Future Generations and International Law

Routledge Sustainable development requires consideration of the quality of life that future generations will be able to enjoy, and as the adjustment to sustainable lifestyles gathers momentum, the rights of future generations and our responsibility for their wellbeing is becoming a central issue. In this, the first book to address this emerging area of international law, leading experts examine the legal and theoretical frameworks for representing and safeguarding the interests of future generations in current international treaties. This unique volume will be required reading for academics and students of international environmental law and policy. Emmanuel Agius is Senior Lecturer at the Faculty of Theology and Coordinator of the Future Generations Programme at the Foundation for International Studies, University of Malta. Salvino Busuttil is former Director General of the Foundation for International Studies. *Future Generations and International Law* is the seventh volume in the *International Law and Sustainable Development* series, co-developed with FIELD. The series aims to address and define the major legal issues associated with sustainable development and to contribute to the progressive development of international law. Other titles in the series are: *Greening International Law*, *Interpreting the Precautionary Principle*, *Property Rights in the Defence of Nature*, *Improving Compliance with International Environmental Law*, *Greening International Institutions and Quotas in International Environmental Agreements*. 'A legal parallel to the *Blueprint* series - welcome, timely and provocative' David Pearce Originally published in 1997

International Law and Transitional Governance

Critical Perspectives

Routledge *This volume examines the role of international law in shaping and regulating transitional contexts, including the institutions, policies and procedures that have been developed to steer constitutional regime changes in countries affected by catalytic events. The book offers a new perspective on the phenomenon of conflict-related transitions, whereby societies are re-constitutionalized through a set of interim governance arrangements subject to variable degrees of internationalization. Specifically, this volume interrogates the relevance, contribution and perils of international law for this increasingly widespread phenomenon of inserting an auxiliary phase between two ages of constitutional government. It develops a more nuanced understanding of the various international legal discourses surrounding conflict- and political crisis-related transitional governance by studying the contextual factors that influence the transitional arrangements themselves, with a specific focus on international aspects, including norms, actors and related forms of expertise. In doing so, the book builds an important bridge between comparative constitutional law and international legal scholarship in the practical and highly dynamic terrain of transitional governance. This book will be of much interest to practitioners and students of international law, diplomacy, mediation, security studies and International Relations.*

Human Rights in International Investment Law and Arbitration

Oxford University Press *There is a growing interplay between international investment law, arbitration and human rights. This book offers a systematic analysis of this interaction, exploring the role of principles of justice in investment law, comparing investment arbitration with other courts, and examining case studies on human rights and protection standards.*

East African Community Law

Institutional, Substantive and Comparative Eu Aspects

Brill - Nijhoff *Written by leading experts in EAC and EU law, including the President of the EACJ, East African Community Law is the first comprehensive and open-access text book on EAC law which also provides a systemic comparison with the EU.*

Interpretation in International Law

Oxford University Press, USA *Interpretation in International Law is an innovative volume that foregrounds interpretation as central to the generation of legal meaning in international law. The book encourages international lawyers to reflect creatively on how they interpret international law, and to stimulate further research on interpretation in an innovative vein.*

International Law and Domestic Human Rights Litigation in Africa

PULP *"African civil law countries are traditionally described as monist and common law countries as dualist. This book illustrates that the monism-dualism dichotomy is too simplistic, in particular in the field of human rights. Academics and practitioners from across the continent illustrate how domestic courts in Africa have engaged with international human rights law to interpret or fill gaps in national bills of rights. The authors also consider the challenges encountered in increasing the use of international human rights law by African domestic courts."--Back cover.*

Emanuel CrunchTime for Professional Responsibility

Aspen Publishing *Emanuel CrunchTime provides the right information, in the right format, at the right time to prepare for exams. Based on the trusted Emanuel Law Outlines developed by a Harvard law student (while he was in law school), Emanuel CrunchTime skillfully employs flow charts so you can walk step-by-step through the major principles and topics in the course in a pattern that can*

