Everything would be wonderful if it wasn't for her impossible neighbor, Jack Walker, who argues day and night with his girlfriend . . . and whose cat, Dog, is determined to get Cleo to succumb to his feline advances. And when Lacey discovers that Cleo's in the family way, she's furious that neither Jack nor his amorous animal seems terribly upset about it. But things aren't always what they appear. And out of the blue, Lacey is discovering the tender joy of falling in love all over again.* **The Key Of The Mysteries** Jazzybee Verlag *This volume represents the high-water mark of the thought of Eliphas Levi. It may be regarded as written by him as his Thesis for the Grade of Exempt Adept, just as his "Ritual and Dogma" was his Thesis for the grade of a Major Adept. He is, in fact, no longer talking of things as if their sense was fixed and universal. He is beginning to see something of the contradiction inherent in the nature of things, or at any rate, he constantly illustrates the fact that the planes are to be kept separate for practical purposes, although in the final analysis they turn out to be one. This, and the extraordinarily subtle and delicate irony of which Eliphas Levi is one of the greatest masters that has ever lived, have baffled the pedantry and stupidity of such commentators as Waite.* **Paradoxes of the Highest Science The Classic Tale of Mr. Jeremy Fisher** A frog fishing from his lily pad boat doesn't catch any fish, but one catches him. **Portraits & Sculptures** Sébastien de Ganay's almost life-sized full body portraits consist of his trademark folds of plastic that literally create waves of relief--there is a balanced push-pull, background-foreground figure effect that is supported by the luminous white void on which all the figures float. They sometimes read as sculptures. On the other hand, the walls, cubes, cylinders and circles of de Ganay's sculptures, with their bright car-paint monochromes and curved or straight geometric picture planes, foreground their viewers almost like the figures in his portraits against their white voids. They sometimes read as paintings. This comprehensive full-color volume of de Ganay's portraits and sculptures includes an essay on his work, as well as an interview with the artist. **Bondage for Sex** BdsM Press Chanta Rose teaches readers everything they need to know about bondage and rope tying to increase their pleasure in bondage sex without having to hop on a plane to San Francisco to take her standing-room only classes. **The Physics of Wall Street A Brief History of Predicting the Unpredictable** Houghton Mifflin Harcourt A Harvard scholar argues that mathematical models can provide solutions to current economic challenges, explaining that the economic meltdown of 2008 was based on a misunderstanding of scientific models rather than on the models themselves. **The Practice Absite Question Book** Hancock Surgical Consultants Llc *From the author of The ABSITE Review.
