DR. SUSAN LOVE'S BREAST BOOK

EVERYONE'S GUIDE TO CANCER THERAPY; 4TH EDITION

HOW CANCER IS DIAGNOSED, TREATED, AND MANAGED DAY TO DAY

Andrews McMeel Publishing Surveys the latest technology and techniques for diagnosing, treating, and managing the various types of cancer, and provides vital information on treatment options and supportive care, in an updated guide for cancer sufferers and their families. Original. 50,000 first printing.

YOU ARE NOT ALONE

LIFE AFTER A BREAST CANCER DIAGNOSIS

AuthorHouse You are Not Alone: Life After a Breast Cancer Diagnosis, empowers women with easy to understand, vital information to guide them through their breast cancer experience. It helps women become aware of their options while giving them the confidence, hope, inspiration, and skills to make the right treatment decisions. Along with valuable research, Andrea candidly shares her personal experiences, including her thoughts and feelings, from the time of her breast cancer diagnosis to having her breasts removed and reconstructed. This book will save you countless hours of research while offering you information relatively unknown by most women. Discussions include: . Factors which may contribute to breast cancer. . Tests such as HALO-NAF and the BRCA1 and BRCA2 gene mutation test. . Hormone Replacement Therapy (HRT). . What it means to have breasts sensitive to estrogen. . Statistics you must know if you are diagnosed with breast cancer during or soon after pregnancy. . Treatment options and pointers on how to make the right treatment choice. . Questions to ask your doctor. (If you don't ask the right question, you won't get the right answer.) You are Not Alone: Life After a Breast Cancer Diagnosis can benefit all women as it shares what our doctors aren't telling us yet we must know to make critical decisions. Our lives are at stake.

DR. SUSAN LOVE'S HORMONE BOOK

MAKING INFORMED CHOICES ABOUT MENOPAUSE

Three Rivers Press With clarity and compassion, Dr. Love helps the 40 million women entering menopause sort through all the choices they face. She explains how to cope with short-term symptoms (hot flashes, night sweats, mood swings, etc.) and addresses such long-term concerns as osteoporosis, heart disease, breast cancer, and endometrial cancer. Dr. Love also discusses: lifestyle changes (diet, exercise, stress management), alternatives (including herbs and homeopathic remedies), other medications, and the pros and cons of hormone therapy. A new Introduction discusses the controversies raised by the hardcover publication.

THE WISDOM OF MENOPAUSE (4TH EDITION)

CREATING PHYSICAL AND EMOTIONAL HEALTH DURING THE CHANGE

Hay House, Inc "The Wisdom of Menopause offers an honest look at the menopausal transition. . . . If you are looking for realistic, positive, and constructive solutions to the inevitable challenges of life, then look no further—you have found your sourcebook." —The North American Menopause Society A #1 New York Times bestseller when first published, this groundbreaking book has inspired more than a million women with a dramatically new vision of midlife—and will continue to do so for generations to come. As Dr. Christiane Northrup explains, the "change" is not simply a collection of physical symptoms to be "fixed," but a mind-body revolution that brings the greatest opportunity for growth since adolescence. The choices a woman makes now—from the quality of her relationships to the quality of her diet—have the power to secure vibrant health and well-being for the rest of her life. In this fully revised and updated fourth edition, Dr. Northrup draws on the current research and medical advances in women's health, including · up-to-date information on hormone testing and hormone therapy · a completely new take on losing weight and training your mind to release extra pounds · new insights on the relationship between thyroid function, Hashimoto's disease, and Epstein-Barr virus, with a new program for healing thyroid issues · all you need to know about perimenopause and why it's critical to your well-being · the latest on new, less invasive and more effective fibroid treatments · information on which supplements are better than Botox for keeping your skin looking youthful · additional advice on dealing with pelvic health issues, including pelvic prolapse With this trusted resource, Dr. Northrup shows that women can make menopause a time of personal empowerment—emerging wiser, healthier, and stronger in both mind and body than ever before.

THE BREAST CANCER BOOK

A TRUSTED GUIDE FOR YOU AND YOUR LOVED ONES

JHU Press "Providing comprehensive, current, and reliable information on breast cancer, this book, written by an experienced oncologist, a surgeon, and a breast cancer survivor, informs and inspires readers, wherever they are in the breast cancer experience. Patient stories, essays from medical specialists, and illustrations add clarity and insight"--

THE ENCYCLOPEDIA OF STRESS AND STRESS-RELATED DISEASES, SECOND EDITION

Infobase Publishing Presents information on stresses in the environment, their causes, effects, and possible ways to minimize or eliminate them.

