European Comparative Company Law

Cambridge University Press Company law is undergoing fundamental change in Europe. All European countries have undertaken extensive reform of their company legislation. Domestic reform has traditionally been driven by corporate failures or scandals. Initiatives to make corporate governance more effective are a feature of recent European law reform, as are measures to simplify and ease burdens on smaller and medium-sized businesses (SMEs). An increasing EU harmonisation is taking place through the Company Law Directives, and the free movement of companies is also facilitated by the case law of the European Court of Justice on the directives and the right to free movement and establishment in the EC Treaty. New European corporate forms such as the European Economic Interest Grouping (EEIG) and the European Company (SE) have added new dimensions. At a time of rapid development of EU and national company laws, this book will aid the understanding of an emerging discipline.

International Business Law and the Legal Environment

A Transactional Approach

Routledge International Business Law and the Legal Environment provides business students with a strong understanding of the legal principles that govern doing business internationally. Not merely about compliance, this book emphasizes how to use the law to create value and competitive advantage. DiMatteo's transactional approach walks students through key business transactions—from import and export, contracts, and finance to countertrade, dispute resolution, licensing, and more—giving them both context and demonstrating real world application. This new edition also includes: New material on comparative contract and sales law & European private law; joint ventures and collaborative alliances. A new part on foreign direct investment that includes a chapter on emerging markets. New chapters on privacy law, and on environmental concerns. Greater coverage of the World Trade Organization. "Case highlights" and court opinions that feature edited court transcripts which expose students to actual legal reasoning and an understanding of the underlying legal principles. These decisions are drawn from a broad range of countries, offering a truly international look at the subject. Students of business law and international business courses will find DiMatteo's clear writing style easy to follow. A companion web site includes an instructor's manual, PowerPoints, and other tools to provide additional support for students and instructors.

European Corporate Law

Kluwer Law International B.V. This fully updated new edition provides an overview of the law regarding companies, business organizations, and capital markets in Europe, at both the European Union (EU) and Member State levels. It introduces the reader to the EU harmonization programme and describes how this has influenced corporate law in the various EU Member States. The authors describe common denominators as well as differences in the approach of national corporate laws. The authors highlight current and emerging trends in these areas of corporate law, including: the freedom of establishment of companies within the EU; the European harmonization process and Member States' implementation of EU legislation; employee involvement in business organizations; the division of power between the different corporate bodies; the functioning and regulation of company groups; and cross-border business combinations, takeovers and restructuring tools. The laws of France, Germany and the Netherlands in particular are discussed and contrasted. This discussion also includes the United Kingdom, although no longer an EU Member State. As in earlier editions, the authors demonstrate that analysis and comparison of national corporate laws yield highly valuable general principles and observations, not least because business organizations,

wherever located, tend to show a fundamentally similar set of legal characteristics. The Fourth Edition will continue to be of great value to practitioners and academics who wish to acquire a better understanding of European corporate law, in its supranational dimension as well as in the similarities and differences among the various national legal systems. It can also be used as a handbook for comparative corporate law courses.

Towards a Sustainable European Company Law

A Normative Analysis of the Objectives of EU Law, with the Takeover Directive as a Test Case

Kluwer Law International B.V. No one doubts any longer that sustainable development is a normative imperative. Yet there is unmistakably a great reluctance to acknowledge any legal basis upon which companies are obliged to forgo 'shareholder value' when such a policy clearly dilutes responsibility for company action in the face of continuing environmental degradation. Here is a book that boldly says: 'Shareholder primacy' is wrong. Such a narrow, short-term focus, the author shows, works against the achievement of the overarching societal goals of European law itself. The core role of EU company and securities law is to promote economic development, notably through the facilitation of market integration, while its contributory role is to further sustainable development through facilitation of the integration of economic and social development and environmental protection. There is a clear legal basis in European law to overturn the poorly substantiated theory of a 'market for corporate control' as a theoretical and ideological basis when enacting company law. With rigorous and persuasive research and analysis, this book demonstrates that: European companies should have legal obligations beyond the maximization of profit for shareholders; human and environmental interests may and should be engaged with in the realm of company law; and company law has a crucial role in furthering sustainable development. As a test case, the author offers an in-depth analysis of the Takeover Directive, showing that it neither promotes economic development nor furthers the integration of the economic, social and environmental interests that the principle of sustainable development requires. This book goes to the very core of the ongoing debate on the function and future of European company law. Surprisingly, it does not make an argument in favour of changing EU law, but shows that we can take a great leap

