Crap CVs

Penguin UK Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.

Biomedical Engineering Principles in Sports

Springer Science & Business Media Biomedical Engineering Principles in Sports contains in-depth discussions on the fundamental biomechanical and physiological principles underlying the acts of throwing, shooting, hitting, kicking, and tackling in sports, as well as vision training, sports injury, and rehabilitation. The topics include: -Golf ball aerodynamics and golf club design, -Golf swing and putting biomechanics, -Tennis ball aerodynamics and ball- and shoe-surface interactions, -Tennis stroke mechanics and optimizing ball-racket interactions, -Baseball pitching biomechanics and perceptual illusions of batters, -Football forward pass aerodynamics and tackling biomechanics, -Soccer biomechanics, -Basketball aerodynamics and biomechanics, -Vision training in sports, -Children maturation and performance, -Rehabilitation and medical advances in treatment of sports injuries. This book is essential reading for biomedical engineers, physicists, sport scientists, and physiologists who wish to update their knowledge of biomechanical and biomedical principles and their applications to sports. The book can be used in a one-semester Senior or Graduate-level course in Biomechanics, Biomedical

Engineering, Sports Technology, Sports Medicine, or Exercise Physiology. In addition, it will be of value to interested athletic laypersons who enjoy watching or participating in sports such as golf, tennis, softball, football, soccer, and basketball.

With more than 1,900 photos and detailed data on every tractor, truck, hay rake and hemp machine built in the company's history, 150 Years of International Harvester is the ultimate resource for these great farm machines.

Practical Greenkeeping

Royal and Ancient Golf Club of St Andrews The first edition of "Practical Greenkeeping" was produced in 1997 to fill a huge void in practical knowledge in a format that could be easily understood at all levels. Jim Arthur's experience, advising more than 550 golf clubs in Britain and Europe and acting as consultant agronomist to the Championship Committee of the R&A, made him the ideal man for the job. His no-nonsense, down-to-earth approach conveys his message loudly and clearly. Golf courses can flourish by following traditional methods that are the most simple and most effective, both in terms of condition and cost. This second edition contains a large amount of new material in the form of appendices to chapters, bringing the debate right up to the minute in terms of new regulations on pesticides and fertilisers and restrictions on the use of water. Now, more than ever, the sound traditional advice in "Practical Greenkeeping" is vital to all those involved in the preparation of golf courses. New generations of student and trainee greenkeepers will find the content of this book invaluable and it will also stimulate much debate and provide encouragement for experienced course managers.

The UK Pesticide Guide 2017

The UK Pesticide Guide 2017 has 7 new active ingredient profiles. Two are confirmed as available in 2017 while 5 are currently only listed as Products also Registered (PARs). The two available are: - cyantraniliprole for insect control in headed brassicas - halauxifen-methyl +/- fluroxypyr for broad-leaved weed control in cereals. The five awaiting confirmation are: - buprofezin for insect control in protected Solonaceae - penhoxamid for weed control in grain maize and winter oilseed rape - Pepino Mosaic Virus for suppression of viral diseases in protected tomatoes - Pythium oligandrun M1 for disease control in spring barley, wheat and oilseed rape - Tembotrione for weed control in maize and sweetcorn. In addition, hazard precautions have been upgraded and the roll out of extended buffer zones, for some products, continues with many products re-approved under new MAPP numbers. There are also: - 7 new herbicide profiles - 4 in the main section and 3 as PARs - 8 new fungicide profiles - 6 in the main section and 2 as PARs - 1 new plant growth regulator (PGR) combination and 1 new molluscicide. In the main section of the Guide 8 herbicide profiles (tepraloxym approval expires 30/11/2016), 17 fungicides (including prochloraz), 4 insecticides and 1 PGR are no longer included.

Messiah

Writer's Showcase Press The terror began one autumn night when Jack Railey's young daughter Sarah, did not return home. Was it kidnapping, brainwashing, or worse? Suddenly Jack is caught up in a harrowing scenario of betrayal, terror, and death, when he learns she has joined a cult. Their leader, Kahir, is a man some call kind, others call evil-some say he protects children, others say he destroys them. Jack is asked to join a small band of parents led by a man named Anthony Bane-their aim, to regain their children from the clutches of this Messiah. Agreeing to meet with these strangers for his wife's sake and his own curiosity, Jack soon finds that they had their own secrets-secrets that lead to dangerous consequences. After seeing things thought impossible, Jack finally understands that Kahir possesses powers of dangerous proportion and deadly force. Anyone opposing him would meet a grim fate-a fate pulled from their deepest fears. If Jack Railey wants his daughter back, he'll have to fight a battle unlike any other he has ever fought before. To win he must release his own power-he must face his dark side-he must learn the secrets of the Messiah.

Tractors of the World

Over 220 of the World's Greatest Tractors

Tractors of the World is a comprehensive guide to more than 220 of the best-known tractors produced throughout the world over the last 120 years. It is illustrated with more than 400 color and black-and-white photographs and artwork; cutaway illustrations; and comprehensive specifications give technical and engineering information.

Great Tractors

Relates the history of the tractor and shows the changes in design that have resulted in the diesel-powered giants of today.

The UK Pesticide Guide 2020

By far the biggest change to The UK Pesticide Guide in 2020 is the loss of a number of active ingredients that have been fundamental to many crop protection programmes. The final use-up of chlorothalonil formulations; propiconazole, fenpropimorph, chloridazon and diquat occurs in 2020 but there are also a few exciting new additions. Aclonifen is a new residual herbicide for use in potatoes that already has a number of EAMUs for use in minor crops. BASF is launching its new triazole, mefentrifluconazole, which promises to restore full triazole activity, at least initially. On the insecticide front the new active ingredient from Corteva agriscience, sulfoxaflor, is now listed for use in Cucurbitae and ornamentals under full protection for control of aphids and whitefly.

Planters and Their Components

Types, Attributes, Functional Requirements, Classification and Description

"A major constraint to adoption of improved resource-conserving cropping systems in developing countries is the lack of simple planting equipment. This manual provides a valuable reference for research and extension personnel engaged in the selection, adaptation and/or construction of complete planters appropriate to specific soil, crop, climate and residue conditions"--ACIAR website.
