The Impact of Plague in Tudor and Stuart England Tudor and Stuart Proclamations, 1485-1714 England and Wales Readers' Guide to Books on Tudor and Stuart Britain Scotland and Ireland The Great Rebuildings Of Tudor And Stuart England Revolutions In Architectural Taste Routledge *Rural England's Great Rebuilding of 1570-1640, first identified by W.G. Hoskins in 1953, has been vigorously debated ever since. Some critics have re-dated it on a regional basis. Still more have seen Great Rebuildings around every corner, causing them to dismiss Hoskins's thesis. In this first full-length study of the rebuilding phenomenon, Colin Platt, an accomplished architectural and social historian, addresses these issues and presents a persuasive fresh assessment of the legacy of this revolution in housing design. Although accepting Hoskins's definition of a first Great Rebuilding, starting with the 1570s and ending in the devastations of the Civil War, the author argues convincingly for a more influential "second" Great Rebuilding after peace had returned.;* *In examining architectural change both in the buildings themselves and through the writings of discerning contemporaries, today's family house, whether in town or country, is shown to owe almost nothing to the Middle Ages. Instead, its origins lie in the increasingly sophisticated world of the Tudor and Jacobean courts, in the refined taste of returned travellers, and in a growing popular demand for personal privacy, unobtainable in houses of medieval plan.;* *This fascinating and challenging study of changing tastes marks an important contribution to our understanding of Tudor and Stuart society and as such will not only be welcomed by students and historians of early modern England but by the interested general reader.* **A Bibliography of Royal Proclamations of the Tudor and Stuart Sovereigns and of Others Published Under Authority 1485-1714 Vol. I. England and Wales Representing Elizabeth in Stuart England Literature, History, Sovereignty Cambridge University Press** *Publisher Description The Impact of Plague in Tudor and Stuart England Taylor & Francis This book is a classic study of a disease which had a profound impact on the history of Tudor and Stuart England. Plague was both a personal affliction and a social calamity, regularly decimating urban populations. Slack vividly describes the stresses which plague imposed on individuals, families, and whole communities, and the ways in which people tried to explain, control, and come to terms with it.* **England, 1485-1642: Oxford Bibliographies Online Research Guide Oxford University Press** *This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related. This ebook is a static version of an article from Oxford Bibliographies Online: Renaissance and Reformation, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit www.oxfordbibliographies.com.* **Sleepless Souls Suicide in Early Modern England Oxford University Press on Demand** *Suicide was regarded as a heinous crime in Tudor and Stuart England; it was in practice de-criminalized, tolerated and even sentimentalized in Georgian England. The authors trace the causes of this dramatic change in attitude.* **Women in Early Modern England 1550-1700** *What was life like for women living in Tudor and Stuart England? This fascinating book provides a colourful and comprehensive account of the daily experiences of these women, taken from first-hand sources such as diaries, letters, and household accounts.* **Tudor and Stuart Proclamations 1485-1714: England and Wales John Dudley, Duke of Northumberland, 1504-1553 Oxford University Press** *This book reconstructs the personal and political life of John Dudley (1504-1553), Viscount Lisle, Earl of Warwick and Duke of Northumberland. For three and a half years (1549-1553) as Lord President of the Council, he was the leader of Edward VI's minority government. His involvement in the notorious attempt to frustrate Mary's succession to the throne in favour of his daughter-in-law, Jane Grey, contributed substantially to the evil reputation which clung to him both at the time and since. He is conventionally portrayed as an ambitious, unscrupulous man, who embraced and renounced the Reformation to suit his own purposes. The fact that his father was Henry VII's detested financial agent Edmund Dudley, and one of his sons the colourful Earl of Leicester, has helped to confirm his unprincipled image. Now his reputation is being reassessed, but historians have concentrated almost entirely on his years in power - the last four years of his life. Drawing upon new research, Professor Loades looks at John Dudley's whole career and by considering the lives of his father, Edmund, and his sons, places him in longer historical perspective. A new and important interpretation of the Tudor service nobility emerges in which John Dudley is seen not merely as an overmighty subject and kingmaker, but first and foremost as a servant of the English Crown.