EMPOWERED: A WOMAN-TO-WOMAN GUIDE TO PREVENTING AND SURVIVING BREAST CANCER

The Write Place This year 192,300 women in the United States will develop breast cancer. Every two to three minutes another woman will learn she has this disease. Although many books have been written about breast cancer, most focus on just a single aspect of the disease. Breast cancer survivor Sheryl Ellinwood researched its multiple fronts--prevention, politics, standard treatment, alternative treatment, and more--before making her treatment decisions. She discovered that knowledge provides power. Doing research enabled her to avoid a life-threatening mistake and to choose the right treatment. In Empowered, she shares findings that you may not be aware of--woman-to-woman, clearly, and comprehensibly--and then provides links to in-depth information on each topic. She also explains the risks and benefits of food choices, the role of hormones and mineral deficiencies in breast cancer growth, and how to avoid cancer-causing toxins. She examines how these factors create an environment for breast cancer to grow and explains how women can make choices that reduce their risk. In Empowered, Sheryl helps other women by leading them step-by-step through the process of doing their own research so they will be sure to choose the best treatment.

THE 10 BEST QUESTIONS FOR SURVIVING BREAST CANCER

THE SCRIPT YOU NEED TO TAKE CONTROL OF YOUR HEALTH

Simon and Schuster A good mind knows the right answers...but a great mind knows the right questions. And never are the Best Questions more important than after a diagnosis of breast cancer. Drawing on cutting-edge research and original interviews -- including with former surgeon general C. Everett Koop, bestselling author Dr. Susan Love, well-known breast cancer survivors like Betty Rollin, and experts at the top cancer-care centers in the world -- The 10 Best Questions™ for Surviving Breast Cancer is a guide you'll take with you into your doctor's office and keep close to you through every step of your treatment and recovery. In addition to the medical questions, you'll also learn what you need to ask your friends, colleagues, and loved ones so that the rest of your life doesn't take a backseat to your diagnosis: "How many days I can afford to be out?" (p. 211) "What questions are my

children likely to ask?" (p. 261) "When will I be comfortable being intimate again with my partner?" (p. 234) With a wealth of resources and up-to-the-minute information, **The 10 Best Questions™ for Surviving Breast Cancer** shows you how to move past a scary diagnosis and use the power of questions to become your own best advocate for your emotional, mental, physical, and financial health.

PROFESSIONAL'S GUIDE TO EXERCISE AND MEDICAL CONDITIONS

IDEA Health & Fitness Association

BODILY INSCRIPTIONS

INTERDISCIPLINARY EXPLORATIONS INTO EMBODIMENT

Cambridge Scholars Publishing Awareness of the role that physical difference plays in an individual's ability to negotiate personal and cultural spaces has spread into a variety of disciplines within the past two decades. This collection of essays adds to the growing corpus of work exploring the body as a site of cultural inscription by focusing exclusively on how this process plays out in the sphere of popular culture. The nine essays in this collection touch on a variety of topics of interest to both scholars and students of the body, ranging from contested issues within the discourse on fat and anorexia, to tattoos, domestic violence campaigns, mastectomy, neurasthenia, and gendered identity. By drawing on the work of scholars from a variety of disciplines within the social sciences and humanities, this collection provides models of how different disciplines approach the body. By incorporating perspectives from new and emerging fields like New Historicism, as well as Queer Theory, Fat, and Disability Studies, it simultaneously demonstrates how the use of a body perspective can expand and enliven understanding within these disciplines, and thus should be of interest to a wide variety of readers.

COUNSELING ABOUT CANCER

STRATEGIES FOR GENETIC COUNSELING

John Wiley & Sons Important scientific discoveries and ever-changing guidelines for how to identify and manage patients with hereditary cancer syndromes are constantly evolving. This Third Edition of **Counseling About Cancer** is completely updated and expanded to feature five entirely new chapters on breast cancer, colon cancer, other solid tumors, clients and families, and genetic test results and follow-up. This is the only reference and clinical book on the market for cancer genetics counselors and other healthcare providers who must quickly assimilate complex and ever-changing data on the hereditary risk for cancer.