forward from where we are. For this powerful insight - and the innumerable recognitions that support it - this book is a timely and exciting new resource for lawyers and academics in 'both camps' those on the activist side of the issue, and those with company or official policymaking responsibilities.

Customs Law of the European Union

Kluwer Law International B.V. Today, global competition obliges companies dealing in international trade to modernize their procedures of delivery in order to minimize the customs burden and simplify the relation with customs authorities. Customs planning is the current option to be effective in the worldwide marketplace. However, customs officials are facing new challenges: they must ensure the smooth flow of trade while applying necessary controls on the one hand, while protecting the health and safety of the Community's citizens on the other. To achieve and maintain the correct balance between these demands, control methods are constantly evolving raising major challenges to those charged with planning and compliance. This book is a highly practical work dealing with the ins and outs of European Union (EU) customs law. Cases of study, jurisprudence and comparative law support the analysis of the different legal tools. The consolidated principles ruling the transactions within WTO Member States applied in EU law offer the readers the opportunity to understand how customs rules can be applied in any customs jurisdiction. Authored by an international tax lawyer with extensive experience enforcing EU customs law as a former member of Italy's financial police, this handy resource is designed to help the reader stay in compliance with the laws controlling EU importing and exporting while structuring transactions in a business-friendly manner.

Mixed Legal Systems in Comparative Perspective Property and Obligations in Scotland and South Africa

Oxford University Press on Demand Placed uniquely at the intersection of common law and civil law mixed legal systems attract the attention both of scholars of comparative law, and of those concerned with the development of a European private law. Pre-eminent among these are Scotland and

South Africa - compared in this book.

Sustainable Public Procurement Under EU Law

New Perspectives on the State as Stakeholder

Collective Actions in Europe

A Comparative, Economic and Transsystemic Analysis

Springer Nature This open access book offers an analytical presentation of how Europe has created its own version of collective actions. In the last three decades, Europe has seen a remarkable proliferation of collective action legislation, making class actions the most successful export product of the American legal scholarship. While its spread has been surrounded by distrust and suspiciousness, today more than half of the EU Member States have introduced collective actions for damages and from those who did, more than half chose, to some extent, the opt-out system. This book demonstrates why collective actions have been felt needed from the perspective of access to justice and effectiveness of law, the European debate and the deep layers of the European reaction and resistance, revealing how the Copernican turn of class actions questions the fundamentals of the European thinking about market and public interest. Using a transsystemic presentation of the European national models, it analyzes the way collective actions were accommodated with the European regulatory environment, the novel and peculiar regulatory questions they had to address and how and why they work differently on this side of the Atlantic.

The Efficiency of the Transparency Directive and its Amending Directive 2013/50/EU (TDAD) with the Financial Disclosure Regulation

GRIN Verlag Submitted Assignment from the year 2016 in the subject Business economics - Accounting and Taxes, grade: 72.00, School of Oriental and African Studies, University of London (CEFIMS), language: English, abstract: Public disclosure of some of a company's financial affairs is an important requirement of a limited liability company. In this assignment, we will consider either the Transparency Directive and the Transparency Directive Amending Directive 2013/50/EU (TDAD) of the European Union has proven efficient in setting up the disclosure requirements regarding the financial information and distribution within the European Union, and in keeping with the rationale and objectives of financial disclosure regulation.

