**The Politics of the Canoe** [Univ. of Manitoba Press](#) Popularly thought of as a recreational vehicle and one of the key ingredients of an ideal wilderness getaway, the canoe is also a political vessel. A potent symbol and practice of Indigenous cultures and traditions, the canoe has also been adopted to assert conservation ideals, feminist empowerment, citizenship practices, and multicultural goals. Documenting many of these various uses, this book asserts that the canoe is not merely a matter of leisure and pleasure; it is folded into many facets of our political life. Taking a critical stance on the canoe, **The Politics of the Canoe** expands and enlarges the stories that we tell about the canoe's relationship to, for example, colonialism, nationalism, environmentalism, and resource politics. To think about the canoe as a political vessel is to recognize how intertwined canoes are in the public life, governance, authority, social conditions, and ideologies of particular cultures, nations, and states. Almost everywhere we turn, and any way we look at it, the canoe both affects and is affected by complex political and cultural histories. Across Canada and the U.S., canoeing cultures have been born of activism and resistance as much as of adherence to the mythologies of wilderness and nation building. The essays in this volume show that canoes can enhance how we engage with and interpret not only our physical environments, but also our histories and present-day societies. **Painter 8 Creativity Digital Artist's Handbook** [Gulf Professional Publishing](#) This comprehensive, full-color guide to Corel Painter 8 software helps artists to paint digitally on their computer. Then, follow instructions for crafting the flowers to arrange and display in vases and pots and as bouquets and wreaths. **The Bark Canoes and Skin Boats of North America** [Smithsonian Institution](#) The bark canoes of the North American Indians, particularly those of birchbark, were among the most highly developed manually propelled primitive watercraft. They could be used to carry heavy loads in shallow streams but were light enough to be hauled long distances over land. Built with Stone Age tools from available materials, their design, size, and appearance were varied to suit the many requirements of their users. Upon arrival in North America, European settlers began using the native-made craft for traveling through the wilderness. Even today, canoes are based on these ancient designs. This fascinating guide combines historical background with instructions for constructing one. Author Edwin Tappan Adney, born in 1868, devoted his life to studying canoes and was practically the sole scholar in his field. His papers and research have been assembled by a curator at the Smithsonian Institution, and illustrated with black-and-white line drawings, diagrams, and photos. Included here are measurements, detailed drawings, construction methods, and models. The book covers canoes from Newfoundland to the Pacific Ocean, as well as umiaks and kayaks from the Arctic. **Natural Resources Management: Concepts, Methodologies, Tools, and Applications** [IGI Global](#) The perseverance of our natural environment has become a critical objective of environmental scientists, business owners, and citizens alike. The book traces the picaresque adventures of the guileless Candide, who is forced into the army, flogged, shipwrecked, betrayed, robbed, separated from his beloved Cunegonde, tortured by the Inquisition, et cetera, all without losing his resilience and will to live and pursue a happy life. This Modern Library edition, published to celebrate the seventy-fifth anniversary of *Random House*, is a facsimile of the first book ever released under the *Random House* colophon. It includes the timeless illustrations by Rockwell Kent, a twentieth-century artist whose wit and genius serve as a counterpart and compliment to Voltaire's. **The Stranger** [Vintage](#) With the intrigue of a psychological thriller, Camus's masterpiece gives us the story of an ordinary man unwittingly drawn into a senseless murder on an Algerian beach. One night, Itzel takes Max to an ancient cacao tree tended in secret deep in the jungle by an elite group of Elders. Neither Max nor Itzel are prepared for the forces they unleash when they open the pods of the sacred tree, forces that turn everything they know about the history of cacao upside down, threaten the past and future of the world's most desirable food, and, worse still, awaken two mythic beasts guarding the very DNA of cacao. **The Complete Book of Intelligence Tests 500 Exercises to Improve, Upgrade and Enhance Your Mind Strength** [John Wiley & Sons](#) Enjoyable mental exercises to help boost performance on IQ tests This engaging book offers readers the ultimate in calisthenics for the brain. Originally written as a manual for self-instruction, "Scouting for Boys" details many important scouting skills including scoutcraft, tracking, woodcraft, camping, and first-aid. Baden-Powell's work is a rework of his earlier "Aids to Scouting", published in 1899, and borrows many ideas from Ernest Thompson Seton's "The Birch Bark Roll of the Woodcraft Indians", published in 1906. "Scouting for Boys" includes numerous tales that can be told around the campfire, as well as many of Baden-Powell's personal anecdotes, and opinions on proper moral character of boy scouts. While some of

the information in this work may seem outdated and some of the moralizing many seem antiquated to modern readers, "Scouting for Boys" remains an important historical work in the scouting movement. Having sold millions of copies since its first publication, the impact Baden-Powell's "Scouting for Boys" as well as his personal advocacy for the scouting movement cannot be overstated. This edition is printed on premium acid-free paper. The Worlding Project Doing Cultural Studies in the Era of Globalization [North Atlantic Books](#) Globalization discourse now presumes that the "world space" is entirely at the mercy of market norms and forms promulgated by reactionary