SOCIAL WORK IN A GLOCALISED WORLD

Taylor & Francis This engaging and timely volume contributes new knowledge to the rapidly emerging field of globalisation and social work. The volume brings together cutting-edge interdisciplinary scholarship from countries such as Australia, Finland, Japan, South Africa, the Philippines and Sweden. It proposes 'glocalisation' as a useful concept for re-framing conditions, methodologies and practices for social work in a world perspective. Part I of the volume, 'The Glocalisation of Social Issues', deals with major environmental, social and cultural issues - migration and human rights, environmental problems and gendered violence. Part II, 'Methodological Re-Shaping and Spatial Transgression in Glocalised Social Work', develops an epistemology of situated knowledge and methodologies inspired by art, creative writing and cultural geography, focusing on physical, material and emotional spatial dimensions of relevance to social work. Part III, 'Responses from Social Work as a Glocalised Profession', examines how social work has responded to specific social problems, crises and vulnerabilities in a glocalised world.

MIGRANT MEN

CRITICAL STUDIES OF MASCULINITIES AND THE MIGRATION EXPERIENCE

Routledge This edited volume contributes an important collection of chapters to the growing theoretical and empirical work being undertaken at the international level on men and migration. The chapters presented here focus on what we might call 'migratory masculinities': the experiences men have of masculinity upon immigration into another national, ethnic, and cultural context. How do these men (re)construct their conceptions of masculinity? Where are the points of tension, ambivalence or assimilation in this process? Featuring interviews and data drawn from migrants working and living in Australia, this book explores how the gender identity of men from non-English-speaking backgrounds is influenced by the experiences of migration and settlement in an English-speaking culture, across various cultural spheres such as work, leisure, family life and religion.

GLOBAL BURDEN OF ARMED VIOLENCE 2015

EVERY BODY COUNTS

Cambridge University Press The Global Burden of Armed Violence 2015 examines international debates on including peace and security in the post-2015 development framework.

WORLD SOCIAL REPORT 2020

INEQUALITY IN A RAPIDLY CHANGING WORLD

United Nations This report examines the links between inequality and other major global trends (or megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation.

SMALL ARMS SURVEY 2013

EVERYDAY DANGERS

Cambridge University Press The Small Arms Survey 2013 explores the many faces of armed violence outside the context of armed conflict. Chapters on the use of firearms in intimate partner violence, the evolution of gangs in Nicaragua, Italian organised crime groups, and trends in armed violence in South Africa describe the dynamics and effects of gun violence in the home and on the street. Many of the chapters in the 'weapons and markets' section zero in on the use of specific weapons by particular armed actors, such as drug-trafficking organisations and insurgents. These include chapters on the prices of arms and ammunition at illicit markets in Lebanon, Pakistan and Somalia; illicit weapons recovered in Mexico and the Philippines; and the impacts of improvised explosive devices on civilians. Chapters on the Second Review Conference of the UN Programme of Action and the industrial demilitarisation industry round out the 2013 volume.

2018 THE STATE OF THE WORLD'S FORESTS

FOREST PATHWAYS TO SUSTAINABLE DEVELOPMENT

Food & Agriculture Org. Nearly three years ago, world leaders agreed to the United Nations 2030 Agenda for Sustainable Development and its 17 Sustainable Development Goals (SDGs) - the central framework for guiding development policies throughout the world. This edition of The State of the World's Forests is aimed at enhancing our understanding of how forests and their sustainable management contribute to achieving several of the SDGs. Time is running out for the world's forests: we need to work across sectors, bring stakeholders together, and take urgent action. The State of the World's Forests 2018 identifies actions that can be taken to increase the contributions of forests and trees that are necessary to accelerate progress towards the SDGs. It is now critical that steps be taken to work more effectively with the private sector, and the informal forest sector must be transformed in order to bring broader economic, social and environmental benefits. Seventy years ago, when FAO completed its first assessment of the world's forest resources, the major concern was whether there would be enough timber to supply global demand; now we recognize the greater global relevance of our forests and trees. For the first time, The State of the World's Forests 2018 provides an assessment of the contribution of forests and trees to our landscapes and livelihoods. The purpose of this publication is to provide a much wider audience with an understanding of why forests and trees matter for people, the planet and posterity.

