MANAGERIAL ACCOUNTING (16TH EDITION)

GUAN LI KUAI JI (YING WEN BAN YUAN SHU DI 16 BAN)

FOREIGN DIRECT INVESTMENT AND URBAN GROWTH IN CHINA

Ashgate Publishing, Ltd. *This book puts forward an institutional explanation of the recent dynamics of foreign direct investment (FDI) in China. It argues that the concentration of FDI in the Chinese manufacturing economy since the beginning of this century is largely the result of China's entrepreneurial urban growth strategy, which was in turn motivated by the overall political and fiscal structures of China and was facilitated by urban land use under the manipulation of municipalities. By identifying the interactions between cross-border capital flow, national regulations and local responses, this book not only provides a fresh understanding of China's FDI pattern from an urban perspective that has been rare among publications on similar topics, but also sheds light on the drivers underlying China's rapid economic growth and its implications for sustainable development. It also stands as a useful reference for other countries and regions that plan to launch their own state-led development projects.*

HANDBOOK OF BLOCKCHAIN, DIGITAL FINANCE, AND INCLUSION, VOLUME 2

CHINATECH, MOBILE SECURITY, AND DISTRIBUTED LEDGER

Academic Press *Handbook of Blockchain, Digital Finance, and Inclusion, Volume 2: ChinaTech, Mobile Security, and Distributed Ledger emphasizes technological developments that introduce the future of finance. Descriptions of recent innovations lay the foundations for explorations of feasible solutions for banks and startups to grow. The combination of studies on blockchain technologies and applications, regional financial inclusion movements, advances in Chinese finance, and security issues delivers a grand perspective on both changing industries and lifestyles. Written for students and practitioners, it helps lead the way to future possibilities. Explains the practical consequences of both technologies and economics to readers who want to learn about subjects related to their specialties Encompasses alternative finance, financial inclusion, impact investing, decentralized consensus ledger and applied cryptography Provides the only advanced methodical summary of these subjects available today*

Vols. 4-24 include Communications of the International Federation of Library Associations (IFLA-FIAB).

AN ANNOTATED BIBLIOGRAPHY OF CHINESE FILM STUDIES

PROTESTANT BURIALS IN MACAO

Hong Kong University Press *Covers monographs, conference proceedings, and theses that relate to film studies in and about mainland China published between 1920 and 2003. It references basic information, such as film titles, directors, and actors, as well as a variety of topics in film studies, such as film history, genres, and technology.*

HANDBOOK OF BLOCKCHAIN, DIGITAL FINANCE, AND INCLUSION

CRYPTOCURRENCY, FINTECH, INSURTECH, REGULATION, CHINATECH, MOBILE SECURITY, AND DISTRIBUTED LEDGER

Academic Press Handbook of Digital Finance and Financial Inclusion: Cryptocurrency, FinTech, InsurTech, Regulation, ChinaTech, Mobile Security, and Distributed Ledger explores recent advances in digital banking and cryptocurrency, emphasizing mobile technology and evolving uses of cryptocurrencies as financial assets. Contributors go beyond summaries of standard models to describe new banking business models that will be sustainable and likely to dictate the future of finance. The book not only emphasizes the financial opportunities made possible by digital banking, such as financial inclusion and impact investing, but also looks at engineering theories and developments that encourage innovation. Its ability to illuminate present potential and future possibilities make it a unique contribution to the literature. A companion Volume Two of The Handbook of Digital Banking and Financial Inclusion: ChinaTech, Mobile Security, Distributed Ledger, and Blockchain emphasizes technological developments that introduce the future of finance. Descriptions of recent innovations lay the foundations for explorations of feasible solutions for banks and startups to grow. The combination of studies on blockchain technologies and applications, regional financial inclusion movements, advances in Chinese finance, and security issues delivers a grand perspective on both changing industries and lifestyles. Written for students and practitioners, it helps lead the way to future possibilities. Explains the practical consequences of both technologies and economics to readers who want to learn about subjects related to their specialties Encompasses alternative finance, financial inclusion, impact investing, decentralized consensus ledger and applied cryptography Provides the only advanced methodical summary of these subjects available today