U.S. policies. An academic but accessible set of studies, this wide range of essays by noted scholars challenges this paradigm with diverse and strong arguments. Taking on topics that range from the medieval Mediterranean to contemporary Jamaican music, from Hong Kong martial arts cinema to Taiwanese politics, writers such as David Palumbo-Liu, Meaghan Morris, James Clifford, and others use innovative cultural studies to challenge the globalization narrative with a new and trenchant tactic called "worlding." The book posits that world literature, cultural studies, and disciplinary practices must be "worlded" into expressions from disparate critical angles of vision, multiple frameworks, and field practices as yet emerging or unidentified. This opens up a major rethinking of historical "givens" from Rob Wilson's reinvention of "The White Surfer Dude" to Sharon Kinoshita's "Deprovincializing the Middle Ages." Building on the work of cultural critics like Edward Said, Gayatri Spivak, and Kenneth Burke, The Worlding Project is an important manifesto that aims to redefine the aesthetics and politics of postcolonial globalization with alternative forms and frames of global becoming. For the skilled woodworker, the opportunity to experiment with design and technique and thereby create a tailor-made product that perfectly suits a paddler's needs is a dream come true. Favela Four Decades of Living on the Edge in Rio de Janeiro [Oxford University Press](#) Janice Perlman wrote the first in-depth account of life in the favelas, a book hailed as one of the most important works in global urban studies in the last 30 years. Now, in Favela, Perlman carries that story forward to the present. Re-interviewing many longtime favela residents whom she had first met in 1969--as well as their children and grandchildren--Perlman offers the only long-term perspective available on the favelados as they struggle for a better life. Perlman discovers that while educational levels have risen, democracy has replaced dictatorship, and material conditions have improved, many residents feel more marginalized than ever. The greatest change is the explosion of drug and arms trade and the high incidence of fatal violence that has resulted. Yet the greatest challenge of all is job creation--decent work for decent pay. If unemployment and under-paid employment are not addressed, she argues, all other efforts will fail to resolve the fundamental issues. Foreign Affairs praises Perlman for writing "with compassion, artistry, and intelligence, using stirring personal stories to illustrate larger points substantiated with statistical analysis." The State of World Fisheries and Aquaculture 2020 Sustainability in action [Food and Agriculture Organization of the United Nations](#) The 2020 edition of The State of World Fisheries and Aquaculture has a particular focus on sustainability. This reflects a number of specific considerations. First, 2020 marks the twenty-fifth anniversary of the Code of Conduct for Responsible Fisheries (the Code). Second, several Sustainable Development Goal indicators mature in 2020. Third, FAO hosted the International Symposium on Fisheries Sustainability in late 2019, and fourth, 2020 sees the finalization of specific FAO guidelines on sustainable aquaculture growth, and on social sustainability along value chains. While Part 1 retains the format of previous editions, the structure of the rest of the publication has been revised. Part 2 opens with a special section marking the twenty fifth anniversary of the Code. It also focuses on issues coming to the fore, in particular, those related to Sustainable Development Goal 14 and its indicators for which FAO is the "custodian" agency. In addition, Part 2 covers various aspects of fisheries and aquaculture sustainability. The topics discussed range widely, from data and information systems to ocean pollution, product legality, user rights and climate change adaptation. Part 3 now forms the final part of the publication, covering projections and emerging issues such as new technologies and aquaculture biosecurity. It concludes by outlining steps towards a new vision for capture fisheries. The State of World Fisheries and Aquaculture aims to provide objective, reliable and up-to-date information to a wide audience - policymakers, managers, scientists, stakeholders and indeed everyone interested in the fisheries and aquaculture sector. Pre-Incident Indicators of Terrorist Incidents The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct [DIANE Publishing](#) This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short. Nitinikiau Innusi I Keep the Land Alive [Univ. of Manitoba Press](#) Labrador Innu cultural and environmental activist Tshaukuesh Elizabeth Penashue is well-known both within and far beyond

the Innu Nation. The recipient of a National Aboriginal Achievement Award and an honorary doctorate from Memorial University, she has been a subject of documentary films, books, and numerous articles. She led the Innu campaign against NATO's low-level flying and bomb testing on Innu land during the 1980s and '90s, and was a key respondent in a landmark legal case in which the judge held that the Innu had the "colour of right" to occupy the Canadian Forces base in Goose Bay, Labrador. Over the past twenty years she has led walks and canoe trips in northern Labrador, "on the land," to teach people about Innu culture and knowledge. Nitinikiau Innusi: I Keep the Land Alive began as a diary written in Innu-aimun, in which Tshaukuesh recorded day-to-day experiences, court appearances, and interviews with reporters. Tshaukuesh has always had a strong sense of the importance of documenting what was happening to the Innu and their land. She also found keeping a diary therapeutic, and her writing evolved from brief notes into a detailed account of her own life and reflections on Innu land, culture, politics, and history. Beautifully illustrated, this work contains numerous images by professional photographers and journalists as well as archival photographs and others from Tshaukuesh's own collection.
