Integrated Diabetes Care

A Multidisciplinary Approach

Springer Integrating care across disciplines and organisations around the needs of the person with diabetes has been proposed as an approach that could improve care while reducing cost- but has it and can it? **Integrated Diabetes Care- A Multidisciplinary Approach** collates evidence of worldwide approaches to both horizontal integration (across disciplines) and vertical integration (across organizations) in diabetes care and describe what was done, what worked and what appeared to be the barriers to achieving the goals of the programmes. Evidence is sought from groups who have developed different approaches to integrating diabetes care in different health systems (eg insurance vs tax payer funded, single vs multiple organization, published vs unpublished). A final chapter brings the evidence together for a final discussion about what seems to work and what does not.

Continuous Renal Replacement Therapy

Oxford University Press In the past decade, CRRT has moved from a niche therapy within specific specialty centers to the standard of care for management of critically ill patients with acute renal failure. **Continuous Renal Replacement Therapy** provides concise, evidence-based, to-the-point bedside guidance about this treatment modality, offering quick reference answers to clinicians' questions about treatments and situations encountered in daily practice. Organized into sections on Theory; Practice; Special Situations; and Organizational Issues, **Continuous Renal Replacement Therapy** provides a complete view of CRRT theory and practice. Generous tables summarize and highlight key points, and key studies and trials are listed in each chapter.

IBM Cloud Private System Administrator's Guide

IBM Redbooks IBM® Cloud Private is an application platform for developing and managing containerized applications across hybrid cloud environments, on-premises and public clouds. It is an integrated environment for managing containers that includes the container orchestrator Kubernetes, a private image registry, a management console, and monitoring frameworks. This IBM Redbooks covers tasks performed by IBM Cloud Private system administrators such as installation for high availability, configuration, backup and restore, using persistent volumes, networking, security, logging and monitoring. Istio integration, troubleshooting and so on. As part of this project we also developed several code examples and you can download those from the IBM Redbooks GitHub location: <https://github.com/IBMRedbooks>. The authors team has many years of experience in implementing IBM Cloud Private and other cloud solutions in production environments, so throughout this document we took the approach of providing you the recommended practices in those areas. If you are an IBM Cloud Private system administrator, this book is for you. If you are developing applications on IBM Cloud Private, you can see the IBM Redbooks publication IBM Cloud Private Application Developer's Guide, SG24-8441.

The World Bank Group A to Z 2016

World Bank Publications The World Bank Group A to Z provides the most concise and essential information about the mission, policies, procedures, products, and services of the new World Bank Group. This second edition is a follow-up to the first volume released for the 2014 Annual Meetings. The World Bank Group A to Z series builds on previous editions of A Guide to the World Bank to include features not found in its predecessors including: a graphical introduction to the World Bank Group, highlighting the Bank Group's goals, financials, regions, and results; examples and photos of Bank Group projects and programs; and tools to guide you to the information you are looking for (even if you don't know exactly what that is). It also reflects the wide-ranging reforms that have taken place within the World Bank Group in recent years, including the launch of the new World Bank Group Strategy; new approaches to development; the establishment of new Global Practice Groups and Cross Cutting Solutions Areas; and the goal of becoming a "Solutions Bank," one that will marshal the vast reserves of evidence and experiential knowledge across the five World Bank Group agencies and apply them to local problems. With more than 280 entries arranged in encyclopedic A-to-Z format, readers can easily find up-to-date information about the five agencies of the World Bank Group and the wide range of areas in which they work: from agriculture, education, energy, health, social protection and labor to gender, jobs, conflict, private sector development, trade, water and climate change. The World Bank Group's work in all of these areas now focuses on two new twin goals: eliminating extreme poverty by 2030 and boosting shared prosperity of the poorest 40 percent in every developing country.

Mental Health Policy And Practice Across Europe

McGraw-Hill Education (UK) This book maps the current state of policy, service provision and funding for mental health care across Europe, taking into account the differing historical contexts that have shaped both the development and the delivery of services.

Healthy lives, healthy people

our strategy for public health in England

The Stationery Office The Government recognises that many lifestyle-driven health problems are at alarming levels: obesity; high rates of sexually transmitted infections; a relatively large population of drug users; rising levels of harm from alcohol; 80,000 deaths a year from smoking; poor mental health; health inequalities between rich and poor. This white paper outlines the Government's proposals to protect the population from serious health threats; help people live longer, healthier and more fulfilling lives; and improve the health of the poorest. It aims to empower individuals to make healthy choices and give communities and local government the freedom, responsibility and funding to innovate and develop ways of improving public health in their area. The paper responds to Sir Michael Marmot's strategic review of health inequalities in England post 2010 - "Fair society, healthy lives" (available at <http://www.marmotreview.org/AssetLibrary/pdfs/Reports/FairSocietyHealthyLives.pdf>) and adopts its life course framework for tackling the wider social determinants of health. A new dedicated public health service - Public Health England - will be created to ensure excellence, expertise and responsiveness, particularly on health protection where a national response is vital. The paper gives a timetable showing how the proposals will be implemented and an annex sets out a vision of the role of the Director of Public Health. The Department is also publishing a fuller story on the health of England in "Our health and wellbeing today" (http://www.dh.gov.uk/prod_consum_dh/groups/dh_digitalassets/@dh/@en/@ps/documents/digitalasset/dh_122238.pdf), detailing the challenges and opportunities, and in 2011 will issue documents on major public health issues.