INDIA: PREPARATION FOR THE WORLD OF WORK

EDUCATION SYSTEM AND SCHOOL TO WORK TRANSITION

Springer This book explores how the Indian education and training system prepares young people for the world of work and for the requirements of the employment market - because India is a leading industrialised nation with a very young population and a high demand for a skilled workforce. Indian experts write from a course-specific perspective, offering a comprehensive picture of educational policy, curriculum design and cultural characteristics. The virtual absence of a formalised system of vocational training in India underlines the importance of this research.

SMALL TOWN CHINA

RURAL LABOUR AND SOCIAL INCLUSION

Taylor & Francis While much has been written about rural migrant workers' experiences in the big cities, population movements into China's vast network of towns and small cities has been largely neglected. This book presents a detailed case study of rural migrant workers experiences in a small town in a north China county. The author explores the processes and institutions that enable or preclude the social inclusion of rural workers into the town's socio-economic system. Inclusion and exclusion are assessed through an examination of rural workers' immersion into the urban labour market, their access to welfare benefits and to social services, such as housing, education and health. The book proposes that outside the larger cities there are alternative accounts of urban social change and of the integration of rural migrant workers. It stresses the fact that the particular socio-economic structure of towns, where the state-owned share of the economy has been smaller and where consequently social and private forces have been more active, allowed for a more open inclusion of rural workers. Though shortcomings are still observed, the book suggests that China's transformation may not necessarily result in dysfunctional and socially polarized urban environments. This book will be of interest to students and scholars of China's rural migrant workers, bottom-up urbanization and small town development, social policy, and more broadly on contemporary social change in China.

GOVERNING LAND FOR WOMEN AND MEN

A TECHNICAL GUIDE TO SUPPORT THE ACHIEVEMENT OF RESPONSIBLE GENDER-EQUITABLE GOVERNANCE OF LAND TENURE

Food & Agriculture Org. Gender equality is one of the ten core principles of the Voluntary Guidelines on the Responsible Governance of Tenure of Land, Fisheries and Forests in the Context of National Food Security. This guide aims to assist in its implementation through the achievement of responsible gender-equitable governance of land tenure. The guide focuses on equity and on how land tenure can be governed in ways that address the different needs and priorities of women and men. Gender-equitable governance of land tenure ensures that women and men can participate equally in their relationships to land, through both formal institutions and informal arrangements for land administration and management. The guide provides advice on mechanisms, strategies and actions that can be adopted to improve gender equity in the processes, institutions and activities of land tenure governance.

STATE OF THE WORLD'S CHILDREN 2007, THE

WOMEN AND CHILDREN - THE DOUBLE DIVIDEND OF GENDER EQUALITY

United Nations Millions of girls and women continue to live in poverty, disempowered and discriminated against. They are disproportionately affected by HIV/AIDS, less likely to attend school and often subject to physical and sexual violence. In most places, men continue to earn more pay than women for the same jobs. This year's edition of UNICEF's flagship publication, examines the status of women around the world. It concludes that an end to gender discrimination produces the "double dividend" of benefiting women and children - which, in turn, has a positive impact on the health and development of societies everywhere.

WORLD WILDLIFE CRIME REPORT 2016

TRAFFICKING IN PROTECTED SPECIES

United Nations The trafficking of wildlife is increasingly recognized as both a specialized area of organized crime and a significant threat to many plant and animal species. The World Wildlife Crime Report 2016 takes stock of the present wildlife crime situation with a focus on illicit trafficking of specific protected species of wild fauna and flora, and provides a broad assessment of the nature and extent of the problem at the global level. It includes a quantitative market assessment and a series of in-depth illicit trade case studies.

FERTILITY OF MEN AND WOMEN AGED 15-44 YEARS IN THE UNITED STATES

NATIONAL SURVEY OF FAMILY GROWTH, 2006-2010

STATE OF THE WORLD'S CHILDREN 2012

CHILDREN IN AN URBAN WORLD

United Nations While cities have long been associated with employment, development and economic growth, hundreds of millions of children in the world's urban areas are growing up amid scarcity and deprivation. This publication presents the hardships these children face as violations of their rights, as well as impediments to fulfilling the Millennium Development Goals. It examines major phenomena shaping the lives of children in urban settings, including migration, economic shocks and acute disaster risk. It also provides examples of efforts to improve the urban realities that children confront and identifies broad policy actions that should be included in any strategy to reach excluded children and foster equity in urban settings driven by disparity.

