It addresses those news factors that influence the newsworthiness of international events, providing a synthesis of both theoretical and practical studies that highlight the complicated nature of the international news selection process. It also deals with international news coverage, presenting research on the cross-national and cross-cultural nature of media coverage of global events, in the interdisciplinary context of research on political communication, war coverage, new technologies and online communication. The work concludes with a focus on global strategic communications: in the age of globalization, global economies and cross-national media ownership, chapters here provide readers with some of the most up-to-date research on international advertising, public relations and other key issues in international communications. With contributions from many of the leading scholars in the field of international media communication research, this collection presents a valuable resource for advancing knowledge and understanding of the complicated international communication phenomenon. It will be of value to upper-level undergraduates and graduate students in mass media and communication programs, and to scholars whose research focuses on global communication research. They were crushed due to overcrowding in the Leppings Lane terrace, penned in by the ground's fencing. Hundreds more were injured and thousands traumatised. Lord Justice Taylor led a judicial inquiry (1990, Cm. 962, ISBN 9780101096225), concluding that the main cause of the disaster was the failure of police control. The next 11 years saw a variety of investigations and proceedings, including a scrutiny of new evidence (Lord Justice Stuart-Smith, 1998, Cm. 3878, ISBN 9780101387828). Yet many bereaved families felt that the true context, circumstances and aftermath had not been adequately made public, and were particularly aggrieved that it had become widely assumed that Liverpool fans' behaviour had contributed to the disaster. The Independent Panel was established in 2010 to oversee full public disclosure of all documents relating to the disaster and to report on its work. This report is in three parts. Firstly it shows what was already known and in the public domain by 2010. Secondly, in 12 detailed chapters, it describes what the disclosed documents add to public understanding. The third part gives a review of options for providing an archive

of the documents. The disclosed documents (available at <http://panel.hillsborough.independent.gov.uk/>) add considerably to public understanding. They show that multiple factors were responsible for the tragedy and that the fans were not the cause. The report also shows that the bereaved families met a series of obstacles in their search for justice over more than 20 years.