be used to analyze any exam question. Abundant tips and ample review features help you approach the final with confidence. The Capsule Summary allows you to quickly review key concepts, and you can test your knowledge by working through the many Short-Answer Q&A s. CrunchTime lets you practice your essay exam skills as well. Exams Tips based on hundreds of past law school and bar exam questions recap the legal issues commonly tested. CrunchTime study aids structure the maximum amount of information you can learn in the last week before exams. Developed for students by a Harvard law student (while he was in law school), Emanuel CrunchTime titles provide the trusted guidance of Emanuel Law Outlines in a tighter, briefer format for quick review at exam time. Flow Charts walk you through a series of yes/no questions that can be used to analyze any question on the exam. The Capsule Summary allows you to quickly review key concepts. You can test your knowledge by working through the ample Short-Answer Q&A s, which are organized by topic. Exams Tips often based on hundreds of past law school and bar exam questions recap the legal issues commonly tested on exams for you. They explore fact patterns typically used to test those issues. CrunchTime allows you to practice your essay exam skills by answering questions asked on past exams. Flowcharts help you craft compelling essays, and you can compare your answers to the samples provided. CrunchTime aids structure the maximum amount of information you can learn in the last week before exams. Uniform in writing style and approach, you can be confident that any title in the series is of consistent quality. Every title is frequently updated and reviewed against new developments and recent cases covered in the leading casebooks.

Exceptions and Defences in International Law

Oxford University Press, USA *Many international obligations are subject to exceptions. These can be expressed in several ways: an obligation may be vitiated by the presence of one of its constitutive negative requirements, an obligation may be set aside by the application of another more specific rule, or an actor might have a right to act in a certain way notwithstanding a contrary obligation. Exceptions are also of fundamental practical importance: for example, they affect the allocation of the burden of proof. This volume provides a systematic and analytic study of exceptions to legal obligations in international law and defences for breaches of these obligations. It features contributions written by legal philosophers, who introduce various theoretical approaches to the role of exceptions, and scholars of international law, who elaborate on generic issues applicable to exceptions in international law as well as examine specific issues arising from exceptions in their respective areas of expertise. Topics covered include the use of force, international criminal law, human rights, trade, investment, environment, and jurisdictional immunities.*

International Law

Norms, Actors, Process : a Problem-oriented Approach

Aspen Pub *International Law: Norms, Actors, Process: A Problem-Oriented Approach*, now in its Third Edition, uses an interdisciplinary approach and real-world problems to illustrate the law in action and encourage students to think more deeply about global

An Outline of Law and Procedure in Representation Cases

Fouchard, Gaillard, Goldman on International Commercial Arbitration

Kluwer Law International B.V. *Based on and includes revisions to : Traité de l'arbitrage commercial international / Ph. Fouchard, E. Gaillard, B. Goldman. 1996--Cf. foreword.*

Power in Global Governance

Cambridge University Press *This edited volume examines power in its different dimensions in global governance. Scholars tend to underestimate the importance of power in international relations because of a failure to see its multiple forms. To expand the conceptual aperture, this book presents and employs a taxonomy that alerts scholars to the different kinds of power that are present in world politics. A team of international scholars demonstrate how these different forms connect and intersect in global governance in a range of different issue areas. Bringing together a variety of theoretical perspectives, this volume invites scholars to reconsider their conceptualization of power in world politics and how such a move can enliven and enrich their understanding of global governance.*

Sociology of Europeanization

Walter de Gruyter GmbH & Co KG *Die Bände dieser von Rainer Schützeichel (Universität Bielefeld) herausgegebenen Reihe befassen sich interdisziplinär mit aktuellen gesellschaftlichen und wissenschaftlichen Problemlagen. Aufgrund ihres modularen*

Aufbaus eignen sie sich nicht nur als grundlegende und umfassende wissenschaftliche Einführungen, sondern auch als Lehrbücher in der universitären Lehre.

International Law and International Relations

Bridging Theory and Practice

Routledge *This unique volume examines the opportunities for, and initiates work in, interdisciplinary research between the fields of international law and international relations; disciplines that have engaged little with one another since the Second World War. Written by leading experts in the fields of international law and international relations, it argues that such interdisciplinary research is central to the creation of a knowledge base among IR scholars and lawyers for the effective analysis and governance of macro and micro phenomena. International law is at the heart of international relations, but due to challenges of codification and enforceability, its apparent impact has been predominantly limited to commercial and civil arrangements. International lawyers have been saying for years that 'law matters' in international affairs and now current events are proving them right. International Law and International Relations makes a powerful contribution to the theory and practice of global security by initiating a research agenda, building an empirical base and offering a multidisciplinary approach that provides concrete answers to real-world problems of governance. This book will be of great interest to all students of international law, international relations and governance.*