RESEARCH ON WOMEN'S ISSUES IN TRANSPORTATION, REPORT OF A CONFERENCE

CONFERENCE OVERVIEW AND PLENARY PAPERS

Transportation Research Board

THE TRANSPORT DEBATE

Policy Press At a time when transport is high on the political agenda and government decision-making is being vigorously scrutinised, there is a need for an incisive and accessible analysis of the key policy issues. This book is a highly readable introduction to the transport debate from two experts in the field. The authors celebrate the advantages of a modern transport system, but argue that years of poorly conceived and executed transport policy have resulted in Britain's transport system being far worse than it should be. They show that a substandard transport system creates economic, social and environmental costs, but demonstrate how these can be addressed through affordable and politically deliverable changes. Using a refreshingly novel approach, Shaw and Docherty use the familiar idea of the journey as the basis for their discussion. The book follows members of the Smith family as they uncover a wide array of transport issues, including why the problems we all encounter as we travel around actually come about; which policy trade-offs were responsible for creating them in the first place; what impacts we all have to suffer as a result; and what we can do to fix them. This lively and engaging approach will make the book ideal for a wide readership.

EARLY CHILDHOOD EDUCATION FOR A NEW ERA

LEADING FOR OUR PROFESSION

Teachers College Press In her provocative new book, Stacie Goffin presents a leadership manifesto for the field of early care and education. With an action-oriented frame of reference, she offers a unique point of view on national efforts to improve program quality and developmental and learning outcomes for children. The book calls for the ECE field to step forward as agents for change by (1) Assuming responsibility for the competent practice of its practitioners and for facilitating positive results for children and their learning; (2) Formally organizing as a profession to realize consistency in practice across sites and program types; (3) Diminishing its reliance on public policy for defining its purpose and structure. The text concludes with "Next Steps Commentaries" written by education luminaires Rolf Grafwallner, Jacqueline Jones, and Pamela J. Winton outlining concrete steps for action that will jump-start a conversation about moving forward with the ideas presented in the book. ECE for a New Era builds on and extends the conversation started in Goffin's critically acclaimed book co-authored with Valora Washington, Ready or Not: Leadership Choices in Early Care and Education.

GENDER AND INTERNATIONAL CRIMINAL LAW

Oxford University Press The last few decades have seen remarkable developments in international criminal justice, especially in relation to the pursuit of individuals responsible for sexual violence and other gender-based crimes. Historically ignored, justified, or minimised, this category of crimes now has a heightened profile in the international political and judicial arena. Despite this, gender is poorly understood, and blind spots, biases, and stereotypes prevail. This book brings together leading feminist international criminal and humanitarian law academics and practitioners to examine the place of gender in international criminal law (ICL). It identifies and analyses past and current narrow understandings of gender, before considering how a limited conceptualization affects accountability efforts. The authors consider how best to implement a more nuanced understanding of gender in the practice of international criminal law by identifying possible responses, including embedding a sophisticated gender strategy into the practice of ICL, the gender-sensitive application of international human rights and humanitarian law, and encouraging a gender-competent approach to judging in ICL. The authors' aim is to strengthen efforts for accountability for all atrocity crimes-war crimes, crimes against humanity, genocide, and aggression.

LA CONDIZIONE DELL'INFANZIA NEL MONDO 2007 : DONNE E BAMBINI : IL DOPPIO VANTAGGIO DELL'UGUAGLIANZA DI GENERE

UNICEF The State of the World's Children 2007 reports on the lives of women around the world because gender equality and the well-being of children go hand in hand. When women are empowered to live full and productive lives, children prosper and UNICEF's experience also shows the opposite: When women are denied equal opportunity within a society, children suffer. The report is divided into five sections: a call for equality; equality in the household; equality in employment; equality in politics and government; reaping the double dividend of gender equality.

TRANSFORMATION OF WOMEN AT WORK IN ASIA

AN UNFINISHED DEVELOPMENT AGENDA

SAGE Publishing India This book examines the drivers of, and barriers to, participation of women in the Asian labour market for its socio-economic development and structural transformation. Based on original comparative research and extensive fieldwork, Transformation of Women at Work in Asia highlights the commonalities as well as the diverse nature of challenges that women across Asia face in gaining access to more and better jobs. Findings show that women across the continent have contributed significantly to its spectacular growth story; yet, social norms and economic factors limit their levels of participation. The book calls for a comprehensive approach to improve opportunities for women's participation in the labour market as well as for the freedom to engage in paid employment. This will, in turn, contribute to a more inclusive growth process. It addresses important challenges faced by women workers and provides policy options for governments to promote decent work opportunities for women across social strata.

