182 pages with 53 total maps Locating original landowners in maps has never been an easy task-until now. This volume in the Family Maps series contains newly created maps of original landowners (patent maps) in what is now Garfield County, Nebraska, gleaned from the indexes of the U.S. Bureau of Land Management. But it offers much more than that. For each township in the county, there are two additional maps accompanying the patent map: a road map and a map showing waterways, railroads, and both modern and many historical city-centers and cemeteries. Included are indexes to help you locate what you are looking for, whether you know a person's name, a last name, a place-name, or a cemetery. The combination of maps and indexes are designed to aid researchers of American history or genealogy to explore frontier neighborhoods, examine family migrations, locate hard-to-find cemeteries and towns, as well as locate land based on legal descriptions found in old documents or deeds. The patent-maps are essentially plat maps but instead of depicting owners for a particular year, these maps show original landowners, no matter when the transfer from the federal government was completed. Dates of patents typically begin near the time of statehood and run into the early 1900s. What's Mapped in this book (that you'll not likely find elsewhere) . . . 1728 Parcels of Land (with original landowner names and patent-dates labeled in the relevant map) 5 Cemeteries plus . . . Roads, and existing Rivers, Creeks, Streams, Railroads, and Small-towns (including some historical), etc. What YEARS are these maps for? Here are the counts for parcels of land mapped, by the decade in which the corresponding land patents were issued: DecadeParcel-count 1900s90 1910s1625 1920s13 What Cities and Towns are in Garfield County, Nebraska (and in this book)? THE NEBRASKA SAND HILLS

THE HUMAN LANDSCAPE

U of Nebraska Press Charles Barron McIntosh has devoted a lifetime of scholarship to the history of human activity on Nebraska's Sand Hills, the spare, beautiful land that occupies much of western Nebraska. From carefully deciphering Native American occupancy through rigorous analysis of thousands of arrowheads, to patiently combing through decades of courthouse land title transaction records, McIntosh has mastered the sweep of centuries of human interaction with the land. We learn how the land shapes humankind, far more than pride would have us believe, and we see that perhaps our real success lies in learning how to live with the land, rather than attempting to master it. The Nebraska Sand Hills reflects McIntosh's lifetime of learning, reading, questioning, analyzing—in short, everything it means to be a scholar; seldom are these efforts so well demonstrated. His affection for this unique landscape is present on every page.

THE GENEALOGIST'S ADDRESS BOOK

STATE AND LOCAL RESOURCES : WITH SPECIAL RESOURCES INCLUDING ETHNIC AND RELIGIOUS ORGANIZATIONS

Genealogical Publishing Com "The Genealogist's Address Book is the answer to the perennial question, 'What's out there in the world of genealogy?' What organizations, institutions, special resources, and websites can help me? Where do I write or phone or send e-

mail? Once again, Elizabeth Bentley's Address Book answers these questions and more. Now in its 6th edition, The Genealogist's Address Book gives you access to all the key sources of genealogical information, providing names, addresses, phone numbers, fax numbers, e-mail addresses, websites, names of contact persons, and other pertinent information for more than 27,000 organizations, including libraries, archives, societies, government agencies, vital records offices, professional bodies, publications, research centers, and special interest groups. Based on a written survey of thousands of organizations and institutions across the country, and supplemented by information from printed and Internet sources, the new 6th edition of the Address Book has been extensively revised and updated, eliminating undeliverable addresses and defunct organizations, while adding thousands of additional sources. Besides new websites and e-mail addresses, the new edition features greatly expanded coverage of archival agencies and vital records offices, especially in the New England states and New York. In addition, it is now easier to use than ever, with all 27,000 entries divided into two easy-to-use sections."--Page 4 of cover.
