THE RIPPERÔS VICTIMS IN PRINT

THE RHETORIC OF PORTRAYALS SINCE 1929

McFarland **Mary Ann Nichols, Annie Chapman, Elizabeth Stride, Katherine Eddowes and Mary Jane Kelly--the five known victims of Jack the Ripper--are among the most written-about women in history. Hundreds of books on the Ripper murders describe their deaths in detail. Yet they themselves remain as mysterious as their murderer. This first ever study of the victims surveys the Ripper literature to reveal what is known about their lives, how society viewed them at the time of their deaths, and how attitudes and perceptions of them have (or have not) changed since the Victorian era.**

THE VICTIM AS HERO

IDEOLOGIES OF PEACE AND NATIONAL IDENTITY IN POSTWAR JAPAN

University of Hawaii Press **This is the first systematic, historical inquiry into the emergence of "victim consciousness" (higaisha ishiki) as an essential component of Japanese pacifist national identity after World War II. In his meticulously crafted narrative and analysis, the author reveals how postwar Japanese elites and American occupying authorities collaborated to structure the parameters of remembrance of the war, including the notion that the emperor and his people had been betrayed and duped by militarists. He goes on to explain the Japanese reliance on victim consciousness through a discussion of the ban-the-bomb movement of the mid-1950s, which raised the prominence of Hiroshima as an archetype of war victimhood and brought about the selective focus on Japanese war victimhood; the political strategies of three self-defined war victim groups (A-bomb victims, repatriates, and dispossessed landlords) to gain state compensation and hence valorization of their war victim experiences; shifting textbook narratives that reflected contemporary attitudes and structured future generations' understanding of the war; and three classic antiwar novels and films that contributed to the shaping of a "sentimental humanism" that continues to leave a strong imprint on the collective Japanese conscience.**

THEOLOGICAL DICTIONARY OF THE OLD TESTAMENT, VOLUME XI

Wm. B. Eerdmans Publishing **This multivolume work is still proving to be as fundamental to Old Testament studies as its companion set, the Kittel-Friedrich Theological Dictionary of the New Testament, has been to New Testament studies. Beginning with father, and continuing through the alphabet, the TDOT volumes present in-depth discussions of the key Hebrew and Aramaic words in the Old Testament. Leading scholars of various religious traditions (including Roman Catholic, Lutheran, Reformed, Anglican, Greek Orthodox, and Jewish) and from many parts of the world (Denmark, France, Germany, Great Britain, Greece, Israel, Italy, the Netherlands, Norway, Sweden, Switzerland, and the United States) have been carefully selected for each article by editors Botterweck, Ringgren, and Fabry and their consultants, George W. Anderson, Henri Cazelles, David Noel Freedman, Shemaryahu Talmon, and Gerhard Wallis. The intention of the writers is to concentrate on meaning, starting from the more general, everyday senses and building to an understanding of theologically significant concepts. To avoid artificially restricting the focus of the articles, TDOT considers under each keyword the larger groups of words that are related linguistically or semantically. The lexical work includes detailed surveys of a word s occurrences, not only in biblical material but also in other ancient Near Eastern writings. Sumerian, Akkadian, Egyptian, Ethiopic, Ugaritic, and Northwest Semitic sources are surveyed, among others, as well as the Qumran texts and the Septuagint; and in cultures where no cognate word exists, the authors often consider cognate ideas. TDOT s emphasis, though, is on Hebrew terminology and on biblical usage. The contributors employ philology as well as form-critical and traditio-historical methods, with the aim of understanding the religious statements in the Old Testament. Extensive bibliographical information adds to the value of this reference work. This English edition attempts to serve the needs of Old Testament students without the linguistic background of more advanced scholars; it does so, however, without sacrificing the needs of the latter. Ancient scripts (Hebrew, Greek, etc.) are regularly transliterated in a readable way, and meanings of foreign words are given in many cases where the meanings might be obvious to advanced scholars. Where the Hebrew text versification differs from that of English Bibles, the English verse appears in parentheses. Such features will help all earnest students of the Bible to avail themselves of the manifold theological insights contained in this monumental work.**

