### TO THE LIGHTHOUSE

---

Renard Press Ltd Described by Virginia Woolf herself as 'easily the best of my books', and by her husband Leonard as a 'masterpiece', To the Lighthouse, first published in 1927, is one of the milestones of Modernism. Set on the Isle of Skye, over a decade spanning the First World War, the narrative centres on the Ramsay family, and is framed by Mrs Ramsay's promise to take a trip to the lighthouse the next day - a promise which isn't to be fulfilled for a decade. Flowing from character to character and from year to year, the novel paints a moving portrait of love, loss and perception. Bearing all the hallmarks of Woolf's prose, with her delicate handling of the complexities of human relationships, To the Lighthouse has earned its reputation - frequently appearing in lists of the best novels of the twentieth century, it has lost not an iota of brilliance.

## **JONAS OF BOBBIO AND THE LEGACY OF COLUMBANUS**

---

Oxford University Press Jonas of Bobbio, writing in the mid seventh century, was not only a major Latin monastic author, but also an historical figure in his own right. Born in the ancient Roman town of Susa in the foothills of the Italian Alps, he became a monk of Bobbio, the monastery founded by the Irish exile Columbanus, soon after his death in 615. He became the archivist and personal assistant to successive Bobbio abbots, travelled to Rome to obtain the first papal privilege of immunity, and served as a missionary priest on the northern borderlands of the Frankish kingdom. He spent the rest of his life in Merovingian Gaul as abbot of the double monastic community of Marchiennes-Hamage, where he wrote his Life of Columbanus, one of the most influential works of early medieval hagiography. This book, the first major study devoted to Jonas of Bobbio, his corpus of three saints' Lives, and the Columbanian familia, explores the development of the Columbanian monastic network and its relationship to its founder. The Life of Columbanus was written following a period of crisis within the Columbanian familia and it was in response to this crisis that the Bobbio community in Lombard Italy commissioned Jonas to write the work. Alexander O'Hara presents the Life of Columbanus as a subtle and clever critique of the changes and crises that had taken place in the monastic communities since Columbanus's death. It also considers the life of Jonas as reflecting many of the changing political, cultural, and religious circumstances of the seventh century, and his writings as instrumental in shaping new concepts of sanctity and community. The result of the study is a unique perspective on the early medieval Age of Saints and the monastic and political worlds of Merovingian Gaul and Lombard Italy in the seventh century.

## **ARCHITECTURE AND THE NOVEL UNDER THE ITALIAN FASCIST REGIME**

---

Springer Nature This book is open access under a CC BY 4.0 license "Francesca Billiani and Laura Pennacchietti draw brilliantly and with precision the evolution of the new architecture and of the national novel (with insights on translations of international novels), whose profiles had been shaped from different angles, especially in the 1930s. These two fields, apparently so distant one from the other, had never been analysed in parallel. This book does this and uncovers several points of contact between the two, spanning propaganda and theoretical turning points." —Chiara Costa and Cornelia Mattiacci, Fondazione Prada, Italy "This book shows convincingly how the arte di Stato during Fascism was created with the morality of a new novel as well as architecture. It is surprising to read how one of the representatives of State art, Giuseppe Bottai, is also one of the finest critics of realist novels and rationalist architecture. More than parallel endeavours, the system of the arts during the Fascist regime should be viewed as a series of intersections of cultural, political and aesthetic discourses." —Monica Jansen, Utrecht University, The Netherlands Architecture and the Novel under the Italian Fascist Regime discusses the relationship between the novel and architecture during the Fascist period in Italy (1922-1943). By looking at two profoundly diverse aesthetic phenomena within the context of the creation of a Fascist State art, Billiani and Pennacchietti argue that an effort of construction, or reconstruction, was the main driving force behind both projects: the advocated "revolution" of the novel form (realism) and that of architecture (rationalism). The book is divided into seven chapters, which in turn analyze the interconnections between the novel and architecture in theory and in practice. The first six chapters cover debates on State art, on the novel and on architecture, as well as their historical development and their unfolding in key journals of the period. The last chapter offers a detailed analysis of some important novels and buildings, which have in practice realized some of the key principles articulated in the theoretical disputes. Francesca Billiani is Senior Lecturer in Italian Studies and Director of the Centre for Interdisciplinary Research in the Arts and Languages at the University of Manchester, UK. Laura Pennacchietti is Research Associate in Italian Studies at the University of Manchester, UK.

