IBM Linear Tape File System Enterprise Edition V1.1.1.2: Installation and Configuration Guide

IBM Redbooks This IBM® Redbooks® publication helps you with the planning, installation, and configuration of the new IBM Linear Tape File System™ (LTFS) Enterprise Edition (EE) V1.1.1.2 for the IBM TS3310, IBM TS3500, and IBM TS4500 tape libraries. LTFS EE enables the use of LTFS for the policy management of tape as a storage tier in an IBM General Parallel File System (IBM GPFS™) based environment and helps encourage the use of tape as a critical tier in the storage environment. LTFS EE can run any application that is designed for disk files on tape. LTFS EE supports IBM Linear Tape-Open (LTO) Ultrium 6 and 5 tape drives in IBM TS3310, TS3500, and TS4500 tape libraries. IBM TS1140 and IBM TS1150 tape drives are supported in TS3500 and TS4500 tape libraries. LTFS EE can play a major role in reducing the cost of storage for data that does not need the access performance of primary disk. The use of LTFS EE to replace disks with tape in Tier 2 and Tier 3 storage can improve data access over other storage solutions because it improves efficiency and streamlines management for files on tape. LTFS EE simplifies the use of tape by making it transparent to the user and manageable by the administrator under a single infrastructure. This publication is intended for anyone who wants to understand more about LTFS EE planning and implementation. This book is suitable for IBM clients, IBM Business Partners, IBM specialist sales representatives, and technical specialists.

Circular Business Models in the Mobile Phone Industry

Nordic Council of Ministers *The circular economy offer opportunities to reduce resource use and waste whilst providing business opportunities. This is also true in the mobile phone industry that has been characterised by high rates of product obsolescence. The emergence of the smart phone has changed the landscape, making repair, refurbishment and resell attractive to businesses and consumers. Moreover, emerging modular phone design should allow functional upgrades with low resource wastage. This report investigates the adoption of circular business models within Nordic markets. Producers, retailers, refurbishers, recyclers and resellers tell of their motivation, experiences and the challenges that they face. A special look is taken at consumer and waste law and the challenges and opportunities they represent. The report ends with 17 policy proposals that can accelerate the adoption of circularity in the sector.*

A Guide to Forensic Accounting Investigation

John Wiley & Sons Today's demanding marketplace expects auditors to take responsibility for fraud detection, and this expectation is buoyed by such legislation as the Sarbanes-Oxley Act and the Auditing Standard (SAS99), which requires increased performance on the part of the auditor to find material financial statement fraud. Written by three of the best forensic accountants and auditors, Thomas W. Golden, Steven L. Skalak, and Mona M. Clayton, *The Auditor's Guide to Forensic Accounting Investigation* explores exactly what assurances auditors should provide and suggests alternatives to giving the capital markets more of what they are requiring-greater assurances that the financial statements they rely upon for investment decisions are free of material error, including fraud. It reveals the surprising complexity of fraud deterrence, detection, and investigation, and offers a step-by-step approach to understanding that complexity. From basic techniques to intricate tests and technologies, *The Auditor's Guide to Forensic Accounting Investigation* is a rich, multifaceted, and fascinating answer to the need for wiser, savvier, better-trained financial statement and internal auditors who are thoroughly familiar with fraud detection techniques and the intricate, demanding work of forensic accounting specialists.

An Introduction to Programming with IDL

Interactive Data Language

Elsevier In today's information age, scientists and engineers must quickly and efficiently analyze extremely large sets of data. One of the best tools to accomplish this is Interactive Data Language (IDL®), a programming and visualization environment that facilitates numerical modeling, data analysis, and image processing. IDL's high-level language and powerful graphics capabilities allow users to write more flexible programs much faster than is possible with other programming languages. *An Introduction to Programming with IDL* enables students new to programming, as well as those with experience in other programming languages, to rapidly harness IDL's capabilities: fast, interactive performance; array syntax; dynamic data typing; and built-in graphics. Each concept is illustrated with sample code, including many complete short programs. Margin notes throughout the text quickly point readers to the relevant sections of IDL manuals. End-of-chapter summaries and exercises help reinforce learning. Students who purchase the book are eligible for a substantial discount on a student version of the IDL software.

Calabria - Vibo Valentia

Digital Tourist Guide

Consorzio Turistico Calabria Vigorosa Vibo Valentia is the provincial capital city, which enjoys a geographical position of extraordinary attractive value with its port with a tourist and commercial vocation among the best equipped between Salerno and Reggio Calabria, with a harbor master's office which is among the largest in Italy; a city that has a rich ancient history, important memories, first of all needs to work on its vocations to grow and develop in harmony with the new social reality. For the landscape beauties and historical testimonies, Vibo Valentia is undoubtedly a city dedicated to tourism: cultural, archaeological, religious tourism that becomes a primary resource for our territory. The historic center of Vibo Valentia is a rich mix of churches, monuments and medieval, baroque and nineteenth-century buildings where it is difficult to distinguish where one era ends and where another begins and this is probably the characteristic in which its charm resides. In this perspective, the web-guide financed by the Calabria Region with POR funds 2007-2013, represents a modern and fast tool for getting historical-artistic-environmental news of our province that offers tourists the most beautiful coast of the region, a hill with landscapes breathtaking, a mountain that can offer tourists itineraries immersed in centuries-old woods, places of worship and ancient memories. An ideal place for a stay dedicated to art, culture and nature and taste. Maria Limardo (mayor)
