Manual of Tests and Criteria The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".

Chick Lit and Postfeminism University of Virginia Press Originally a euphemism for Princeton University's Female Literary Tradition course in the 1980s, "chick lit" mutated from a movement in American women's avant-garde fiction in the 1990s to become, by the turn of the century, a humorous subset of women's literature, journalism, and advice manuals. Stephanie Harzewski examines such best sellers as Bridget Jones's Diary The Devil Wears Prada, and Sex and the City as urban appropriations of and departures from the narrative traditions of the novel of manners, the popular romance, and the bildungsroman. Further, Harzewski uses chick lit as a lens through which to view gender relations in U.S. and British society in the 1990s. Chick Lit and Postfeminism is the first sustained historicization of this major pop-cultural phenomenon, and Harzewski successfully demonstrates how chick lit and the critical study of it yield social observations on upheavals in Anglo-American marriage and education patterns, heterosexual rituals, feminism, and postmodern values.