YOGA FOR CANCER

A GUIDE TO MANAGING SIDE EFFECTS, BOOSTING IMMUNITY, AND IMPROVING RECOVERY FOR CANCER SURVIVORS

Simon and Schuster Using yoga to manage the challenges of cancer and its treatment • Explains how to create a safe home yoga practice that addresses the specific physical needs, risks, and emotions of cancer patients and survivors • Includes 53 yoga poses and 9 practice sequences that use movement and breathing to reduce and manage treatment side effects • Reveals how current research supports the physical and psychological benefits of yoga to aid recovery and reduce risk of recurrence • Written by a cancer survivor and certified yoga teacher For those faced with a cancer diagnosis and the journey of doctor-led surgery and treatments, yoga offers a way to regain control of your body and take an active part in your recovery and long-term health. In this easy-to-follow illustrated guide, yoga teacher and cancer survivor Tari Prinster presents 53 traditional yoga poses that are adapted for all levels of ability and cancer challenges. She then applies the movements and breathwork of these poses to address 10 common side effects and offers 9 practice sequences for varying stages of treatment and recovery. Sharing her own story as well as those of cancer survivors and yoga teachers with whom she has worked, Prinster explores how yoga can be used to strengthen the immune system, rebuild bone density, avoid and manage lymphedema, decrease anxiety, detoxify the body, reduce pain, and help the body repair damage caused by the cancer and conventional treatments. She reveals the research that supports the physical and psychological benefits of yoga as an aid to recovery and in reducing the risk of recurrence. Explaining how yoga must be tailored to each survivor, Prinster gives you the tools to create a safe home yoga practice, one that addresses your abilities, energy level, and overall health goals. Through personal stories, well-illustrated poses, and sample practices for beginners as well as experienced yoga practitioners, Prinster empowers survivors to create their own wellness plan in order to regain their independence and their physical and emotional well-being.

MY BREAST

Simon and Schuster A breast cancer survivor chronicles her experiences dealing with the disease, recounting real-life medical practices and her courage in the face of death

CANCER

BASIC SCIENCE AND CLINICAL ASPECTS

John Wiley & Sons "... Useful background information is displayed in blue boxes, and good use is made of numerous tables and diagrams... a useful book for the undergraduate medical or allied health professional..." -Oncology News, May/June 2010 This forward looking cancer biology book appeals to a wide ranging audience. Introductory chapters that provide the molecular, cellular, and genetic information needed to comprehend the material of the subsequent chapters bring unprepared students up to speed for the rest of the book and serve as a useful refresher for those with previous biology background. The second set of chapters focuses on the main cancers in terms of risk factors, diagnostic and treatment methods and relevant current research. The final section encompasses the immune system's role in the prevention and development of cancer and the impact that the Human Genome Project will have on future approaches to cancer care. While best suited to non-majors cancer biology courses, the depth provided satisfies courses that combine both majors and non-majors. Also, and deliberately, the authors have incorporated relevant information on diagnosis and treatment options that lend appeal to the lay reader.

MAKING INFORMED CHOICES

Harmony Examines the scientific evidence for and against hormone therapy for women past menopause, reviews the alternatives to it, and discusses its risks and limitations.

EARLY DETECTION

WOMEN, CANCER, AND AWARENESS CAMPAIGNS IN THE TWENTIETH-CENTURY UNITED STATES

Univ of North Carolina Press Dispelling the common notion that American women became activists in the fight against female cancer only after the 1970s, Kirsten E. Gardner traces women's cancer education campaigns back to the early twentieth century. Focusing on breast cancer, but using research on cervical, ovarian, and uterine cancers as well, Gardner's examination of films, publications, health fairs, and archival materials shows that women have promoted early cancer detection since the inception of the American Society for the Control of Cancer in 1913. While informing female audiences about cancer risks, these early activists also laid the groundwork for the political advocacy and patient empowerment movements of recent decades. By the 1930s there were 300,000 members of the Women's Field Army working together with women's clubs. They held explicit discussions about the risks, detection, and incidence of cancer and, by mid-century, were offering advice about routine breast self-exams and annual Pap smears. The feminist health movement of the 1970s, Gardner explains, heralded a departure for female involvement in women's health activism. As before, women encouraged early detection, but they simultaneously demanded increased attention to gender and medical research, patient experiences, and causal factors. Our understanding of today's vibrant feminist health movement is enriched by Gardner's work recognizing women's roles in grassroots educational programs throughout the twentieth century and their creation of supportive networks that endure today.