## **THE LAW OF TREATIES BEYOND THE VIENNA CONVENTION**

---

Oxford University Press This book offers a comprehensive analysis of the law of treaties as it emerges from the interplay between the 1969 Vienna Convention on the Law of Treaties and customary international law. It revisits the basic concepts underlying the provisions of the Vienna Convention, so as to determine the actual state of the law and its foreseeable development. In doing so, it examines some of the most controversial aspects of the law of treaties. The book first explores the influence exerted by the Vienna Convention on pre-existing customary law. Certain rules of the Convention which, at the time of its adoption, appeared to fall within the realm of progressive development, can now be regarded as customary international rules. Conversely, a number of provisions of the Convention, in particular those which have been the subject of subsequent codification work by the International Law Commission,

have become obsolete. It then examines the impact exerted by the Vienna Convention on the development of other fields of international law, such as the law of international responsibility and the law of international organizations. The last section of the book is devoted to cross-cutting issues, with particular reference to the notion of jus cogens - a concept first used in the Vienna Convention in connection with the problem of the validity of treaties and which, afterwards, has acquired a legal significance going well beyond the Convention. Written by a team of renowned international lawyers, this book offers new insight into the basic concepts and methodology of the law of treaties and its problems.

#### **A HISTORY OF INTERNATIONAL LAW IN ITALY**

---

Oxford University Press, USA This volume critically reassesses the history and impact of international law in Italy. It examines how Italy's engagement with international law has been influenced and cross-fertilized by global dynamics, in terms of theories, methodologies, or professional networks. It asks to what extent historical and political turning points influenced this engagement, especially where scholars were part of broader academic and public debates or even active participants in the role of legal advisers or politicians. It explores how international law was used or misused by relevant actors in such contexts. Bringing together scholars specialized in international law and legal history, this volume first provides a historical examination of the theoretical legal analysis produced in the Italian context, exploring its main features, and dissident voices. The second section assesses the impact on international law studies of key historical and political events involving Italy, both international and domestically; and, conversely, how such events influenced perceptions of international law. Finally, a concluding section places the preceding analysis within a broader, contemporary perspective. This volume weighs in on in the growing debate on the need to explore international law from comparative and local viewpoints. It shows how regional, national, and local contexts have contributed to shaping international legal rules, institutions, and doctrines; and how these in turn influenced local solutions.

#### **FROM THE LABORATORY TO THE CLASSROOM**

---

Springer This comprehensive volume provides teachers, researchers and education professionals with cutting edge knowledge developed in the last decades by the educational, behavioural and neurosciences, integrating cognitive, developmental and socioeconomic approaches to deal with the problems children face in learning mathematics. The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades, but the most part of this research has been conducted in non-applied settings and there's still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings. Now it's time to

bring the results from the laboratory to the classroom. Apart from bringing the theoretical discussions to educational settings, the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments. It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues. And it does so from an international perspective, dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world. All of this makes the *International Handbook of Mathematical Learning Difficulties* an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society.

### **THREE O'CLOCK IN THE MORNING**

---

#### **A NOVEL**

HarperCollins "In a real dark night of the soul it is always three o'clock in the morning." - F. Scott Fitzgerald A coming-of-age novel—a heady union of *Before Sunrise* and *Beautiful Ruins*—about a father and his teenage son who are forced to spend two sleepless nights exploring the city of Marseilles, a journey of unexpected adventure and profound discovery that helps them come to truly know each other. Antonio is eighteen years old and on the cusp of adulthood. His father, a brilliant mathematician, hasn't played a large part in his life since divorcing Antonio's mother but when Antonio is diagnosed with epilepsy, they travel to Marseille to visit a doctor who may hold the hope for an effective treatment. It is there, in a foreign city, under strained circumstances, that they will get to know each other and connect for the first time. A beautiful, gritty, and charming port city where French old-world charm meets modern bohemia, father and son stroll the streets sharing strained small talk. But as the hours pass and day gives way to night, the two find themselves caught in a series of caffeine-imbued adventures involving unexpected people (and unforeseen trysts) that connect father and son for the first time. As the two discuss poetry, family, sex, math, death, and dreams, their experience becomes a mesmerizing 48-hour microcosm of a lifetime relationship. Both learn much about illusions and regret, about talent and redemption, and, most of all, about love. Elegant, warm, and tender, set against the vivid backdrop of 1980s Marseille and its beautiful calanques—a series of cliffs and bays on the city's outskirts—*Three O'Clock in the Morning* is a bewitching coming-of-age story imbued with nostalgia and a revelatory exploration of time and fate, youth and adulthood. Translated from the Italian by Howard Curtis