Comparative Company Law A Case-Based Approach

Bloomsbury Publishing As attention moves rapidly towards comparative approaches, the research and teaching of company law has somehow lagged behind. The overall purpose of this book is therefore to fill a gap in the literature by identifying whether conceptual differences between countries exist. Rather than concentrate on whether the institutional structure of the corporation varies across jurisdictions, the objective of this book will be pursued by focusing on specific cases and how different countries might treat each of these cases. The book also has a public policy dimension, because the existence or absence of differences may lead to the question of whether formal harmonisation of company law is necessary. The book covers 10 legal systems. With respect to countries of the European Union, it focuses on the most populous countries (Germany, France, the UK, Spain, Italy and Poland) as well as two smaller Member States (Finland and Latvia). In addition, the laws of two of the world's largest economies (the US and Japan) are included for the purposes of wider comparison. All of these jurisdictions are subjected to scrutiny by deploying a comparative case-based study. On the basis of these case solutions, various conclusions are reached, some of which challenge established orthodoxies in the field of comparative company law.

Principles, Definitions and Model Rules of European Private Law Draft Common Frame of Reference (DCFR)

sellier. european law publ. In this volume, the Study Group and the Acquis Group present the first academic Draft of a Common Frame of Reference (DCFR). The Draft is based in part on a revised version of the Principles of European Contract Law (PECL) and contains Principles, Definitions and Model Rules of European Private Law in an interim outline edition. It covers the books on contracts and other juridical acts, obligations and corresponding rights, certain specific contracts, and non-contractual obligations. One purpose of the text is to provide material for a possible "political" Common Frame of Reference (CFR) which was called for by the European Commission's Action Plan on a More Coherent European Contract Law of January 2003.

European Corporate Law Article-by-Article Commentary

Nomos Verlag Die europäischen Richtlinien zum Gesellschaftsrecht haben zum Ziel, die Wettbewerbsfähigkeit von Unternehmen innerhalb der EU vergleichbar auszugestalten, Aktionäre sowie andere Wettbewerbersteilnehmende effektiv zu schützen und den Binnen- und Außenhandel zu erleichtern und abzusichern. Der neue Kommentar bietet eine fundierte Expertenanalyse zu allen rechtlichen Fragen rund um das EU-Gesellschaftsrecht. Praxisnah dargestellt, untersuchen die Autorinnen und Autoren Artikel für Artikel die folgenden europäischen Richtlinien: Richtlinie über bestimmte Aspekte des Gesellschaftsrechts (2017/1132/EU), einschließlich - Publizität (frühere Publizitätsrichtlinie 2009/101/EG) - Zweigniederlassungen (frühere Zweigniederlassungsrichtlinie 89/666/EWG) - Kapitalschutz und Kapitaländerung (frühere Kapitalrichtlinie 2012/30/EU) - Verschmelzung national und grenzüberschreitend (frühere Fusionsrichtlinie 2011/35/EU und frühere Verschmelzungs-Richtlinie 2005/56/EG) - Spaltung national und grenzüberschreitend (frühere Spaltungsrichtlinie 82/891/EWG) - Formwechsel grenzüberschreitend Bilanzrichtlinie (2013/34/EU) und Abschlussprüferrichtlinie (2006/43/EG) Richtlinie über Einzelunternehmen mit beschränkter Haftung (2009/102/EG) Richtlinie über Übernahmeangebote (2004/25/EG) Aktionärsrechterichtlinie

(2007/36/EG) Damit bietet der Kommentar für Gesellschaftsrechtler, Unternehmensjuristen, Anwaltskanzleien und alle grenzüberschreitend agierenden Unternehmen eine unentbehrliche Hilfe. The Anatomy of Corporate Law

A Comparative and Functional Approach

Oxford University Press Businesses using the corporate form give rise to three basic types of agency problems: those between managers and shareholders as a class; controlling shareholders and minority shareholders; and shareholders as a class and other corporate constituencies, such as corporate creditors and employees. After identifying the common set of legal strategies used to address these agency problems and discussing their interaction with enforcement institutions, *The Anatomy of Corporate Law* illustrates how a number of core jurisdictions around the world deploy such strategies. In so doing, the book highlights the many commonalities across jurisdictions and reflects on the reasons why they may differ on specific issues. The analysis covers the basic governance structure of the corporation, including the powers of the board of directors and the shareholder meeting, both when management and when a dominant shareholder is in control.