Enabling Inclusive Cities

Tool Kit for Inclusive Urban Development

Asian Development Bank This tool kit presents an integrated approach to inclusive urban development and was prepared for ADB staff and their partners to engage in inclusive urban development programming and implementation as an integral component of ADB's lending programs. It presents methods to gather required information on a particular context and location for inclusive urban development; to decide priorities; and to plan, design, and implement inclusive urban projects. The operational focus is provided by practical guidelines and criteria for inclusive urban development projects and is designed to stimulate innovation in the solution and approaches that define inclusive urban development projects.

The Oxford Handbook of Archaeological Ceramic Analysis

Oxford University Press The Oxford Handbook of Archaeological Ceramic Analysis draws together topics and methodologies essential for the socio-cultural, mineralogical, and geochemical analysis of archaeological ceramic. Ceramic is one of the most complex and ubiquitous archaeomaterials in the archaeological record: it occurs around the world and through time in almost every culture and context, from building materials and technological installations to utilitarian wares and votive figurines. For more than 100 years, archaeologists have used ceramic analysis to answer complex questions about economy, subsistence, technological innovation, social organization, and dating. The volume is structured around the themes "Research design and data analysis," "Foundational concepts," "Evaluating ceramic provenance," "Investigating ceramic manufacture," "Assessing vessel function," and "Dating ceramic assemblages." It provides a common vocabulary and offers practical tools and guidelines for ceramic analysis using techniques and methodologies ranging from network analysis and typology to rehydroxylation dating and inductively coupled plasma mass spectrometry. Each chapter provides the theoretical background and practical guidelines, such as cost and destructiveness of analysis, for each technique, as well as detailed case studies illustrating the application and interpretation of analytical data for answering anthropological questions.

Internationalisation of Higher Education

A study on the understanding of Internationalisation of Higher Education in the European context, based on two surveys, an analysis of the role of digital learning, ten national reports from Europe and seven from outside Europe. The study results in conclusions and recommendations on the future of Internationalisation of Higher Education in Europe, based on the national reports and a Delphi process among experts in international higher education.

The IOC Manual of Emergency Sports Medicine

John Wiley & Sons The Manual focuses on the fieldside diagnosis and treatment of severe injuries and illnesses that can present at a sports event. It concentrates on basic diagnostic skills and treatment modalities as the sports physician has often limited diagnostic and treatment facilities available. Each chapter concentrates on an illness or anatomical injury and offers a structured diagnostic and therapeutic approach in this difficult pre-hospital environment. The chapters explain what problems are to be expected with specific conditions as well as which treatment plan should be implemented and how to evaluate and reassess those plans.

Learning to Teach in Higher Education

Routledge This bestselling book is a unique introduction to the practice of university teaching and its underlying theory. This new edition has been fully revised and updated in view of the extensive changes which have taken place in higher education over the last decade and includes new material on the higher education context, evaluation and staff development. The first part of the book provides an outline of the experience of teaching and learning from the student's point of view, out of which grows a set of principles for effective teaching in higher education. Part two shows how these ideas can enhance educational standards, looking in particular at four key areas facing every teacher in higher education: * Organising the content of undergraduate courses * Selecting teaching methods * Assessing student learning * Evaluating the effectiveness of teaching. Case studies of exemplary teaching are used throughout to connect ideas to practice and to illustrate how to ensure better student learning. The final part of the book looks in more detail at appraisal, performance indicators, accountability and educational development and training. The book is essential reading for new and experienced lecturers, particularly those following formal programmes in university teaching, such as courses leading to ILT accreditation.

Working in Policing

Learning Matters Aimed at new recruits or HE students thinking about a career in policing, this book provides a clear overview of and insight into the many and varied roles available. From a neighbourhood police officer or a detective, to a crime scene investigator gathering evidence or an analyst collating intelligence, the book examines what each role entails, the skills required, and the best pathway to securing the job. An extended case study runs through the book, demonstrating how the different roles are involved in and contribute to a single investigation, and self-assessment questions relating to each role check the reader's understanding.