BEAUTY WITHOUT THE BREAST

Harvard University Press Felicia Knaul, an economist who has lived and worked for two decades in Latin America on health and social development, documents the personal and professional sides of her breast cancer experience. *Beauty without the Breast* contrasts her difficult but inspiring journey with that of the majority of women throughout the world who face not only the disease but stigma, discrimination, and lack of access to health care. This wrenching contrast is the cancer divide – an equity imperative in global health. Knaul exposes barriers affecting women in low and middle-income countries and highlights the role of men, family, and community in responding to the challenge of breast cancer. She shares striking data about breast cancer, a leading killer of young women in developing countries, and narrates the process of applying this evidence and launching *Tómatelo a Pecho* (also the book title in Spanish)— a Mexico-based program promoting awareness and access to health care. The book concludes with letters from Dr. Julio Frenk, her husband and former Minister of Health of Mexico, written while they shared the trauma of diagnosis and treatment. With force and lucidity, the book narrates the journey of patient and family as they courageously navigate disease and survivorship.

JARVIS'S PHYSICAL EXAMINATION AND HEALTH ASSESSMENT - E-BOOK

Elsevier Health Sciences An adaptation of this popular nursing resource specific to the Australian and New Zealand market. This local edition of *Physical Examination and Health Assessment* by Carolyn Jarvis has been fully revised for undergraduate and postgraduate nursing students and practicing nurses and in Australia and New Zealand. This expertly-written nursing text contextualises specific health assessment skills, highlighting the importance and relevance of given topics to nursing practice. Packed with case studies, photos, summary checkboxes and developmental considerations, *Jarvis's Physical Examination and Health Assessment ANZ* edition by Helen Forbes and Elizabeth Watt builds on the easy-to use format and style of the popular US publication. This Australia and New Zealand edition, however, features terminology, measurements, spelling, best practice recommendations and cultural considerations particular to a local market. An essential and now even more relevant nursing textbook, *Jarvis's Physical Examination and Health Assessment* is structured to enhance learning for undergraduate and postgraduate nursing students as well as clinicians. WOMEN'S ALMANAC

Greenwood Publishing Group Presents copius information about women in the United States and throughout the world, covering news, contemporary issues, statistics, profiles of notable women, and women in world history.

REDUCE YOUR BREAST CANCER RISKS

Universe Are you confused by all the messages calculated to increase breast cancer awareness, and improve a woman's lifestyle? Well you're not alone. This communication blitz overwhelms many women leaving them uncertain about which course of action applies in their particular case, and how to begin making the requisite changes—so they simply end up doing nothing. *Reduce Your Breast Cancer Risks: Basic Facts Plus Four Simple Changes That Work* clarifies the latest medical data, defines unavoidable and controllable risk factors, and explains how to begin making beneficial health changes. Learn how you can reduce your risk of being diagnosed with breast cancer by undertaking a complete breast health program, making nutritional modifications, exercising on a regular basis, and incorporating stress management into your daily life. This book, in one complete package, will help you recognize the impact your present lifestyle is having on your health and provide encouraging advice, helpful tips, and valuable resources for continuing the process.

NOW WHAT?

A PATIENT'S GUIDE TO RECOVERY AFTER MASTECTOMY

Demos Medical Publishing All the information you need after mastectomy and breast reconstruction surgery so that you can focus on what matters most: healing and staying well. Why am I so tired all the time? What about these drains? Should I worry about lymphedema? Your mastectomy (with or without reconstruction) doesn't end when you leave the operating room. In *Now What?*, Amy Curran Baker, an occupational therapist who has had a double mastectomy and direct to implant breast reconstruction, and her co-authors, two registered nurses, answer all of your post-surgery questions in this comprehensive and empowering guide. *Now What?* helps you: Consider your options and make the decisions that are best for you Deal with frozen shoulder syndrome, wound care, swollen lymph nodes, and other side effects of mastectomy Organize the nitty-gritty issues of wound management post-op care with helpful charts and logs Hear real stories from other breast cancer survivors who have had a mastectomy

TAKING CHARGE OF BREAST CANCER

Univ of California Press "Taking Charge of Breast Cancer incorporates many components of the experience of breast cancer, from personal illness to political economic factors. Based on her very extensive data from interviews and content analysis, Ericksen's fine writing offers a powerful narrative approach that focuses on stages of awareness and action. In the process she eloquently addresses the physical and emotional consequences of breast surgery, changes in body and sexuality, and activism. This is a major contribution to understanding the politics and experience of breast cancer."—Phil Brown, Brown University

CHANGING THE FACE OF MEDICINE

CELEBRATING AMERICA'S WOMEN PHYSICIANS

Biography, poetry and literary criticism continue to receive comprehensive treatment. Reference works in all subject fields are included.