* **A Bibliography of Royal Proclamations of the Tudor and Stuart Sovereigns and of Others Published Under Authority, 1485-1714: England and Wales A Bibliography of Royal Proclamations of the Tudor and Stuart Sovereigns and of Others Published Under Authority, 1485-1714: England and Wales Lost Books and Printing in London, 1557-1640 An Analysis of the Stationer's Company Register BRILL** *In Lost Books and Printing in London, 1557-1640 Alexandra Hill uses modern digital approaches to bibliography to reveal and analyse the entries of lost books in the Stationers' Company Register.* **Women in Early Modern England, 1550-1720 Oxford University Press on Demand** *What was life like for ordinary women who lived in Tudor and Stuart England? This fascinating book provides a frank account of the daily experiences of these women, using first-hand sources such as letters, diaries, and household accounts.* **The English Roman Life A Glossary of Tudor and Stuart Words Especially from the Dramatists The Cambridge History of Early Modern English Literature Cambridge University Press** *This 2003 book is a full-scale history of early modern English literature, offering perspectives on English literature produced in Britain between the Reformation and the Restoration. While providing the general coverage and specific information expected of a major history, its twenty-six chapters address recent methodological and interpretive developments in English literary studies. The book has five sections: 'Modes and Means of Literary Production, Circulation, and Reception', 'The Tudor Era from the Reformation to Elizabeth I', 'The Era of Elizabeth and James VI', 'The Earlier Stuart Era', and 'The Civil War and Commonwealth Era'. While England is the principal focus, literary production in Scotland, Ireland and Wales is treated, as are other subjects less frequently examined in previous histories, including women's writings and the literature of the English Reformation and Revolution. This history is an essential resource for specialists and students.* **A Companion to English Renaissance Literature and Culture John Wiley & Sons** *This is a one volume, up-to-date collection of more than fifty wide-ranging essays which will inspire and guide students of the Renaissance and provide course leaders with a substantial and helpful frame of reference. Provides new perspectives on established texts. Orientates the new student, while providing advanced students with current and new directions. Pioneered by leading scholars. Occupies a unique niche in Renaissance studies. Illustrated with 12 single-page black and white prints.* **Constitutions & Canons Ecclesiastical, 1604 From Courtesy to Civility Changing Codes of Conduct in Early Modern England** *Anna Bryson explores the often entertaining evidence for Tudor and Stuart conceptions of 'good behaviour', investigating their ideas of bodily decency and decorum, table manners and polite conversation.* **A Bibliographical Catalogue of Italian Books Printed in England 1603-1642 Routledge** *A sequel to Tomita's A Bibliographical Catalogue of Italian Books Printed in England 1558-1603, this volume provides the data for the succeeding 40 years (during the reign of King James I and Charles I) and contributes to the study of Anglo-Italian relations in literature through entries on 187 Italian books (335 editions) printed in England. The Catalogue starts with the books published immediately after the death of Queen Elizabeth I on 24 March 1603, and ends in 1642 with the closing of English theatres. It also contains 45 Elizabethan books (75 editions), which did not feature in the previous volume. Formatted along the lines of Mary Augusta Scott's Elizabethan Translations from the Italian (1916), and adopting Philip Gaskell's scientific method of bibliographical description, this volume provides reliable and comprehensive information about books and their publication, viewed in a general perspective of Anglo-Italian transactions in Jacobean and part of Caroline England.* **Paper Bullets Print and Kingship under Charles II University Press of Kentucky** *The calculated use of media by those in power is a phenomenon dating back at least to the seventeenth century, as Harold Weber demonstrates in this illuminating study of the relation of print culture to kingship under England's Charles II. Seventeenth-century London witnessed an enormous expansion of the print trade, and with this expansion came a revolutionary change in the relation between political authority—especially the monarchy—and the printed word. Weber argues that Charles' reign was characterized by a particularly fluid relationship between print and power. The press helped bring about both the deconsecration of divine monarchy and the formation of a new public sphere, but these processes did not result in the progressive decay of royal authority. Charles fashioned his own semiotics of power out of the political transformations that had turned his world upside down. By linking diverse and unusual topics—the escape of Charles from Worcester, the royal ability to heal scrofula, the sexual escapades of the "merry monarch," and the trial and execution of Stephen College—Weber reveals the means by which Charles took advantage of a print industry instrumental to the creation of a new dispensation of power, one in which the state dominates the individual through the supplementary relationship between signs and violence. Weber's study brings into sharp relief the conflicts involving public authority and printed discourse, social hierarchy and print culture, and authorial identity and responsibility—conflicts that helped shape the modern state.