COUNTDOWN

OUR LAST, BEST HOPE FOR A FUTURE ON EARTH?

Hachette UK Every four days there are a million more people on the planet. More people and fewer resources. In this timely work, Alan Weisman examines how we can shrink our collective human footprint so that we don't stomp any more species - including our own - out of existence. The answer: reducing gradually and non-violently the number of humans on the planet whose activities, industries and lifestyles are damaging the Earth. Defining an optimum human population for the Earth is an explosive concept. Weisman, one of the most brilliant environmental writers, will travel the globe, from the settlements of Israel and the plains of Mexico to the bustling streets of Pakistan and the teeming cities of the UK. In his search for answers, he will speak to religious leaders, demographers, ecologists, economists, engineers and agriculturalists in what promises to be an international classic.

EMERGING INFECTIOUS DISEASES

HUMAN SECURITY, LAW AND THE PREVENTION OF TERRORISM

Routledge This study examines two important questions regarding terrorism and political violence: which threats to human security constitute root causes for collective violence and which adequate responses for these root causes are available to the international community. The responses are examined on the basis of international law, in particular human rights law, and within the concept of human security, with the goal of fostering a long-term reduction in political violence. Drawing on existing political discussions and research about the root causes of terrorism, Zwitter develops a legal framework for the application of legal terrorism prevention tools. This study serves as a framework of action and analysis using concepts and particularly legal frameworks which are already broadly or universally recognized to increase the applicability of the framework without having to invent new legal regimes. In doing so it makes use of the concept of human security for tackling breeding grounds and other facilitators of terrorism making it universally accessible. Combining social science research with legal sociology and international law, this book will be of interest to students and scholars of politics, international relations, security studies, conflict studies and law.

WOMEN, PEACE AND SECURITY

TRANSLATING POLICY INTO PRACTICE

Routledge This book provides a critical assessment of the impact of UN Resolution 1325 by examining the effect of peacebuilding missions on increasing gender equality within conflict-affected countries. UN Resolution 1325 was adopted in October 2000, and was the first time that the security concerns of women in situations of armed conflict and their role in peacebuilding was placed on the agenda of the UN Security Council. It was an important step forward in terms of bringing women's rights and gender equality to bear in the UN's peace and security agenda. More than a decade after the adoption of this Resolution, its practical reality is yet to be substantially felt on the ground in the very societies and regions where women remain disproportionately affected by armed conflict and grossly under-represented in peace processes. This realization, in part, led to the adoption in 2008 and 2009 of three other Security Council Resolutions, on sexual violence in conflict, violence against women, and for the development of indicators to measure progress in addressing women, peace and security issues. The book draws together the findings from eight countries and four regional contexts to provide guidance on how the impact of Resolution 1325 can be measured, and how peacekeeping operations could improve their capacity to effectively engender security. This book will be of much interest to students of peacebuilding, gender studies, the United Nations, international security and IR in general.

PALESTINIAN WOMEN AND POPULAR RESISTANCE

PERCEPTIONS, ATTITUDES, AND STRATEGIES

Routledge This book explores Palestinian women's views of popular resistance in the West Bank and examines factors shaping the nature and extent of their involvement. Despite the signing of the Oslo peace accords in 1993, the Occupied Palestinian Territories in the contemporary period have experienced tightened Israeli occupational control and worsening political, humanitarian, security, and economic conditions. Based on ethnographic fieldwork conducted with women in the West Bank, this book looks at how Palestinian women in the post-Oslo period perceive, negotiate, and enact resistance. It demonstrates that, far from being 'apathetic', as some observers have charged, Palestinian women remain deeply committed to the goals of national liberation and wish to contribute to an effective popular resistance movement. Yet many Palestinian women feel alienated from prevailing forms of collective popular resistance in the OPT due to the low levels of legitimacy they accord them. This alienation has been made stark by the gendered and intersecting impacts of expanding settler-colonialism, tightening spatial control, a professionalised and depoliticised civil society, reinforced patriarchal constraints, Israeli and Palestinian Authority (PA) repression and violence, and a deteriorating economy - all of which have raised the barriers Palestinian women face to active participation. Undertaking a gendered analysis of conflict and resistance, this volume highlights significant changes over the course of a long-running resistance movement. Readers interested in gender and women's studies, the Arab-Israel conflict and Middle East politics will find the study beneficial.
