TEACHING IN NURSING E-BOOK

A GUIDE FOR FACULTY

Elsevier Health Sciences *The perfect all-in-one guide for future nurse educators! The award-winning Teaching in Nursing: A Guide for Faculty, 6th Edition prepares you for the day-to-day challenges of teaching future nurses for practice in today's rapidly evolving healthcare system. This comprehensive resource is the only one of its kind to cover all four components of nursing education: teaching and learning, curriculum, evaluation, and technology-empowered learning. You'll benefit from the expert guidance on such key issues as curriculum and test development, diverse learning styles, the redesign of healthcare systems, and advances in technology and information. Plus, the 6th edition includes a unique new chapter on Global Health and Curricular Experiences along with updated information on technology-empowered learning, the flipped classroom, interprofessional education, interprofessional collaborative practice, and much more. Comprehensively addresses all four components of nursing education including teaching and learning, curriculum, evaluation, and technology-empowered learning. Coverage of concept-based curricula includes strategies on how to approach and implement concept-based instruction. Pedagogical aids include Evidence-Based Teaching boxes, covering such issues as how to do evidence-based teaching; applications of evidence-based teaching; implications for faculty development, administration, and the institution; and how to use the open-ended application questions at the end of each chapter for faculty-guided discussion. Strategies to promote critical thinking and active learning are incorporated throughout the text, highlighting various evaluation techniques, lesson planning insights, and tips for developing examinations. Guidance on teaching in diverse settings addresses such topics as the models of clinical teaching, teaching in interdisciplinary settings, how to evaluate students in the clinical setting, and how to adapt teaching for community-based practice. Strong emphasis on teaching clinical judgment, new models of clinical education, and responding to needs for creating inclusive multicultural teaching-learning environments. NEW! Updated content throughout reflects the latest evidence-based guidelines for best practices in teaching and learning. NEW! UNIQUE chapter on Global Health and Curricular Experiences focuses on internationalization of the nursing curriculum with an emphasis on leading international learning experiences; policies, procedures, and guidelines for overseas study and global and health competencies for health professions programs. NEW! Enhanced pedagogy includes additional illustrations, tables, and boxes. NEW! Expanded interprofessional education chapter, provides you with strategies for effective teaching in an interprofessional healthcare environment.*

WORKSHOP ON LEARNING TECHNOLOGY FOR EDUCATION IN CLOUD (LTEC'12)

Springer Science & Business Media *Learning Technology for Education in Cloud investigates how cloud computing can be used to design applications to support real time on demand learning using technologies. The workshop proceedings provide opportunities for delegates to discuss the latest research in TEL (Technology Enhanced Learning) and its impacts for learners and institutions, using cloud. The Workshop on Learning Technology for Education in Cloud (LTEC '12) is a forum where researchers, educators and practitioners came together to discuss ideas, projects and lessons learned related to the use of learning technology in cloud, on the 11th-13th July at Salamanca in Spain.*

TEACHING ONLINE SIMPLIFIED: A QUICK GUIDE FOR INSTRUCTORS (UM PRESS)

The University of Malaya Press *The book "Teaching Online Simplified – A Quick Guide for Instructors" intended to serve as a practical guide or "handbook" for those who have limited or no prior knowledge in teaching and/or education but are interested in online teaching. It is also intended for: open university staff and lecturers who needs to teach online; lecturers who teach (or are planning to teach) online courses in higher education settings; lecturers who are interested to use technologies to support face-to-face teaching; and faculty professional development workshops and trainings. The book is written based on the authors' research-based experiences in consulting online instructors on what they needed and wanted to know about designing online courses. Authors also interviewed a*

group of online students to understand what they liked and disliked about the way their current courses were conducted, and what kind of improvements they wanted their online programs to include. Hence, this book focusing on the "how" and "whys", rather than theoretical discussions of teaching online. This book is a much-have resource for anyone involved in teaching online as it such as faculty members who want to convert his or her in-class course to an online format, and who are not necessarily familiar with current literature and/or do not have time to get acquainted with online teaching as it translates research-based knowledge in online education into simple strategies that can be easily adopted by teachers-practitioners.