Innovation and EU competition law -

a trade-off? The next generation Broadband Network in Germany from a legal and economic perspective

GRIN Verlag Seminar paper from the year 2007 in the subject Politics - International Politics - Topic: European Union, grade: 1,5, University of Twente (School of Management and Governance), course: European Economic Policies, 17 entries in the bibliography, language: English, abstract: Broadband development is considered to be central to economic growth in a knowledge-based economy. In Germany, the market leader (Deutsche Telekom) on the telecommunication market recently installed a "next generation" high-speed network (so called VDSL), which is able to transfer phone calls, internet and TV through only one pair of wire to the consumer. The company invested more than 3 Billion Euro. Due to these enormous costs, it claimed to be allowed to refuse competitors access to its new network. If those competitors would be allowed to use the new network, Telekom threatened to stop all investments into this technology, as it would not be profitable. The German Government followed the claim by adopting a new law in December 2006, which was often said to be a "lex Telekom" and guarantees "regulatory holidays" for the new network. The European Commission argues that the protection of a new technology against competitors is against EU competition law and opened a procedure against the German government on the same day. The question is, whether the strict EU competition law in this case prevents innovation. Starting with the liberalization of the telecommunication market in 1988, the policies of the European Union can be called a "success story". From state-run monopolies and imperfect competitive conditions with high barriers for new firms to enter the market, the situation has changed dramatically until today: A number of new companies entered the market, prices decreased significantly, and the traditional state-run monopolies lost market shares. Where those monopoly-like situations remain, the EU aims to prevent operators from abusing market power to harm consumers or impede competitors. At the same time, the EU wants to facilitate widespread deployment of new and innovative technologies. Under the heading "i2010", the digital economy component of the renewed Lisbon strategy, the greater use of telecommunication technologies is said to boost productivity throughout Europe, and generate new services and create jobs. To realize the conditions for a flourishing ecommunications environment, the EU has established a detailed regulatory policy. The so-called "Article 7 procedure" allows national Regulatory Authorities to put

obligations on companies with significant market power, whenever a persistent market failure occurs. [...]

Houston Journal of International Law

Standing Up for Your Right(s) in Europe

A Comparative Study on Legal Standing (Locus Standi) Before the EU and Member States' Courts

Intersentia Uitgevers N V "The aim of this study is to provide an in-depth and objective comparative analysis of legal provisions, doctrine and case-law on locus standi before civil, criminal and administrative courts of selected legal systems, and before the EU courts. This analysis serves as the basis for several recommendations in this area" -- Editor.

International Handbook on Shareholders' Agreements Regulation, Practice and Comparative Analysis

Walter de Gruyter GmbH & Co KG Shareholders' Agreements have a growing influence on the general understanding of corporate law since they bind not only the shareholders but also affect the constitution of the corporation and can have a severe impact on capital markets. Therefore, Shareholders' Agreements are more and more subject to regulation in corporate, capital market and also insolvency law on the national, the European and the international level. This handbook provides a general examination of conceptual questions of Shareholders' Agreements and provides an analysis of the regulation of Shareholders' Agreements in European and international law and of the national law of more than 20 jurisdictions. Readers will get a general understanding of the theoretical

and practical problems involved with Shareholders' Agreements and detailed information on the regulation of Shareholders' Agreements in several jurisdictions and the applicable law in the case of transnational corporations and cross-border transactions.