* **Historical Dictionary of the Elizabethan World Britain, Ireland, Europe and America Routledge** *No period of British history generates such deep interest as the reign of Elizabeth I, from 1558 to 1603. The individuals and events of that era continue to be popular topics for contemporary literature and film, and Elizabethan drama, poetry, and music are studied and enjoyed everywhere by students, scholars, and the general public. The Historical Dictionary of the Elizabeth World provides clear definitions and descriptions of people, events, institutions, ideas, and terminology relating in some significant way to the Elizabethan period. The first dictionary of history to focus exclusively on the reign of Elizabeth I, the Dictionary is also the first to take a broad trans-Atlantic approach to the period by including relevant individuals and terms from Irish, Scottish, Welsh, American, and Western European history. Editors' Choice: Reference* **From Courtesy to Civility Changing Codes of Conduct in Early Modern England Oxford University Press on Demand** *What counted as good and bad manners in the sixteenth and seventeenth centuries? Anna Bryson explores what is often entertaining evidence for Tudor and Stuart ideas of bodily decency and decorum, table manners and polite conversation, and also shows the crucial importance of the values of courtesy and civility in an aristocratic society.* **Tudor and Stuart Proclamations 1485-1714: Scotland and Ireland English Spirituality From Earliest Times to 1700 Westminster John Knox Press** *This wide-ranging historical survey provides an indispensable resource for those interested in exploring, teaching, or studying English spirituality. In two stand-alone volumes, it traces history from Roman times until the year 2000. The main Christian traditions and a vast range of writers and spiritual themes, from Anglo-Saxon poems to late-modern feminist spirituality, are included. These volumes present the astonishing richness and variety of responses made by English Christians to the call of the divine during the past two thousand years.* **Four and Twenty Fiddlers The Violin at the English Court, 1540-1690 Oxford University Press on Demand** *The royal string band at the English court had its origins in a six-man viol consort from Italy brought to England by Henry VIII in the spring of 1540. This book, written by the director of the acclaimed early music group, The Parley of Instruments, charts the history of the royal string band from its beginnings to the time of Purcell. Drawing on a wealth of documentary evidence, much of it new, Holman considers the previous history of instrumentalists at court and recounts the band's establishment at court in the context of the violin's place in sixteenth-century Europe. The first thorough treatment of this subject, Holman's book will be welcomed for the light it sheds on large areas of music history.* **The Middling**

Sort and the Politics of Social Reformation Colchester, 1570-1640 Peter Lang *The interrelated demographic, economic, religious, and cultural transformations that England experienced in the late sixteenth and early seventeenth centuries were most pronounced in larger towns in the south and east, such as Colchester in Essex. The effects produced by these changes led to an effort at social and sexual regulation by the town's more prosperous residents, in order to control and modify the negative impact on the local population, especially the poor. This book provides an in-depth portrait of an urban setting, discussing both wrongdoers themselves and the motivations of the craftsmen and tradesmen - the «middling sorts» - who enforced local standards of conduct.* **Of Books and Botany in Early Modern England Sixteenth-century Plants and Print Culture Ashgate Publishing, Ltd.** Leah Knight argues that the early modern cultures and cultivation of plants and books depended on each other in historically specific ways. Knight's in-depth readings of sixteenth-century herbals are incorporated in a narrative which establishes the broader context for the interpenetration of plants and writing in the period's cultural practices to illuminate a complex interplay between materials and discourses rarely considered in tandem today. **The Age of Elizabeth England Under the Later Tudors Routledge** This famous book was the first up-to-date survey of its field for a generation; even today, when work on early modern social history proliferates, it remains the only general economic history of the age. This second edition, substantially revised and expanded, is clear in outline, rich in detail, stressing continuity as well as change, balancing the glamour of privilege with the misery and privation of the poor, and dealing with the dark side of Tudor life -- vagabondage, starvation, superstition and