VICTIMOLOGY AND VICTIM RIGHTS

INTERNATIONAL COMPARATIVE PERSPECTIVES

Taylor & Francis **This book examines the international, regional and domestic human rights frameworks that establish victim rights as a central force in law and policy in the twenty-first century. Accessing substantial source material that sets out a normative framework of victim rights, this work argues that despite degrees of convergence, victim rights are interpreted on the domestic level, in accordance with the localised interests of victims and individual states. The transition of the victim from peripheral to central stakeholder of justice is demonstrated across various adversarial, inquisitorial and hybrid systems in an international context. Examining the standing of victims globally, this book provides a comparative analysis of the role of the victim in the International Criminal Court, the ad hoc tribunals leading to the development of the International Criminal Tribunal for the former Yugoslavia and the International Criminal Tribunal for Rwanda, together with the Extraordinary Chambers of the Courts of Cambodia, Special Panels of East Timor (Timor Leste), and the Internationalised Panels in Kosovo. The instruments of the European Parliament and Council of Europe, with the rulings of the European Court of Justice, and the European Court of Human Rights, interpreting the European Convention of Human Rights, are examined. These instruments are further contextualised on the local, domestic level of the inquisitorial systems of Germany and France, and mixed systems of Sweden, Austria and the Netherlands, together with common law systems including, England and Wales, Ireland, Scotland, USA, Australia, Canada, New Zealand, India, South Africa, and the hybrid systems of Japan and Brazil. This book organises the authoritative instruments while advancing debate over the positioning of the victim in law and policy, as influenced by global trends in criminal justice, and will be of great interest to scholars of international law, criminal law, victimology and socio-legal studies.**

TRAFFICKING IN PERSONS REPORT 2017

[Government Printing Office](#) The 2017 Trafficking in Persons Report highlights the successes achieved and the remaining challenges before us on this important issue. The primary focus is to showcase the responsibility of governments to criminalize human trafficking and hold offenders accountable. This year's report theme is increasing criminal accountability of human traffickers and addressing challenges in prosecution - an essential component of 3P- paradigm of prosecution, protection, and prevention. It provides an overview of the type of human trafficking offenses that are taking place around the world in violation of human rights. The text includes side bars of situational human trafficking experiences to allow the reader to understand the different types that occur throughout the world. High school students and above may find this report helpful for research and writing essays about human rights and law enforcement of human trafficking. American citizens, policy analysts and decision-makers, law enforcement personnel, and human rights policy activists and advocates and world leaders may refer to this report as a reference on these crimes. MINISTRY OF JUSTICE - CODE OF PRACTICE FOR VICTIMS OF CRIME

[The Stationery Office](#) This Code of Practice for Victims of Crime forms a key part of the wider Government strategy to transform the criminal justice system by putting victims first, making the system more responsive and easier to navigate. Victims of crime should be treated in a respectful, sensitive and professional manner without discrimination of any kind. They should receive appropriate support to help them, as far as possible, to cope and recover and be protected from re-victimisation. It is important that victims of crime know what information and support is available to them from reporting a crime onwards and who to request help from if they are not getting it. This Code sets out the services to be provided to victims of criminal conduct by criminal justice organisations in England and Wales. Criminal conduct is behaviour constituting a criminal offence under the National Crime Recording Standard. Service providers may provide support and services in line with this Code on a discretionary basis if the offence does not fall under the National Crime Recording Standard (NCRS) (see the glossary of key terms found at the end of this Code). Non-NCRS offences include drink driving and careless driving. This Code also sets a minimum standard for these services. Criminal justice organisations can choose to offer additional services and victims can choose to receive services tailored to their individual needs that fall below the minimum stand

THE VEDIC EXPERIENCE

MANTRAMAÑJARĪ : AN ANTHOLOGY OF THE VEDAS FOR MODERN MAN AND CONTEMPORARY CELEBRATION

[Motilal Banarsidass Publ.](#) One of the most stupendous manifestations of the Spirit is undoubtedly that which has been handed down to us under the generic name of the Vedas. The Vedas are still too much neglected not only in the world at large but also in their country of origin. This Vedic anthology will make direct and fruitful knowledge of the Vedas available to a wider range of people than the small elite of pandits and Indologists. This anthology collects the most crucial texts of the Indian Sacred Scriptures--in all more than 500-- newly translated into contemporary English. Dr. Panikkar's principle has been to select and place together texts so as to offer a selection of texts that cover the full range of `The Vedic Experience` and at the same time to show how they manifest the universal rhythms of nature, history, and Man. Excerpts are taken from the oldest hymns, such as the Rig Veda; from the Brahmanas, the Aranyakas, or Forest Treatises, and finally the Upanishads, which represent the mystical and philosophical culmination of the Vedas. This is a book for meditation, for reading, public and private, as well as for thorough study at this wellspring of human wisdom. It should, moreover, facilitate that meeting of East and West so long desired and delayed, and now so imperative.