## **RECONSIDERING CONSTITUTIONAL FORMATION II DECISIVE CONSTITUTIONAL NORMATIVITY**

---

### **FROM OLD LIBERTIES TO NEW PRECEDENCE**

---

This second volume of ReConFort, published open access, addresses the decisive role of constitutional normativity, and focuses on discourses concerning the legal role of constitutional norms. Taken together with ReConFort I (National Sovereignty), it calls for an innovative reassessment of constitutional history drawing on key categories to convey the legal nature of the constitution itself (national sovereignty, precedence, justiciability of power, judiciary as constituted power). In the late 18th and early 19th centuries, constitutional normativity began to complete the legal fixation of the entire political order. This juridification in one constitutional text resulted in a conceptual differentiation from ordinary law, which extends to alterability and justiciability. The early expressions of this 'new order of the ages' suggest an unprecedented and irremediable break with European legal tradition, be it with British colonial governance or the French ancien régime. In fact, while the shift to constitutions as a hierarchically 'higher' form of positive law was a revolutionary change, it also drew upon old liberties. The American constitutional discourse, which was itself heavily influenced by British common law, in turn served as an inspiration for a variety of constitutional experiments - from the French Revolution to Napoleon's downfall, in the halls of the Frankfurt Assembly, on the road to a unified Italy, and in the later theoretical discourse of twentieth-century Austria. If the constitution states the legal rules for the law-making process, then its Kelsenian primacy is mandatory. Also included in this volume are the French originals and English translations of two vital documents. The first - Emmanuel Joseph Sieyès' Du Jury Constitutionnaire (1795) - highlights an early attempt to reconcile the democratic values of the French Revolution with the pragmatic need to legally protect the Revolution. The second - the 1812 draft of the Constitution of the Kingdom of Poland - presents the 'constitutional propaganda' of the Russian Tsar Alexander I to bargain for the support of the Lithuanian and Polish nobility. These documents open new avenues of research into Europe's constitutional history: one replete with diverse contexts and national experiences, but above all an overarching motif of constitutional decisiveness that served to complete the juridification of sovereignty. ## **STORMING HEAVEN**

---

### **CLASS COMPOSITION AND STRUGGLE IN ITALIAN AUTONOMIST MARXISM**

---

Pluto Press (UK) Storming Heaven is the only book which looks at Italian workerist theory and practice, from its origins in the anti-Stalinist left of the 1950s to its heyday twenty years later. It focuses on the theme of workerism, or 'operaismo', which includes the refusal of work, class self-organisation, mass illegality and the extension of revolutionary agency, of which are still practiced today by workers across the world. Emphasising the dynamic nature of class struggle as the distinguishing feature of workerist thought, Storming Heaven reveals how this form of radical politics developed alongside emerging social movements to great effect. It assesses the strengths and limitations of workerism as first developed by Antonio Negri, Mario Tronti, Sergio Bologna and others. This edition includes a new chapter looking at the debates around operaismo and Autonomia since the book originally appeared in 2002, and is

updated with a new foreword and afterword.

In these remarkable essays, Sapolsky once again deploys his compassion and insights into the human condition to tell us who, why and how we are. Monkeyluv touches on themes such as sexuality, aggression, love, parenting, religion, ageing, and mental illness. He ponders such topics as our need to seek out beauty; why our preferences in food become fixed; why we are sexually attracted to one another; why Alzheimer's disease tends to be a post-menopausal phenomenon; and why grandmothers buying groceries for their grandchildren are part of nature's Darwinian logic.

## **MOCK POLITENESS IN ENGLISH AND ITALIAN**

---

---

### **A CORPUS-ASSISTED METALANGUAGE ANALYSIS**

---

John Benjamins Publishing Company This volume presents an in-depth analysis of mock politeness, bringing together research from different academic fields and investigating a range of first-order metapragmatic labels for mock politeness in British English and Italian. It is the first book-length theorisation and detailed description of mock politeness and, as such, contributes to the growing field of impoliteness. The approach taken is methodologically innovative because it takes a first-order metalanguage approach, basing the analysis on behaviours which participants themselves have identified as impolite. Furthermore, it exploits the affordances of corpus pragmatics, a rapidly developing field. Mock Politeness in English and Italian: A corpus-assisted metalanguage analysis will be of interest to scholars and postgraduate students researching im/politeness and verbal aggression, in particular those interested in im/politeness implicatures and non-conventional meanings.