cruelty -- as well as its heroic achievements. **Tudor and Stuart Drama New York : Appleton-Century-Crofts English Paleography and Manuscript Culture, 1500-1800 Yale University Press** This richly illustrated book provides an essential introduction to the manuscript in early modern England. From birth to death, parish record to probate inventory, writing framed the lives of the early modern English. Offering a technical introduction to the handwriting of the period, case studies tracing the significance of manuscript to British cultural identity, and exercises to practice reading and transcription, the book opens the study of early modern English manuscript to a new generation of students and scholars. **Marketing English Books, 1476-1550 How Printers Changed Reading Oxford University Press, USA** Explores how the earliest printers moulded demand and created new markets and argues that marketing changed what was read and the place of reading in sixteenth-century readers' lives, shaping their expectations, tastes, and their practices and beliefs. **The Stuart Courts The History Press** The regal courts of the English Stuart Kings, from James I (1603-1625) to the ill-fated James II (1685-1689), were magnificent affairs. In a country otherwise given to increasingly austere Puritan ways of living, the royal court shone with a brilliance usually associated with the courts of the Catholic kings of mainland Europe. They were centres of great culture, patronage, ceremony and politics. The real importance of the courts, though down-played for many years, is now beginning to be fully recognised and this first major study of the Stuart courts in England, Scotland and Ireland examines them in their full cultural and historical context. Scholars of international reputation and up and coming, younger scholars have been brought together to give us an insight into many aspects of the Stuart courts. This book includes essays on culture and patronage of the arts and social history. What was it really like at the court? What rules applied? How did the courtiers behave? Finally, the crucial interplay between court life and political life, and politics, is examined in detail. This book is a major contribution to a flourishing area of scholarship and will be required reading for anyone interested in seventeenth-century history, court studies or the arts in the early modern period. **Penury into Plenty Dearth and the Making of Knowledge in Early Modern England Routledge** Penury into Plenty: Dearth and the Making of Knowledge in Early Modern England is an original examination of cultural meanings of dearth and famine in England at the turn of the sixteenth century. It focuses on the socio-economic and ecological crises of the 1590s, investigating the effects of widespread fears of famine on mundane activities and knowledge making by analyzing the remedial measures undertaken by the early modern English to illustrate their commitment to resource management. The activities, theories, and publications of the prolific 'dearth scientist' Sir Hugh Platt are considered alongside other forms of literature such as sermons, plays, poetry and prose fiction to explain not only what dearth or famine meant in the period, but how contemporaries understood sustainable resource management. By drawing upon environmental, economic, scientific, and literary history and theory, Penury into Plenty allows modern readers to see that sustainability is not a wholly modern concept and the investigation of cultural forms of ecological consciousness and social consequences of past environmental change is vital for understanding contemporary concerns. **Books for College Libraries A Selected List of Approximately 53,400 Titles Based on the Initial Selection Made for the University of California's New Campuses Program and Selected with the Assistance of College Teachers, Librarians, and Other Advisers The Later Tudors England, 1547-1603 Oxford University Press** The Later Tudors, the second volume to be published in Oxford's authoritative series The New Oxford History of England, tells the story of England between the accession of Edward VI and the death of Elizabeth I. The second half of the sixteenth century was a period of intense conflict between the nations of Europe, and between competing Catholic and Protestant beliefs. These struggles produced acute anxiety in England, but the nation was saved from the disasters that befell her neighbors and, by the end of Elizabeth's reign, achieved a remarkable sense of political and religious identity. In this masterly and comprehensive study, Penry Williams explains how this process came about. He begins by weaving together the political, religious, and economic history of the nation, setting out the workings and development of the English state. Later chapters establish the broader perspective, with a thorough analysis of English society, family relations, and culture, focusing on the ways in which art and literature were used to uphold--and sometimes to subvert--the social and political order. The final chapter looks to Europe and across the seas at England's part in the shaping of the New World.