THE MYTHOLOGY OF CRIME AND CRIMINAL JUSTICE

FIFTH EDITION

[Waveland Press](#) The social construction of crime is often out of proportion to the threat posed. The media and advocacy groups shine a spotlight on some crimes and ignore others. Street crime is highlighted as putting everyone at risk of victimization, while the greater social harms from corporate malfeasance receive far less attention. Social arrangements dictate what is defined as crime and the punishments for those who engage in the proscribed behavior. Interest groups promote their agendas by appealing to public fears. Justifications often have no basis in fact, but the public accepts the exaggerations and blames the targeted offenders. The net-widening effect of more laws and more punishment catches those least able to defend themselves. This innovative alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice. Fourteen chapters challenge misconceptions about specific crimes or aspects of the criminal justice system. Kappeler and Potter dissect popular images of crimes and criminals in a cogent, compelling, and engaging manner. They trace the social construction of each issue and identify the misleading statistics and fears that form the basis of myths--and the collateral damage of basing policies on mythical beliefs. The authors encourage skepticism about commonly accepted beliefs, offer readers a fresh perspective, and urge them to analyze important issues from novel vantage points.

THE STANDING OF VICTIMS IN THE PROCEDURAL DESIGN OF THE INTERNATIONAL CRIMINAL COURT

[Martinus Nijhoff Publishers](#) This book canvasses the autonomous position of victims before the International Criminal Court. It seeks to provide an objective and balanced perspective, and neither rejects the idea of victims' participation or seeks to extend it beyond the contours determined by the founders of the ICC.

DIMENSIONS OF FORENSIC LINGUISTICS

[John Benjamins Publishing](#) This volume functions as a guide to the multidisciplinary nature of Forensic Linguistics understood in its broadest sense as the interface between language and the law. It seeks to address the links in this relatively young field between theory, method and data, without neglecting the need for new research questions in the field. Perhaps the most striking feature of this collection is its range, strikingly illustrating the multi-dimensionality of Forensic Linguistics. All of the contributions share a preoccupation with the painstaking linguistic work involved, using and interpreting data in a restrained and reasoned way.

THE EMPTINESS OF THE IMAGE

PSYCHOANALYSIS AND SEXUAL DIFFERENCES

[Routledge](#) There has long been a politics around the way in which women are represented, with objection not so much to specific images as to a regime of looking which places the represented woman in a particular relationship to the spectator's gaze. Artists have sometimes avoided the representation of women altogether, but they are now producing images which challenge the regime. How do these images succeed in their challenge? The Emptiness of the Image offers a psychoanalytic answer. Parveen Adams argues that, despite flaws in some of the details of its arguments, psychoanalytic theory retains an overwhelming explanatory strength in relation to questions of sexual difference and representation. She goes on to show how the issue of desire changes the way we can think of images and their effects. Throughout she discusses the work of theorists, artists and filmmakers such as Helene Deutsch, Catherine MacKinnon, Mary Kelly, Francis Bacon, Michael Powell and Della Grace. The Emptiness of the Image shows how the very space of

representation can change to provide a new way of thinking the relation between the text and the spectator. It shows how psychoanalytic theory is supple enough to slide into and transform the most unexpected situations.

ANATOMY AND ANATOMISTS IN EARLY MODERN SPAIN

Routledge Taking the Vesalian anatomical revolution as its point of departure, this volume charts the apparent rise and fall of anatomy studies within universities in sixteenth-century Spain, focussing particularly on primary sources from 1550 to 1600. In doing so, it both clarifies the Spanish contribution to the field of anatomy and disentangles the distorted political and historiographical viewpoints emerging from previous research. Studies of early modern Iberian science have only been carried out coherently and collaboratively in the last few decades, even though fierce debates on the subject have dominated Spanish historiography for more than two centuries. In the field of anatomy studies, many uninformed and biased readings of archival sources have resulted in a very confused picture of the practice of dissection and the teaching of anatomy in the Iberian Peninsula, in which the highly complex conditions of anatomical research within Spain's national context are often oversimplified. The new empirical evidence that this book brings to light suggests a far more multifaceted narrative of Iberian Renaissance anatomy than has been presented to date.