JOURNAL OF THE NATIONAL CANCER INSTITUTE

INEQUALITIES AND DISPARITIES IN HEALTH CARE AND HEALTH

CONCERNS OF PATIENTS, PROVIDERS AND INSURERS

Elsevier This volume deals with the topic of health inequalities and health disparities. The volume is divided into five sections. The first section includes an introductory look at the issue of health care inequalities and disparities and also an introduction to the volume. One of the backdrops to this topic in the United States was The National Healthcare Disparities Report and its focus on the ability of Americans to access health care and variation in the quality of care. Disparities related to socioeconomic status were included, as were disparities linked to race and ethnicity and the report also tried to explore the relationship between race/ethnicity and socioeconomic position, as explained in more detail in the first article in the book. The second article discusses a newer overall approach to issues related to health inequalities and health disparities. The remaining four sections of the book address more specific topics relating to inequalities and disparities. The second section examines racial and ethnic inequalities and disparities. The third section includes articles that address the issue from the perspective of research about health care providers and health care facilities. The last two sections of the book focus on consumers and

topics of health care disparities, with Section 4 focused on issues related to substance abuse, mental health and related concerns. Section 5 includes articles looking at issues of vulnerable women, women with breast cancer and people with colorectal cancer. "Inequalities and Disparities in Health Care and Health" is important reading for medical sociologists and people working in other social science disciplines studying health-related issues. The volume also provides

A WOMAN'S DECISION

BREAST CARE, TREATMENT & RECONSTRUCTION, FOURTH EDITION

CRC Press Answers to your patients' most vital, heartfelt questions! For years, A Woman's Decision has been the "go-to" reference for doctors, nurses, and patients as they deal with the physical and emotional trauma surrounding breast cancer and reconstruction. Co-authored by renowned surgeons and a noted publisher and medical editor, this popular and authoritative book has become a trusted resource and valuable patient education tool. Featured on numerous national talk shows (including Oprah), the authors candidly discuss the full range of breast care, breast cancer treatment, and breast reconstructive options. Many doctors and breast centers use this book as their preferred method of informed consent. Patients love it, and breast centers, support groups, physicians, and societies recommend it. It is also a great gift for your surgical, oncologic, and radiologic colleagues. This new fourth edition has been totally revised and updated to reflect the latest developments in breast cancer treatment and recent advances in breast reconstruction. Written in an accessible manner, it provides women and their families with the information they need to make decisions about their own health care. Best of all, it takes complex and frightening topics and explains them in an understandable and non-threatening manner, providing women with the knowledge they need to feel confident in their decisions, their therapies, and their caregivers. It covers doctor-patient communication, mammography and breast self-examination, breast lumps, cancer facts and treatment options, and even the effects of breast cancer on relationships with family and friends. New information has been added on genetics and genetic counseling, oncoplastic surgery, new approaches to chemotherapy and breast irradiation, and new breast reconstruction techniques, including perforator flap reconstruction, reconstruction with the newer gel-filled implants, and prophylactic or preventive mastectomy. In addition to descriptions of the different cancer therapies and reconstructive techniques, the book includes numerous drawings which detail the steps involved for each procedure with preoperative and postoperative photos showing the possible results from the different reconstructive approaches. Fifteen patient interviews provide comfort to patients as they ride the physical and emotional roller coaster of breast cancer treatment, recovery, and reconstruction. Each woman has a unique story to tell with a different focus for each interview and coverage of a wide range of different reconstructive options. Many readers have commented that these interviews were "lifesavers" for them because they took away the fear of the unknown. They were reassured by the comments of other women who had walked in their shoes and offered advice to help cope with their treatments. They also appreciated the candid comments these women made about the different reconstructive therapies, fully sharing their experiences and detailing their decisions, therapies, pain, recuperation, complications, and coping mechanisms. If you know someone who is experiencing the fear and trauma of breast cancer, do her a favor and order this book. A Woman's Decision has become a preferred patient education tool used by plastic surgeons, cancer surgeons, and breast cancer centers worldwide. This sensitive and information-packed book promotes better doctor-patient communication and helps you provide informed consent to your patients, saving you time and money.

MANMADE BREAST CANCERS

Cornell University Press A breast cancer survivor shares her own family history with breast cancer, providing a feminist assessment of the causes, politics, and economics of breast cancer. Explored are such factors as carcinogens and the environment, racial components, domination of the medical field by corporate interests, the issue of breast reconstruction, and other topics. c. Book News Inc.
