## Revolting Prostitutes

## The Fight for Sex Workers' Rights

*Verso Books* How the law harms sex workers—and what they want instead Do you have to endorse prostitution in order to support sex worker rights? Should clients be criminalized, and can the police deliver justice? In *Revolting Prostitutes*, sex workers Juno Mac and Molly Smith bring a fresh perspective to questions that have long been contentious. Speaking from a growing global sex worker rights movement, and situating their argument firmly within wider questions of migration, work, feminism, and resistance to white supremacy, they make it clear that anyone committed to working towards justice and freedom should be in support of the sex worker rights movement.

## Nurse Writers of the Great War

*Manchester University Press* This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. The First World War was the first 'total war'. Its industrial weaponry damaged millions of men and drove whole armies underground into dangerously unhealthy trenches. Many were killed. Many more suffered terrible, life-threatening injuries: wound infections such as gas gangrene and tetanus, exposure to extremes of temperature, emotional trauma and systemic disease. In an effort to alleviate this suffering, tens of thousands of women volunteered to serve as nurses. Of these, some were experienced professionals, while others had undergone only minimal training. But regardless of their preparation, they would all gain a unique understanding of the conditions of industrial warfare. Until recently their contributions, both to the saving of lives and to our understanding of warfare, have

remained largely hidden from view. By combining biographical research with textual analysis, Nurse writers of the great war opens a window onto their insights into the nature of nursing and the impact of warfare.

## Milk Production and Processing

*Daya Publishing House* The book covers various aspects of dairying and milk products such as dairy farm establishment, management, production and utilisation of various dairy products. Information has been included on various aspects of dairy farming starting with selection and purchase of dairy cattle, their care and management, with respect to housing, feeding, breeding and health care during various physiological states such as growth, pregnancy and lactation and during different seasons. Details of health care management along with common diseases have been covered with all information required for educated farmers and technicians working in these areas. Various means for consistent improvement of the stock has also been included. Production of clean milk, its procurement, processing and distribution has been covered with more emphasis on common processing technologies such as pasteurisation and sterilisation. Different forms of liquid milk available in the market has been described along with its standards and other specifications for the knowledge of common man and technicians. Manufacturing methods of milk products have been included with appropriate flow chart wherever required and various

categories of milk products have been covered in detail under different chapters under milk products. This book has been prepared with emphasis on second year syllabus of Vocational higher secondary course on milk products and dairying and considering the lack of a suitable textbook for this subject. Also the book may be accepted as a textbook/manual for educated farmers, other teaching and training programmes covering similar syllabus like that of dairy farm instructors and as a handbook for Veterinary Students and Dairy Extension Officers. With these introductory notes, we presume that the book will satisfy its readers' requirements and form a valuable textbook/reference book for all those concerned with dairy animal production and utilisation of their products ultimately benefiting the farming community.

## His Reluctant Omega

**Mitchell is an alpha among alphas in the brutal Mountain Ridge Pack. He rules with equal parts fear and respect, but his pack is growing restless after decades without an heir to his proverbial throne. Only an alpha and an omega pair can sire another alpha to lead the pack, but Mitchell's not-so-secret shame is the fact that he hasn't been able to impregnate any of his female omegas. Unlike the other weaker packs, the Mountain Ridge wolves have always kept their omegas in line and at a safe distance through the infamous yet efficient Breeding Program. On the recommendation of an old rival turned tentative friend, Mitchell decides to try his hand--among other things--in a last-ditch effort at siring an heir with a rare male omega. When a transfer request for one of the only male omegas in the pack uncovers unspeakable abuse and corruption within the Breeding Program, the very future of the pack is thrown into question. - Angel's heart has turned to stone after a lifetime of abuse at the hands of the alpha shifters who oversee the Breeding Program in his pack unit. The only love he has left belongs to the three other omegas he shares his little corner of hell with. Angel will do whatever it takes to protect them, even if it means becoming the mate of the top alpha himself. Angel knows better than to believe the gruff Mitchell when he claims that he's not like the others. Despite his best attempts to steel himself against the strange bond that forms between them, Angel discovers that Mitchell is the most dangerous alpha of all because he wants the one thing Angel has sworn never to give--his heart. With war looming on the horizon, a pack in chaos and two hardened hearts melted by an unlikely spark of love, only one outcome is certain. The Mountain Ridge Pack will never be the same. ## Herbert List

### The Monograph

In the 30s, Herbert List had compiled a portfolio of photographs for a large book on Greece. The outbreak of the war prevented the project from being realized. In association with the Herbert List estate, Schirmer/Mosel first produced a reconstruction of the planned book in 1993. The photographs--landscapes, fragments of sculpture, ruined temples, people at the sea--conjure up a vision of classical Hellas bathed in light and beauty, with the traces of the 20th century largely excluded. In view of the tempestuous assaults made by "civilizing" development, Herbert List's photographs themselves are today like archeological discoveries that have come down to us from a distant, long-vanished Golden Age. Edited by photographer Max Scheler, the book contains an essay by Hugo von Hofmannsthal, in which the Austrian poet and dramatist describes his first journey to Greece in 1922. Now available again in a special low-price softcover reprint.