National Constitutions in European and Global Governance: Democracy, Rights, the Rule of Law National Reports

Springer This two-volume book, published open access, brings together leading scholars of constitutional law from twenty-nine European countries to revisit the role of national constitutions at a time when decision-making has increasingly shifted to the European and transnational level. It offers important insights into three areas. First, it explores how constitutions reflect the transfer of powers from domestic to European and global institutions. Secondly, it revisits substantive constitutional values, such as the protection of constitutional rights, the rule of law, democratic participation and constitutional review, along with constitutional court judgments that tackle the protection of these rights and values in the transnational context, e.g. with regard to the Data Retention Directive, the European Arrest Warrant, the ESM Treaty, and EU and IMF austerity measures. The responsiveness of the ECJ regarding the above rights and values, along with the standard of protection, is also assessed. Thirdly, challenges in the context of global governance in relation to judicial review, democratic control and accountability are examined. On a broader level, the contributors were also invited to reflect on what has increasingly been described as the erosion or 'twilight' of constitutionalism, or a shift to a thin version of the rule of law, democracy and judicial review in the context of Europeanisation and globalisation processes. The national reports are complemented by a separately published comparative study, which identifies a number of broader trends and challenges that are shared across several Member States and warrant wider discussion. The research for this publication and the comparative study were carried out within the framework of the ERC-funded project 'The Role and Future of National Constitutions in European and Global Governance'. The book is aimed at scholars, researchers, judges and legal advisors working on the interface between national constitutional law and EU and transnational law. The extradition cases are also of interest to scholars and practitioners in the field of criminal law. Anneli Albi is Professor of European Law at the University of Kent, United Kingdom. Samo Bardutzky is Assistant Professor

of Constitutional Law at the University of Ljubljana, Slovenia.

The Principle of Loyalty in EU Law

OUP Oxford This is an open access title available under the terms of a CC BY-NC-ND 3.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Despite its seemingly innocuous wording, in what is now Article 4 (3) TEU, the principle of loyalty has had a significant impact in deepening the reach of EU law within the Member States. The duty of sincere cooperation has been interpreted strongly by the European Courts as imposing serious duties on States to give strong effect to European legal acts. The principle has been central to the development of Union law since the 1960s, and is still being relied on by the European Court of Justice to often-controversial effect. Providing a thorough discussion of the principle of loyalty in EU law, this book introduces a novel classification of the very diverse roles loyalty plays in the EU. It distinguishes between the effects loyalty prescribes for interlocking the legal orders of the Member States with Union law, its application in preventing and resolving conflicts between the Union and the Member States, and the loyalty principle's role in the shaping of EU law. It addresses important and yet unresolved questions pertaining to loyalty, such as its relation to the principles of solidarity, pre-emption, the Union interest, institutional balance, and the unity of international representation. The book explains why loyalty has been neglected in the prevailing narratives about the foundational case law of the European Court of Justice, and highlights its central importance to understanding EU public law.

Comparative Company Law

A Case-Based Approach

Hart Publishing As attention moves rapidly towards comparative approaches, the research and teaching of company law has somehow lagged behind. The overall purpose of this book is therefore to fill a gap in the literature by identifying whether conceptual differences between countries exist. Rather than concentrate on whether the institutional

structure of the corporation varies across jurisdictions, the objective of this book will be pursued by focusing on specific cases and how different countries might treat each of these cases. The book also has a public policy dimension, because the existence or absence of differences may lead to the question of whether formal harmonisation of company law is necessary. The book covers 10 legal systems. With respect to countries of the European Union, it focuses on the most populous countries (Germany, France, the UK, Spain, Italy and Poland) as well as two smaller Member States (Finland and Latvia). In addition, the laws of two of the world's largest economies (the US and Japan) are included for the purposes of wider comparison. All of these jurisdictions are subjected to scrutiny by deploying a comparative case-based study. On the basis of these case solutions, various conclusions are reached, some of which challenge established orthodoxies in the field of comparative company law.

European Company Law in Accelerated Progress

Kluwer Law International B.V. As a penetrating evaluation of the EU's capability to improve its corporate regulatory infrastructure and thereby attract more investors and business activities within its territory as a whole, this book offers insights to those interested in the field, from economic policymakers at every level of government to business persons and their counsel.