BANKING REGULATION IN CHINA

THE ROLE OF PUBLIC AND PRIVATE SECTORS

Springer *Banking Regulation in China provides an in-depth analysis of the country's contemporary banking regulatory system, focusing on regulation in practice. By drawing on public and private interest theories relating to bank regulation, He argues that controlled development of the banking sector transformed China's banks into more market-oriented institutions and increased public sector growth. This work proves that bank regulation is the primary means through which the Chinese government achieves its political and economic objectives rather than using it as a vehicle for maintaining efficient financial markets.*

CHINA'S EXPORT MIRACLE

ORIGINS, RESULTS AND PROSPECTS

Springer *An analysis of the causes and consequences of China's transformation from a minor player to the world's tenth largest trader in less than two decades. It locates the transformation in the synergy created by new forces unleashed in China and their interaction with entrepreneurs in Hong Kong, Taiwan and Southeast Asia, who invested capital, transferred production facilities and provided the marketing channels by which Chinese goods reached world markets. The book also examines the dynamics behind Japan's increasing role in China's foreign trade in the late 1990s and the growing trade friction between China and the United States, which it argues is produced by the failure of the latter to recognise the dynamics of China's export growth.*

USEFUL COMPLAINTS

HOW PETITIONS ASSIST DECENTRALIZED AUTHORITARIANISM IN CHINA

Rowman & Littlefield *This book examines the positive effects of the petition system on China's resilient decentralized authoritarian regime. Combining detailed case studies and rigorous statistical analysis, it argues that citizens' petitions help the regime to alleviate threats to stability by giving an information edge to the Chinese central government.*

INFORMAL PAYMENTS AND REGULATIONS IN CHINA'S HEALTHCARE SYSTEM

RED PACKETS AND INSTITUTIONAL REFORM

Springer *This text addresses the key issue of informal payments, or 'red packets', in the Chinese Healthcare system. It considers how transactions take place at the clinical level as well as their regulation. Analysing the practice from the perspectives of institutions and power structure, it examines how institutional changes in the pre-reform and reform era have changed the power structure between medical professions, patients and the Party-state, and how these changes have given rise and perpetuate the practice. Drawing from qualitative data from interviews of medical professionals, the author recognises the medical profession as a major player in the health care system and presents their perception of the practice as the taker of 'red packets' and their interactions with the patient and the state surrounding the illegal practice in an authoritarian power structure. The books considers the institutional reasons that motivate doctors to take, patients to give, and the government to "tolerate" red packets, arguing that the bureaucratization of the medical profession, society of acquaintances and shortage of quality of medical services jointly create an institutional setting that has given rise to these informal payments. Contributing to a rounded understanding of the problems of healthcare reform in China, this book is a key read for all scholars interested in the issue of informal payments and healthcare politics in transition economies.*

NOURISH THE PEOPLE

THE STATE CIVILIAN GRANARY SYSTEM IN CHINA, 1650-1850

University of Michigan Press *The Qing state, driven by Confucian precepts of good government and urgent practical needs, committed vast resources to its granaries. Nourish the People traces the basic practices of this system, analyzes the organizational bases of its successes and failures, and examines variant practices in different regions. The volume concludes with an assessment of the granary system's social and economic impact and historical comparison with the food supply policies of other states.*

THE TRANSFORMATION OF GOVERNANCE IN RURAL CHINA

Cambridge University Press *"This book started twelve years ago as a much smaller project which was intended to explore China's peasant burdens and grievances. At that time, I saw no clear signs suggesting that the Chinese countryside was on the eve of a great political and economic transformation. I did not anticipate that this project would take so many years to complete and eventually expand to such a scope. The two major rural reforms in the first decade of the twenty-first century, namely the tax-for-fee reform in 2002-2004 and the abolition of agricultural taxes in 2005-2006, whose effects were reinforced by the ongoing marketization of the rural economy and the rapid deterioration of rural finances, have changed China's rural politics almost beyond recognition. In terms of its economic, political, and social magnitude, this transformation by no means pales in comparison with agricultural decollectivization around the turn of the 1970s"--*