VICTIM AND VICTIMIZER

JOSEPH'S INTERPRETATION OF HIS DESTINY

A&C Black This book attempts an interesting exercise in character analysis. It scrutinizes the speeches of Joseph in such a way as to expose the problematic nature of his claims to know God's intentions. While Judah is forced by Joseph's test to choose slavery for the sake of his father's survival, the ironic reversal of Judah's role from victimizer to victim is undercut by the rationale by which he had Joseph sold in order to save him. Unwittingly, Joseph mistakes this rationale as a divine principle that undergirds his suffering and he dreams of domination for the same purpose of survival. He is unaware of Judah's real predicament and this double blindness calls into doubt the coalescence of perspectives of Joseph and the narrator.

RELIGIOUS OTHERING

GLOBAL DIMENSIONS

Taylor & Francis Perhaps the most disturbing feature of globalization is the emergence of a new tribalism, an attitude expressed in the common phrase, "thank God we're not like them." Religious Othering: Global Dimensions explores this political and religious phenomenon. Why are these new xenophobic movements erupting around the world at this moment in history, and what are the features of religious identity that seem to appeal to them? How do we make sense of the strident forms of religious exclusion that have been a part of the past and re-emerged around the world in recent years? This book brings together research scholars from different fields who have had to answer these questions in their own ground-breaking research on religious-othering movements. Written in an engaging, personal style, these essays share these scholars' attempts to get inside the worldviews of these neo-nationalists through such research approaches as participant observation, empathetic interviews, and close textual reading. Religious Othering: Global Dimensions is of interest to students and scholars in religious studies and the social sciences. In addition, anyone concerned about the rise of religious extremism in the contemporary world will be fascinated with these journeys into the mindsets of dogmatic and sometimes violent religious groups.

ECUMENICAL PERSPECTIVES FIVE HUNDRED YEARS AFTER LUTHER'S REFORMATION

[Springer Nature](#) This book offers ecumenical essays that focus on Reformation Christianity and on current Lutheran-Catholic understandings and relationships. FIVE WOMEN

SARAH, HAGAR, REBEKAH, RACHEL, LEAH

[Wipf and Stock Publishers](#) Sarah, Hagar, Rebekah, Rachel, and Leah are women often condemned to be only the shadow of their male opposite numbers. However, each one of them had a privileged role, often a decisive role, in the formation of the people of God. Their place was not only in the bosom of their family, but also at the heart of Israel's history. God chose them as full-time partners in the work of salvation. In this little book Christianne Meroz proposes to recount these women's lives of passion and rivalry, hopes and deceptions, faithfulness and freedom. Not a biblical commentary, this work is a sensitive and tender narrative that, with the sometimes surprising enlightenment provided by traditions of the Jewish and Islamic communities of faith, furnishes us with highly textured portraits of these women. It is a narrative in which we develop a quick sympathy for these free women whose names begin practically to dance in our hearts.

TRIAL FILMS ON TRIAL

LAW, JUSTICE, AND POPULAR CULTURE

[University Alabama Press](#) A collection of wide-ranging critical essays that examine how the judicial system is represented on screen. Historically, the emergence of the trial film genre coincided with the development of motion pictures. In fact, one of the very first feature-length films, *Falsely Accused!*, released in 1908, was a courtroom drama. Since then, this niche genre has produced such critically acclaimed films as *Twelve Angry Men*, *To Kill a Mockingbird*, and *Anatomy of a Murder*. The popularity and success of these films can be attributed to the fundamental similarities of filmic narratives and trial proceedings. Both seek to construct a "reality" through storytelling and representation and in so doing persuade the audience or jury to believe what they see. *Trial Films on Trial: Law, Justice, and Popular Culture* is the first book to focus exclusively on the special significance of trial films for both film and legal studies. The contributors to this volume offer a contemporary approach to the trial film genre. Despite the fact that the medium of film is one of the most pervasive means by which many citizens receive come to know the justice system, these trial films are rarely analyzed and critiqued. The chapters cover a variety of topics, such as how and why film audiences adopt the role of the jury, the narrative and visual conventions employed by directors, and the ways mid-to-late-twentieth-century trial films offered insights into the events of that period.