Legal and Ethical Aspects of International Business

Aspen Publishing *Effective managers must accurately assess the legal and ethical ramifications of complex business transactions. This requires familiarity with the basic principles of comparative and international law, including trade, and an understanding of the importance of culturally diverse ethical traditions in all business relationships. Legal and Ethical Aspects of International Business is your authoritative guide to the law and ethics of business leadership in the global market. It provides the vehicle for today's and tomorrow's managers to successfully navigate the legal and ethical environment of business around the world. New to the Second Edition: This new edition constitutes a substantial reorganization from the first edition. In particular, the text is now composed of four parts: Part One, Public International Law and Business Ethics Part Two, Global Contracting and Resolution of Private Disputes Part Three, Import and Export Law Part Four, Protecting Ideas, Individuals and Infrastructure The new edition also includes updated cases*

and new issues, including cybersecurity and sustainability. Professors and student will benefit from: Well-selected and well-edited cases in each chapter help foster discussions. Finely crafted end of chapter exercises support students' grasp of the more difficult concepts. Integrated ethics coverage appears throughout the book. Numerous examples provide context and real-world application of concepts. Rich graphics reinforce key models.

Commentary on the Law of the International Criminal Court

Torkel Opsahl Academic EPublisher

Contract Law

A Case and Problem Based Approach

Aspen Publishing *Contract Law: A Case & Problem-Based Approach* is a unique casebook that provides an organizational structure introducing students to each major area of contract law before exploring these areas in greater depth later in the casebook.

Specifically, the casebook is broken into three major parts, each of which is designed not only to orient the students to the major subject areas of contract law but also meant to help them appreciate the connections and relationships between and among these various subject areas. Part I, the "30,000-foot view," familiarizes students with contract law, discusses the sorts of problems with which contract law is concerned, and introduces them to some of the basic rules and theories governing contract law. Part II, the "10,000-foot view," exposes students to each major substantive area of contract law in more depth by discussing one classic case in each area, along with additional historical, theoretical, and contextual materials to supplement the black-letter doctrine. After finishing Parts I and II, the student will have a basic understanding of each major area of contract law, along with a good understanding of how these parts fit together. Part III is therefore designed to explore each of the major subject areas in greater depth, and is organized along the lines of a traditional contracts casebook, including a healthy mix of classic and modern cases, short problems, and exercises. New to the Second Edition: Additional materials and cases added to explore the contract doctrines of impossibility and impracticability in light of past and current epidemics (in the case of polio) and pandemics (in the case of COVID-19). Additional case

added to explore the relationship between Contract Law, Civil Rights, and Constitutional Law. Reorganization of some materials in Chapter 8 (defenses). More focused notes and appendices Professors and student will benefit from: Organization exposes students to main concepts, and gives professors a number of choices about how to teach their course. Helpful doctrinal introductions to each new major substantive section. Historical, theoretical, and comparative materials are presented to help students understand and think critically about the black-letter rules. "Thinking tools" feature that helps the student think critically about the law, along with theoretical, historical, doctrinal, contextual, and practice-oriented notes enrich the students' black-letter experience. Enjoyable, contextual materials that are included after a number of classic cases help to bring to light fascinating background information.

International Law

[Connected eBook with Study Center]

Aspen Publishing Buy a new version of this textbook and receive access to the Connected eBook with Study Center on CasebookConnect, including: lifetime access to the online ebook with highlight, annotation, and search capabilities; practice questions from your favorite study aids; an outline tool and other helpful resources. Connected eBooks provide what you need most to be successful in your law school classes. Learn more about Connected eBooks Intended for use in an International Law survey course, *International Law, Seventh Edition* provides comprehensive coverage of foundational international law questions, including the nature and sources of international law, core doctrinal topics such as the subjects of international law (states and international organizations), and the jurisdictional powers and immunities of states. The book also addresses key substantive topics in international law, with reference to important contemporary foreign policy issues, such as (i) international human rights, (ii) the law of the sea, (iii) international environmental law, (iv) the use of force and the law of armed conflict, and (v) international criminal law. Key Features: New co-author Duncan Hollis of Temple Law School joins Stanford Law School's Allen Weiner as the active authors of the book. New discussions of major international developments, including the law governing the use of force [e.g., cyber operations and the military campaign against the Islamic State (ISIS)], nonproliferation (e.g., the Iranian and North Korean nuclear crises), the law of the sea (e.g., disputed maritime claims in the South China Sea), and international environmental law (e.g., the conclusion of the Paris Agreement). New case study in Chapter 1 focused on the international response to the rise of ISIS. Inclusion of extended excerpts from a number of major recent Supreme Court decisions related to international law, including *Bond v. United States* (on fundamental principles of federalism and the treaty power under Article VI of the Constitution), *Zivotofsky v. Kerry* (on the separation of powers between

Congress and the President in the field of foreign affairs), and Kiobel v. Royal Dutch Petroleum Co. (on the Alien Tort Statute). Adopts a modern, conceptual approach to the presentation of materials on statehood (including Palestinian claims to statehood), international organizations, and international dispute resolution.

