Nonfiction Mentor Texts Teaching Informational Writing Through Children's Literature, K-8 Stenhouse Publishers Guides teachers through a variety of projects,

samples, and classroom anecdotes that demonstrate how teachers can help students become more effective writers of good nonfiction. **Writing Children's Books For Dummies** John Wiley & Sons Everyone loves a children's book. And many dream about writing one. But is it actually possible for an unpublished writer—armed with a good story idea and a love of kids—to write, sell, publish, and promote a book? Yes, it is! Veteran children's book publishing executive and author Lisa Rojany Buccieri and author Peter Economy show you how, in their incredibly useful 2005 first edition of *Writing Children's Books For Dummies*®. Buccieri and Economy begin by explaining the basics of the children's book business, from the nuts and bolts of the various formats and genres—with helpful illustrations to aid you—to the intricacies of the book publishing market, a list of recent award-winning books, and a first peek into the particular mind set that writing children's books requires. (Hint: Throw out the adult rules, and think like a kid!) Then the authors dive into the actual writing process itself, with tips on setting up a workspace, brainstorming great book ideas, researching the subject you decide on, even speaking with the sorts of kids you hope will eventually read the book. They show you how to create compelling characters and develop them in the manuscript; how to outline and write a plot "arc" of conflict, change, and resolution; how to master the difficult art of writing dialogue; and how to use active (rather than passive) language to keep your story moving along and interesting to young minds. Or, if you're planning to write a creative nonfiction children's book—on a topic such as science, nature, or a historical figure, for example—the authors include a chapter on this, too. Ready, set, go... it's time to sit down and write! Once you've finished your book, however, the process has only begun. Now you will refine, submit, and hopefully sell your manuscript. Here again, the authors of *Writing Children's Books For Dummies* come through for you. They deliver solid advice on hiring an illustrator—or not; participating in workshops and conferences to learn the business and hone a story; finding an agent; and, finally, submitting the manuscript to publishers and—if you are successful—signing a contract. Along the way, the authors also include tips on handling rejection; a quick primer on the various editors in publishing houses (and how they work to make your book its best); and making a

plan to publicize the book, including hiring a publicist if necessary. Like all For Dummies® books, *Writing Children's Books For Dummies* highlights "The Part of Tens," which includes the Ten Best Ways to Promote Your Story and More Than Ten Great Sources for Storylines. And the ever-helpful Cheat Sheet includes Tips for Editing your Children's Book Manuscript, Children's Book No-No's, Twelve Commandments for Writing Younger Children's Books, and Tips on Promotion. From setting down that first word on paper to doing a successful publicity tour, *Writing Children's Books For Dummies* gives you the confidence and the insiders' know-how to write and sell the story you've always wanted to write. **Just the Facts On Researching Your Nonfiction Children's Book** Editorial Freelancers Association Publications Writing nonfiction for children takes skill with research as well as with writing. The facts and the research supporting children's nonfiction must hold up under intense scrutiny. Sometimes called "kidlit," today's successful children's nonfiction is engaging and enticing and supported by the most credible source material available. Today's successful children's nonfiction authors must believe that facts matter, embrace the crucial role that research plays, know the difference between cursory and quality research, model good research practices for young readers, tap into the joy of chasing new knowledge and in sharing it with others, and bring all of these things to bear on each new book. *Just the Facts: On Researching Your Nonfiction Children's Book* walks a writer-researcher through the steps from pre-planning a subject, to determining the format, to establishing the scope, to embarking on the research-writing-research-writing cycle. The booklet contains a sample project plan, outlining in great detail the process the author uses once committed to a new nonfiction children's book idea, from brainstorming, to note-taking, organizing your workspace, sketching out the plan, identifying and collecting source material, creating a writing schedule, stepping away, revising, and when to call it done. Owens recommends tools such as Google Bookmarks, Twitter bookmarks, private YouTube playlists, and Scrivener's research-collection feature to capture online sources for review. Topics include: How to find valuable sources and get access to them. How to select and validate secondary sources. Best practice for testing facts, including the rule-of-three, a rule adhered to by most publishers. Helpful lists of sources, mentor texts, and other resources included. **Resources in Education Writing to Explore Discovering Adventure in the Research Paper, 3-8** Stenhouse Publishers *In Writing to Explore*, David and Peter demonstrate how to teach adventure writing, which integrates nonfiction and fiction and motivates students to write with imagination, curiosity, and a hunger to learn everything about their topic. The book starts with a solid foundation in the basics of good writing: setting descriptions, writing atmosphere, and character development. The authors then explore the specific elements of adventure writing--from setting the stage to conducting research; from combining history and geography to effectively utilizing technology. The result is an adventure-based paper that is "rooted in real places, supported by facts, and developed with detailed description of images from real locations." Teachers will find handouts, sample activities, student writing examples, research sources, and tips to help them create a nonfiction writing program based around the adventure writing model. Research papers don't have to be boring to read or to write. This book will show you how to get vibrant papers from your

students--papers that teach both reader and writer something new. **Introducing Nonfiction Writing in the Early Grades Lessons, Activities, and Graphic Organizers That Teach Young Children What Nonfiction Is and How to Write It** Scholastic Inc. Talk for Writing across the Curriculum How to teach non-fiction writing 5-12 years [Open University Press](#)

"This is a vibrantly practical and engaging book with a solid foundation in research. This book will be an invaluable resource to teachers in both primary and secondary schools." Professor Debra Myhill, Associate Dean for Research, College of Social Science and International Studies, University of Exeter, UK

"This is a tremendously rich and exciting book.
