a practical context, and, together with detailed descriptions of each theoretical system, explore their real-world implementation.