Reinventing American Health Care

How the Affordable Care Act will Improve our Terribly Complex, Blatantly Unjust, Outrageously Expensive, Grossly Inefficient, Error Prone System

Hachette UK *The definitive story of American health care today -- its causes, consequences, and confusions. In March 2010, the Affordable Care Act was signed into law. It was the most extensive reform of America's health care system since at least the creation of Medicare in 1965, and maybe ever. The ACA was controversial and highly political, and the law faced legal challenges reaching all the way to the Supreme Court; it even precipitated a government shutdown. It was a signature piece of legislation for President Obama's first term, and also a ball and chain for his second. Ezekiel J. Emanuel, a professor of medical ethics and health policy at the University of Pennsylvania who also served as a special adviser to the White House on health care reform, has written a brilliant diagnostic explanation of why health care in America has become such a divisive social issue, how money and medicine have their own -- quite distinct -- American story, and why reform has bedeviled presidents of the left and right for more than one hundred years. Emanuel also explains exactly how the ACA reforms are reshaping the health care system now. He forecasts the future, identifying six mega trends in health that will determine the market for health care to 2020 and beyond. His predictions are bold, provocative, and uniquely well-informed. Health care -- one of America's largest employment sectors, with an economy the size of the GDP of France -- has never had a more comprehensive or authoritative interpreter.*

Oxford Textbook of Palliative Medicine

Oxford University Press, USA *The definitive Oxford Textbook of Palliative Medicine, now in its fifth edition, has again been thoroughly updated to offer a truly global perspective in this field of extraordinary talent and thoughtfulness. Updated to include new sections devoted to assessment tools, care of patients with cancer, and the management of issues in the very young and the very old, this leading textbook covers all the new and emerging topics since its original publication in 1993. In addition, the multi-disciplinary nature of palliative care is emphasized throughout the book, covering areas from ethical and communication issues, the treatment of symptoms and the management of pain. The printed book is complemented with 12 months free access to the online version, which includes expanded chapter information and links from the references to primary research journal articles, ensuring this edition continues to be at the forefront of palliative medicine. This fifth edition of the Oxford Textbook of Palliative Medicine is dedicated to the memory of Professor Geoffrey Hanks, pioneer in the field of palliative medicine, and co-editor of the previous four editions. A truly comprehensive text, no hospital, hospice, palliative care service, or medical library should be without this essential source of information.*

Lying and Deception

Theory and Practice

OUP Oxford *Thomas Carson offers the most comprehensive and up-to-date investigation of moral and conceptual questions about lying and deception. Part I addresses conceptual questions and offers definitions of lying, deception, and related concepts such as withholding information, "keeping someone in the dark," and "half truths." Part II deals with questions in ethical theory. Carson argues that standard debates about lying and deception between act-utilitarians and their critics are inconclusive because they rest on appeals to disputed moral intuitions. He defends a version of the golden rule and a theory of moral reasoning. His theory implies that there is a moral presumption against lying and deception that causes harm — a presumption at least as strong as that endorsed by act-utilitarianism. He uses this theory to justify his claims about the issues he addresses in Part III: deception and withholding information in sales, deception in advertising, bluffing in negotiations, the duties of professionals to inform clients, lying and deception by leaders as a pretext for fighting wars, and lying and deception about history (with special attention to the Holocaust), and cases of*

distorting the historical record by telling half-truths. The book concludes with a qualified defence of the view that honesty is a virtue.

Notes Toward a Performative Theory of Assembly

Harvard University Press *Judith Butler elucidates the dynamics of public assembly under prevailing economic and political conditions. Understanding assemblies as plural forms of performative action, she extends her theory of performativity to show why precarity—destruction of the conditions of livability—is a galvanizing force and theme in today's highly visible protests.*

The Law of Nations

Or, Principles of the Law of Nature Applied to the
Conduct and Affairs of Nations and Sovereigns, With
Additional Notes and References

The Trillion Dollar Revolution

How the Affordable Care Act Transformed Politics, Law,
and Health Care in America

Hachette UK *Ten years after the landmark legislation, Ezekiel Emanuel leads a crowd of experts, policy-makers, doctors, and scholars as they evaluate the Affordable Care Act's history so far. In March 2010, the Affordable Care Act officially became one of the seminal laws determining American health care. From day one, the law was challenged in court, making it to the Supreme Court four separate times. It transformed the way a three-trillion-dollar sector of the economy behaved and brought insurance to millions of*

people. It spawned the Tea Party, further polarized American politics, and affected the electoral fortunes of both parties. Ten years after the bill's passage, a constellation of experts--insiders and academics for and against the ACA--describe the momentousness of the legislation. Encompassing Democrats and Republicans, along with legal, financial, and health policy experts, the essays here offer a fascinating and revealing insight into the political fight of a generation, its consequences for health care, politics, law, the economy--and the future.