MEASUREMENT AND EVALUATION FOR HEALTH EDUCATORS

Jones & Bartlett Publishers *Measurement and Evaluation for Health Educators prepares health educators for the responsibilities of conducting evaluations within their field. It includes psychometric, statistical, political, managerial and public health perspectives to measurement and evaluation. Written for the undergraduate or beginning graduate student, as well as practicing professions, this text will*

help readers choose and develop instruments for evaluation, and discusses the basics for carrying out evaluations to gauge the effectiveness of health education and health promotion programs. Measurement and Evaluation for Health Educators also delves into the basics of measurement, steps in instrument development; reliability assessment, validity assessment, measurement errors, process evaluation, designs for quantitative evaluation, and much more. Key Features: - Student-friendly, accessible writing style - Each chapter closes with review questions and web references - Chapter objectives and key learning objectives are clearly defined - Includes skill building activities in every chapter - Boxed articles throughout the text highlight important issues in the field

ARTIFICIAL INTELLIGENCE: ANTHROPOGENIC NATURE VS. SOCIAL ORIGIN

Springer Nature *This book presents advanced research studies on the topic of artificial intelligence as a component of social and economic relations and processes. It gathers research papers from the International Research-to-Practice Conference "The 21st Century from the Positions of Modern Science: Intellectual, Digital and Innovative Aspects" (May 23–24, 2019, Nizhny Novgorod, Russia) and the International Research-to-Practice Conference "Economics of Pleasure: a Science of Enjoying Economic Activities" (October 3–5, 2019, Prague, Czech Republic). Both conferences were organized by the Autonomous Non-Profit Organization "Institute of Scientific Communications" (Volgograd). What sets this book apart from other publications on the topic of artificial intelligence is that it approaches AI not as a technological tool, but as an economic entity. Bringing together papers by representatives of various fields of social and human knowledge, it systematically reflects on various economic, social, and legal aspects of the creation, application, and development of artificial intelligence. Given the multidisciplinary nature of its content, the book will appeal to a broad target audience, including those engaged in developing AI (scientific research institutes and universities), and Industry 4.0 enterprises interested in its implementation, as well as state regulators for the digital economy.*

COMP-INFORMATION TECHNOLOGY-TB-10-R

New Saraswati House India Pvt Ltd *Comp-Information Technology-TB-10-R*

SARASWATI INFORMATION TECHNOLOGY (VOCATIONAL COURSE)

Saraswati House Pvt Ltd *Saraswati Information Technology Series for Classes IX and X is a complete resource for study and practice written in simple, easy-to-understand language. Designed to meet student's needs, it provides sound practice through a wide variety of solved and unsolved exercises based on the latest examination pattern. The series covers the complete syllabus laid down by CBSE.*

SALES AND USE TAX ANSWER BOOK (2009)

CCH *The Sales and Use Tax Answer Book is the key reference source for which practitioners have been searching. Not only is it comprehensive and clear; it also provides extensive citation to important case and statutory law. Forty-five states and the District of Columbia impose a sales tax on the retail sale of tangible personal property and selected services. In addition, there are 7,500 cities, municipalities, towns, school districts, counties, and other special taxing districts that levy sales and use taxes. The varying rates, the changing jurisdictional boundaries, the different tax bases, and the often inconsistent and contradictory interpretations of similarly worded statutes are all covered. The book also includes a chapter on sales tax reforms, particularly the Streamlined Sales Tax Project.*

CODE OF FEDERAL REGULATIONS

CONTAINING A CODIFICATION OF DOCUMENTS OF GENERAL APPLICABILITY AND FUTURE EFFECT AS OF DECEMBER 31, 1948, WITH ANCILLARIES AND INDEX
