The Hydropolitics of Dams

Engineering or Ecosystems?

Zed Books Ltd. The Hydropolitics of Dams charts the troubled waters of 'heavy engineering' approaches to ecosystem management, exploring the history, benefits and problems of large dams. It then explores diverse ecosystem-based approaches to management of human interactions with the water cycle, concluding that a synthesis of approaches is needed in future. The book also addresses political, economic and legal dimensions of water management. Featuring case studies from China, India and South Africa, this insightful new book argues that there are more appropriate physical and social technologies that can help to sustainably provide access to clean water for all.

The Treadmill of Crime

Political Economy and Green Criminology

Routledge Drawing on the work of Allan Schnaiberg, this book returns political economy to green criminology and examines how the expansion of capitalism shapes environmental law, crime and justice. The book is organized around crimes of ecological withdrawals and ecological additions. The Treadmill of Crime is written by acclaimed experts on the subject of green criminology and examines issues such as the crime in the energy sector as well as the release of toxic waste into the environment and its impact on ecosystems. This book also sets a new research agenda by highlighting problems of ecological disorganization for animal abuse and social disorganization. This book will be of interest to students, researchers and academics in the fields of criminology, political science, environmental sociology, and natural resources.

Management

Cengage Learning MANAGEMENT, 12E includes several innovative pedagogical features to help students understand their management capabilities and learn what it's like to manage in an organization today. Each of the 19 chapters begins with an opening questionnaire that engages the reader's interest, directly connects to the topic of the chapter, and enables students to see how they respond to situations and challenges that real-life managers typically face. A New Manager Self-Test in each chapter provides students with further insight into how they would function in the real world of management. The Remember This bullet-point summaries at the end of each major chapter section give students a snapshot of the key points and concepts covered in that section. The end-of-chapter questions have been carefully revised to encourage critical thinking and application of chapter concepts, and Small Group Breakout exercises give students the opportunity to apply concepts while building teamwork skills. Ethical dilemmas, all-new end-of-chapter cases, and a fully updated set of On the Job video cases help students sharpen their diagnostic skills for management problem solving. The chapter sequence in MANAGEMENT is organized around the management functions of planning, organizing, leading, and controlling. These four functions effectively encompass management research and the characteristics of the manager's job. Heaven Holds the Answers

Christian Faith Publishing, Inc. It's not what we read but rather how we read it that makes the difference!!! What if I told you things are not as they appear. Black is not black and White is not white and 130 B.C. is not 130 years before Christ. Now turn off the lights and tell me what is white and what is black, color is the reflection of light, without light there is no color. That's what Rome did, they turned off the lights on the truth. And the way we been taught to record time is not the only way it was done. And that an ancient order set claim to the entire Western Hemisphere long before Columbus and possibly achieved it in 130 B.C. With B.C. possibly meaning before Columbus, before the cycle or before the comet of 1492 becoming 1362, possible in this case B.C. stood for all three events. 130 B.C. is not as it appears and the claim was not made for a mortal king or country, but rather for a Supreme God, Under God laws. If you like riddles. If you like enigmas. If you would like to see history recorded and told differently or truer then you may be ready for this challenge. If you are then you are ready to look at the clues that was left behind with an open mind. If you like astronomy, I'll show you how different groups of people each use different galactic events besides the Star of Bethlehem to mark the start of their time and all the different groups calendar are tied together. We will be looking at the equivalent of several Stars of Bethlehem from here in the Americas. I'll be taking you through a dating wormhole without leaving the planet, making you scratch your head, laugh and wonder, "what if he is right." This book just maybe the start of the rest of the story. If you read through this book the first time you will read it again and again. And you will possibly come to the same conclusion, "So that's how they did that." And you will never read things the same way all the time again. Including the Book of Mormons with its three different voyages and possible dating enigmas, truest account ever written about the Americas. "Sometimes it's not what is being said that's important, it's what not being said that is. You will be intrigued, so if you are ready to start a journey that will give you a lot to think about then turn to page 1. Unravel the truth.