Environmental Law

Wolters Kluwer *The most trusted name in law school outlines, Emanuel Law Outlines support your class preparation, provide reference for your outline creation, and supply a comprehensive breakdown of topic matter for your entire study process. Created by Steven Emanuel, these course outlines have been relied on by generations of law students. Each title includes both capsule and detailed versions of the critical issues and key topics you must know to master the course. Also included are exam questions with model answers, an alpha-list of cases, and a cross reference table of cases for all of the leading casebooks. Emanuel Law Outline Features: & 1 outline choice among law students Comprehensive review of all major topics Capsule summary of all topics Cross-reference table of cases Time-saving format Great for exam prep*

Transnational Law and Practice

Aspen Publishing *Transnational Law and Practice emphasizes the knowledge and skills that students need to solve the real-world transnational legal problems they are likely to encounter as lawyers in today's globalized world—regardless of their field of practice and regardless of whether they are interested in international law as such. The casebook covers public international law and international courts; but unlike traditional international law casebooks, it urges students not to be “international law-centric” or “international court-centric” and gives them the resources to learn how to use national law and national courts, and private norms and alternative dispute resolution methods, to solve transnational legal problems on behalf of their clients. New to the Second Edition: Substantially re-written chapter on recognition and enforcement of foreign judgments to reflect recent important developments Excerpts from and discussion of new Supreme Court decisions on extraterritoriality, personal jurisdiction, the Alien Tort Statute and Foreign Sovereign Immunity Excerpts from the new Restatement (Fourth) of the Foreign Relations Law of the United States and the draft Restatement of the U.S. Law of International Commercial and Investor-State Arbitration Professors and students will benefit from: A practice-oriented approach that focuses on the knowledge and skills students need to solve real-world transnational legal problems*

on behalf of their clients. Comparative perspectives throughout. A team of authors with a wide range of expertise and experience in transnational litigation, arbitration, international law, constitutional law and transnational business transactions. An excellent alternative to classic public international law texts for introductory or first-year courses on international or transnational law. Multiple uses: With advanced material on transnational practice in U.S. courts, also ideal for upper-division courses on international civil litigation. Practical materials not traditionally included in public international law casebooks, such as materials on transnational commercial arbitration and conflict of laws. Extensive explanatory text to facilitate student learning and notes and questions that emphasize real-world lawyering, not just theory and doctrine. Review questions at the end of each chapter to help students synthesize, logically structure, and flowchart complex material.

International Law and Peace Settlements

Cambridge University Press *International Law and Peace Settlements* provides a systematic and comprehensive assessment of the relationship between international law and peace settlement practice across core settlement issues, e.g. transitional justice, human rights, refugees, self-determination, power-sharing, and wealth-sharing. The contributions address key cross-cutting questions on the legal status of peace agreements, the potential for developing international law, and the role of key actors – such as non-state armed groups, third-state witnesses and guarantors, and the UN Security Council – in the legalisation and internationalisation of settlement commitments. In recent years, significant scholarly work has examined facets of the relationship between international law and peace settlements, through concepts such as *jus post bellum* and *lex pacificatoria*. *International Law and Peace Settlements* drives forward the debate on the legalisation and internationalisation of peace agreements with diverse contributions from leading academics and practitioners in international law and conflict resolution.

The ABC of European Union Law

Office for Official Publications of the European Communities *Recoge: 1. From Paris to Lisbon, via Rome, Maastricht, Amsterdam and Nice. 2. Fundamental values of The European Union. 3. The "Constitution" of The European Union. 4. The legal order of The EU. 5. The position of Union law in relation to the legal order as a whole.*

Private International Law in the English Courts

Oxford University Press, USA *This book offers a restatement of European and English Private International Law as it applies in the English courts. Offering a new alternative to the traditionally approach of describing private international law as built on common law foundations, the author places European Regulations, and related statutory material, at the front and centre of the book, reorganising private international law according to the principles that the law is increasingly European and decreasingly insular. The book provides a fresh start to the discipline for practitioners, with an approach to authority which is intended to be sufficient as well as manageable.*