The Dynamics of Corporate Social Responsibilities

BRILL This book proposes that the responsible business practices of leading companies are significant not only as isolated instances of self-regulation, but that they also contribute to a broader rule-making process which has been underway in the last decade and is aimed at making business more responsive to human rights and environmental concerns. The flexibility of existing laws as well as the emergence of new regulations relevant to corporate social responsibility (CSR) are highlighted. As CSR increasingly interacts with public policy, some insufficiently understood effects of CSR appear that can help us advance toward more systemic solutions in the business and human rights area. This study identifies variables that states can stimulate through a wide range of interventions ranging from capacity-building measures to policy to hard law so that responsible practices get diffused more broadly and deeply in the business community. The intended audiences are legal experts with an interest in enhancing the protection of human rights in developing countries, and CSR

theorists and practitioners mindful of the broader social dynamics that surround the implementation of CSR commitments.

Comparative Company Law

Text and Cases on the Laws

Governing Corporations in

Germany, the UK and the USA

Cambridge University Press Presents in-depth, comparative analyses of German, UK and US company laws illustrated by leading cases, with German cases in English translation.

Comparative Corporate Governance

Legal Perspectives

Edward Elgar Publishing Comparative Corporate Governance considers the effects of globalization on corporate governance issues and highlights how, despite these widespread consequences, predictions of legal convergence have not come true. By adopting a comparative legal approach, this book explores the disparity between convergence attempts and the persistence of local models of governance in the US, Europe and Asia.

General Reports of the XIXth

Congress of the International

Academy of Comparative Law

Rapports Généraux du XIXème

Congrès de l'Académie

Internationale de Droit Comparé

Springer This book deals with convergences of legal doctrine despite jurisdictional, cultural, and political barriers, and of divergences due to such barriers, examining topics that are of vital importance to contemporary legal scholars. Written by leading scholars from more than

twenty countries, its thirty-two chapters present a comparative analysis of cutting-edge legal topics of the 21st century. While each of the countries covered stands alone as a sovereign state, in a technologically advanced world their disparate systems nonetheless show comparable strategies in dealing with complex legal issues. The book is a critical addition to the library of any scholar hoping to keep abreast of the major trends in contemporary law. It covers a vast area of topics that are dealt with from a comparative point of view and represents the current state of law in each area.

Corporate Governance and Development

Reform, Financial Systems and Legal Frameworks

Edward Elgar Publishing This book analyses the complex relationship between corporate governance and economic development by focusing on the reform of corporate governance, the role of the legal system, and the interconnections with the financial system. Corporate governance has a central role to play in helping to increase the flow and lower the cost of the financial capital that firms need to finance their investment activity. The importance of this role has grown considerably in recent years, and the findings of this book emphasize that the standard of corporate governance matters significantly for developing countries. The editors rediscover that improved corporate governance can contribute to sustained productivity growth and stability of institutions. This timely and insightful book offers a one-stop reference guide for practitioners, academics, researchers, donor agencies and those who are interested in understanding the multi-dimensional and interdisciplinary aspects of corporate governance.

Legal Sources in Business and Human Rights

Evolving Dynamics in International and European Law

BRILL *Legal Sources in Business and Human Rights* takes stock of different aspects of Business and Human Rights practice in order to identify and explore some dynamics that are driving the evolution of the legal sources of international and EU law in the field of B&HRs.

European Yearbook of International Economic Law 2020

Springer Nature

EU Citizens' Economic Rights in Action

Re-Thinking Legal and Factual Barriers in the Internal Market

Edward Elgar Publishing Ever since its inception, one of the essential tasks of the EU has been to establish the internal market. Despite the impressive body of case law and legislation regarding the internal market, legal and factual barriers still exist for citizens seeking to exercise their full rights under EU law. This book analyses these barriers, and proposes ways in which they may be overcome. Next to analysing the key barriers to exercising economic rights more generally, this book focuses on three areas which represent the applications of the four basic freedoms: consumer rights, the rights of professionals in gaining access to the market, and intellectual property rights in the Digital Single Market. With chapters from leading researchers, the main pathways towards the reduction and removal of these barriers are considered. Taking into account important factors such as the global financial crisis, as well as practical barriers, such as multilingualism, the solutions provided in this book provide a pathway to enhance cross border realisation of European citizens' access to the realisation of their economic rights, as well as increase in the cultural richness of the EU. **EU Citizens' Economic Rights In Action** is an important book, which will be an essential resource for students of EU citizenship, and economics, as well as for EU policymakers and practitioners interested in the field.