U.S. Navy Program Guide - 2017

Independently Published The U.S. Navy is ready to execute the Nation's tasks at sea, from prompt and sustained combat operations to every-day forward-presence, diplomacy and relief efforts. We operate worldwide, in space, cyberspace, and throughout the maritime domain. The United States is and will remain a maritime nation, and our security and prosperity are inextricably linked to our ability to operate naval forces on, under and above the seas and oceans of the world. To that end, the Navy executes programs that enable our Sailors, Marines, civilians, and forces to meet existing and emerging challenges at sea with confidence. Six priorities guide today's planning, programming, and budgeting decisions: (1) maintain a credible, modern, and survivable sea based strategic deterrent; (2) sustain forward presence, distributed globally in places that matter; (3) develop the capability and capacity to win decisively; (4) focus on critical afloat and ashore readiness to ensure the Navy is adequately funded and ready; (5) enhance the Navy's asymmetric capabilities in the physical domains as well as in cyberspace and the electromagnetic spectrum; and (6) sustain a relevant industrial base, particularly in shipbuilding.

Best Practice Guide on the Control of Arsenic in Drinking Water

IWA Publishing Arsenic in drinking water derived from groundwater is arguably the biggest environmental chemical human health risk known at the present time, with well over 100,000,000 people around the world being exposed. Monitoring the hazard, assessing exposure and health risks and implementing effective remediation are therefore key tasks for organisations and individuals with responsibilities related to the supply of safe, clean drinking water. Best Practice Guide on the Control of Arsenic in Drinking Water, covering aspects of hazard distribution, exposure, health impacts, biomonitoring and remediation, including social and economic issues, is therefore a very timely contribution to disseminating useful knowledge in this area. The volume contains 10 short reviews of key aspects of this issue, supplemented by a further 14 case studies, each of which focusses on a particular area or technological or other practice, and written by leading experts in the field. Detailed selective reference lists provide pointers to more

detailed guidance on relevant practice. The volume includes coverage of (i) arsenic hazard in groundwater and exposure routes to humans, including case studies in USA, SE Asia and UK; (ii) health impacts arising from exposure to arsenic in drinking water and biomonitoring approaches; (iii) developments in the nature of regulation of arsenic in drinking water; (iv) sampling and monitoring of arsenic, including novel methodologies; (v) approaches to remediation, particularly in the context of water safety planning, and including case studies from the USA, Italy, Poland and Bangladesh; and (vi) socio-economic aspects of remediation, including non-market valuation methods and local community engagement.

Smile Therapy

Functional Communication and Social Skills for Deaf Students and Students with Special Needs

Taylor & Francis Students with communication difficulties need skills to communicate functionally in everyday situations, without the usual support and protection from home and school. This book is a practical step-by-step resource, designed to guide teachers and SLTs in the delivery of Smile Therapy with students who have communication difficulties due to deafness, specific language impairment, learning difficulties, autism or physical disability. Features: a clear step-by-step approach to preparing, running and evaluating Smile Therapy, with photocopiable resources. clear outcome measures from each module to share with parents, staff, education and health managers.

Teaching for Quality Learning at University

McGraw-Hill Education (UK) "This book is an exceptional introduction to some difficult ideas. It is full of downright good advice for every academic who wants to do something practical to improve his or hers students' learning." Paul Ramsden, Brisbane, Australia "Biggs and Tang present a unified view of university teaching that is both grounded in research and theory and replete with guidance for novice and expert instructors. The book will inspire, challenge, unsettle, and in places annoy and even infuriate its readers, but it will succeed in helping them think about how high quality teaching can contribute to high quality learning." John Kirby, Queens University, Ontario, Canada This best-selling book explains the concept of constructive alignment used in implementing outcomes-based education. Constructive alignment identifies the desired learning outcomes and helps teachers design the teaching and learning activities that will help students to achieve those outcomes, and to assess how well those outcomes have been achieved. Each chapter includes tasks that offer a 'how-to' manual to implement constructive alignment in your own teaching practices. This new edition draws on the authors' experience of consulting on the implementation of constructive alignment in Australia, Hong Kong, Ireland and Malaysia including a wider range of disciplines and teaching contexts. There is also a new section on the evaluation of constructive alignment, which is now used worldwide as a framework for good teaching and assessment, as it has been shown to: Assist university teachers who wish to improve the quality of their own teaching, their students' learning and their assessment of learning outcomes Aid staff developers in providing support for departments in line with institutional policies Provide a framework for administrators interested in quality assurance and enhancement of teaching across the whole university. The authors have also included useful web links to further material. Teaching for Quality Learning at University will be of particular interest to teachers, staff developers and administrators.

These guidelines provide recommendations that outline the critical aspects of infection prevention and control. The recommendations were developed using the best available evidence and consensus methods by the Infection Control Steering Committee. They have been prioritised as key areas to prevent and control infection in a healthcare facility. It is recognised that the level of risk may differ according to the different types of facility and therefore some recommendations should be justified by risk assessment. When implementing these recommendations all healthcare facilities need to consider the risk of transmission of infection and implement according to their specific setting and circumstances.
