Keeping Pace with Science and Engineering

Case Studies in Environmental Regulation

National Academies Press The technical basis of environmental regulation is always at the edge of scientific and engineering understanding. As knowledge improves, questions will inevitably arise about past decisions. Understanding how the regulatory system accommodates changing scientific and engineering knowledge is vital for achieving environmental values. In this new volume, seven case studies shed light on the interplay between environmental regulation and scientific and engineering understanding, with practical conclusions on how science and engineering should be used for more sound and timely regulatory decision making. The book provides helpful timelines of scientific and regulatory developments for the cases, which include Factors impeding clean-up strategies in the Chesapeake Bay. Pivotal questions in the regulation of ambient ozone concentrations. How science has been heeded but also ignored in regulation of new municipal waste combustors. Impact of scientific findings on control of chlorination by-products. Acid rain and what can be learned about research and public policy debate. Controversy over the need for formaldehyde regulation. The effect of public perception on management decisions concerning dioxin. This volume will be of practical interest to policymakers, business and environmental advocates, scientists, engineers, researchers, attorneys, faculty, and students.

The Ultimate Student Teaching Guide

SAGE Publications The Ultimate Student Teaching Guide offers teacher candidates a comprehensive guide to better understand the realities of the student teaching internship experience. The guide provides practical strategies which can be immediately applied to help navigate school concerns, solve classroom challenges, and negotiate social conflicts. The information and strategies presented are succinct and practical in nature.

Resources in Education

Insiders' Guide® to Raleigh, Durham & Chapel Hill

North Carolina's Triangle

Rowman & Littlefield A first edition, Insiders' Guide to Raleigh, Durham & Chapel Hill is the essential source for in-depth travel and relocation information to what is one of the fastest growing regions in the United States. Written by a local (and true insider), this guide offers a personal and practical perspective of the Raleigh, Durham, and Chapel Hill area.

A Guide to Undergraduate Science Course and Laboratory Improvements

Study and Research Guide in Computer Science

Profiles of Universities in the USA

Springer Science & Business Media Computer science departments at universities in the U.S.A. are world renowned. This handy reference guide gives detailed profiles of 40 of the best known among them. The profiles are organized in a uniform layout to present basic information, faculty, curriculum, courses for graduate students, affiliated institutions, facilities, research areas, funding, selected projects, and collaborations. Two full alphabetical listings of professors are included, one giving their universities and the other their research areas. The guide will be indispensable for anyone - student or faculty, not only in the U.S.A. - interested in research and education in computer science in the U.S.A.

Guide to Scientific Products, Instruments and Services

Powerful Social Studies for Elementary Students

Cengage Learning [POWERFUL SOCIAL STUDIES FOR ELEMENTARY STUDENTS](#) examines the nature and purpose of social studies as it outlines ways to select content and teach history, geography, and social sciences meaningfully. The book's respected and experienced authors present principles and illustrative examples to help pre-service and in-service teachers plan well-organized, rigorous, and creative social studies instruction that produces positive student outcomes. The fourth edition emphasizes the importance of using developmentally appropriate content and methods when helping students to develop social understanding and prepare for civic life. It also includes a solid research base, uses additional visuals to display content, provides examples of curriculum and design, and reflects principles emphasized in the new College, Career, and Civic Life Framework for Social Studies State Standards. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Curriculum and Teaching Dialogue

Vol. 22 # 1 & 2

IAP [Curriculum and Teaching Dialogue](#) is a peer-reviewed journal sponsored by the American Association for Teaching and Curriculum. The purpose of the journal is to promote the scholarly study of teaching and curriculum. The aim is to provide readers with knowledge and strategies of teaching and curriculum that can be used in educational settings. The journal is published annually in two volumes and includes traditional research papers, conceptual essays, as well as research outtakes and book reviews. Publication in CTD is always free to authors.

Psychological Science and the Law

[Guilford Publications Psychological research can provide constructive explanations of key problems in the criminal justice system--and can help generate solutions. This state-of-the-art text dissects the psychological processes associated with fundamental legal questions: Is a suspect lying? Will an incarcerated individual be dangerous in the future? Is an eyewitness accurate? How can false memories be implanted? How do juries, experts, forensic examiners, and judges make decisions, and how can racial and other forms of bias be minimized? Chapters offer up-to-date reviews of relevant theory, experimental methods, and empirical findings. Specific recommendations are made for improving the quality of evidence and preserving the integrity of investigative and legal proceedings.](#)

Insiders' Guide North Carolina's Southern Coast and Wilmington

[Insiders' Guide The annually updated Insiders Guide, to North Carolinas Southern Coast and Wilmington is this areas most complete source of travel and newcomer information](#)

Peterson's Guide to Graduate Programs in Engineering and Applied Sciences

The “People Power” Education Superbook: Book 9. Library Guide (Use a Library, World Library Websites)

[Lulu Press, Inc I was always a library guy. When I was a kid, I used to walk to the library with my friend Peggy McGraw. That was like 1969. I guess not many other guys were into libraries. I was athletic and normal. I wasn't a nerd. I was so interested in life that I loved to read about inventors, fairy tales, electricity and all kinds of stuff. It was a part of my nature. I believe it's normal to be curious, intellectual and creative. I love libraries and librarians. They're some of the best people on the planet when you stop and think about it. The entire profession is to help people. Why did I write this book? I believe in education. This book is my tribute to libraries. It's a library structure-framework book. The thing about most libraries is that they have some free information on their websites like local job resources but you still need a card to use their databases or borrow a book. Nowadays they're always busy because they got computers that people come into use.](#)

Insiders Guide to the Triangle