International Antitrust Law & Policy: Fordham Corporate Law 2002

Juris Publishing, Inc. This volume contains articles and panel discussions delivered during the Thirty-Ninth Annual Fordham Competition Law Institute Conference on International Antitrust Law & Policy. **About the Proceedings:** Every October the Fordham Competition Law Institute brings

together leading figures from governmental organizations, leading international law firms and corporations and academia to examine and analyze the most important issues in international antitrust and trade policy of the United States, the EU and the world. This work is the most definitive and comprehensive annual analysis of international antitrust law and policy available anywhere. The chapters are revised and updated before publication, where necessary. As a result, the reader receives up-to-date practical tips and important analyses of difficult policy issues. The annual volumes are an indispensable guide through the sea of international antitrust law. The Fordham Competition Law Proceedings are acknowledged as simply the most definitive US/EC annual analyses of antitrust/competition law published. Each annual edition sets out to explore and analyze the areas of antitrust/competition law that have had the most impact in that year. Recent "hot topics" include antitrust enforcement in Asia, Latin America: competition enforcement in the areas of telecommunications, media and information technology. All of the chapters raise questions of policy or discuss new developments and assess their significance and impact on antitrust and trade policy.

The Illusion of Accountability in the European Union

Routledge This book examines accountability in the EU from different perspectives and considers whether EU citizens have real opportunities for holding decision-makers accountable. This book critically analyses five arguments which claim there are sufficient means for holding decision-makers to account in the Union. The main conclusion is that the current institutional set-up and practice of decision-making in the EU is one that merely creates an illusion of accountability. Using a strict framework focusing on the difference between formal mechanisms and actual opportunities for accountability, this highly coherent volume will be of interest to students and scholars of European politics, especially those interested in the democratic foundations of the European political system. Chapter 1 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license.

Business Development and

Economic Governance in Southeastern Europe

13th International Conference on the Economies of the Balkan and Eastern European Countries (EBEEC), Pafos, Cyprus, 2021

Springer Nature This book addresses contemporary and modern topics around business growth and economic development in Southeastern Europe. It covers a wide range of business issues focusing on the adoption of new technologies, finance of SMEs, place marketing, value co-creation, contribution to economic growth, and internationalization. Moreover, it sheds new light on the micro- and macroeconomic developments and monetary policy issues in the Eastern European and Balkan countries. This book is a useful tool for scholars in economics and finance interested in the further economic development of the Balkans and Eastern European countries as well as to professionals in the business, financial and insurance sectors.

A Global View of Business Insolvency Systems

Martinus Nijhoff Publishers We live in an age of economic turmoil. The recent crises emphasize the need for modern, sophisticated rules to govern businesses in financial distress in order to realize value from distressed companies and to protect economic institutions. This book provides information for legislators, policymakers, lawyers, accountants, academics, and administrators who seek to understand the workings of insolvency laws. Guided by the World Bank's Principles and Guidelines, it supplements the work in this field done by UNCITRAL.

The Comparative Law Yearbook of

International Business:

Kluwer Law International B.V. In this thirty-eighth volume of the **Comparative Law Yearbook of International Business**, once again practitioners and experts in a variety of legal fields examine issues from national and regional perspectives. Authors from Germany, Japan, Nigeria, and Poland deal with issues relating to data protection and privacy. Investment and infrastructure topics are examined by authors from Brazil, Colombia, Greece, and the United States. Subjects ranging from corporate responsibility, patent infringement litigation, and credit portfolio transfers to medical and family leave, food and beverage product representations, and distribution agreements are treated by authors from Belgium, Hungary, Ireland, Japan, Latvia, and the United States.

Doing Business 2019
