# File Type PDF Pdf Zimbabwe In Challenge The Meeting Policy Transport Poor Pro

This is likewise one of the factors by obtaining the soft documents of this **Pdf Zimbabwe In Challenge The Meeting Policy Transport Poor Pro** by online. You might not require more era to spend to go to the ebook opening as without difficulty as search for them. In some cases, you likewise get not discover the pronouncement Pdf Zimbabwe In Challenge The Meeting Policy Transport Poor Pro that you are looking for. It will entirely squander the time.

However below, next you visit this web page, it will be as a result certainly easy to get as capably as download lead Pdf Zimbabwe In Challenge The Meeting Policy Transport Poor Pro

It will not agree to many grow old as we accustom before. You can complete it even though show something else at house and even in your workplace. fittingly easy! So, are you question? Just exercise just what we present under as with ease as evaluation **Pdf Zimbabwe In Challenge The Meeting Policy Transport Poor Pro** what you next to read!

## KEY=ZIMBABWE - JILLIAN MARLEY

# OECD Studies on Water Water Quality and Agriculture Meeting the Policy Challenge

## Meeting the Policy Challenge

OECD Publishing *This book examines linking policies and farm management to improve water quality.*

# Challenging Nature

# Local Knowledge, Agroscience, and Food Security in Tanga Region, Tanzania

University of Chicago Press *Tanga Region, Tanzania, is an area of persistent rural poverty with a long history of drought, floods, food shortages, famine, and social and economic disruption. Though farmers have been cultivating the land there for hundreds of years, they have consistently been unable to supply adequate food for the region's inhabitants. In Challenging Nature, Philip Porter examines eighteen farming communities to understand what the farmers there know about their environment and which historical and economic factors play into the lack of food security. Porter first began work on this project in 1972, asking 250 farmers in the region about life history, environmental and agricultural changes, types of crops grown and methods of planting, environmental assessments, agricultural practices, food and water supplies, training and education, and attitudes toward nature. Twenty years later, he returned and reinterviewed as many farmers as could be found from the first survey. The result contextualizes the environmental history of the region while informing current and future agricultural development.*

# Sustainability in Natural Resources Management and Land Planning

Springer Nature *This book includes contributions from scientists and representatives from government and non-governmental organisations working in the field of land management and use and on management of fires. The book is truly interdisciplinary and has both a research and application-oriented dimension. The list of topics includes sustainability and water management; sustainability and biodiversity conservation; the future sustainability of nature-based industries such as agriculture, mining, tourism, fisheries and forestry; sustainability, people and livelihoods; sustainability and landscapes planning; sustainability and land use planning; handling and managing forest fires. The papers are innovative and cross-cutting, and many have practice-based experiences. Also, this book, prepared by the Inter-University Sustainable Development Research Programme (IUSDRP) and the World Sustainable Development Research and Transfer Centre (WSD-RTC), reiterates the need to promote a sustainable use of land resources today.*

# Africa's Health Challenges

# Sovereignty, Mobility of People and Healthcare Governance

<u>Routledge</u> *This volume addresses the ideational and policy-oriented challenges of Africa's health governance due to voluntary and involuntary cross-border migration of people and diseases in a growing 'mobile Africa'. The collected set of specialized contributions in this volume examines how national and regional policy innovation can address the competing conception of sovereignty in dealing with Africa's emerging healthcare problems in a fast-paced, interconnect world.*

# Religion and Social Marginalization in Zimbabwe

<u>University of Bamberg Press</u>

# Urban Geography in Postcolonial Zimbabwe

# Paradigms and Perspectives for Sustainable Urban Planning and Governance

<u>Springer Nature</u> *This interdisciplinary book provides a cross-sectoral and multi-dimensional exploration and assessment of the urban geography perspectives in Zimbabwe. Drawing on work from different disciplines, the book not only contributes to academia but also seeks to inform urban policy with the view of contributing to the national aspirations of Zimbabwe attaining middle-income status by 2030. Adopting a multi-dimensional assessment that transcends disciplines such as urban and regional planning, human and physical geography, urban governance, political science, economics and development studies, the book provides a background for co-production concerning urban development in the Global South. The book contributes into its analysis of the institutional and legislative framework that relates to the urban geography of Zimbabwe, as these are responsible for the evolution of the urban system in the country. The connections among different sectors and issues such as environment, economy, politics and the wider objectives of the SDGs, especially goal 11 aspiring to create sustainable communities by 2030, are explored. The success stories relating to urban geography in Zimbabwe are identified together with the best possible practices that may inform urban planning, policy and management.*

# Water Quality and Agriculture

<u>IWA Publishing</u> *This report on Water Quality and Agriculture examines the linkages between agriculture and water quality. It discusses the overall trends and outlook for agriculture and water quality in OECD countries; describes recent actions by policy makers to address water quality issues in agriculture; and provides a set of recommendations for countries to meet the challenge of improving agricultural water quality.*

# Meeting Policy Challenges for a Sustainable Bioeconomy

<u>OECD Publishing</u> *This publication investigates key aspects surrounding the sustainability of bioeconomy development: the use of biomass as feedstock for future production; the design and building of biorefineries for the manufacture of a range of fuels, chemicals and materials, and also for electricity generation.*

# Africa and Development Challenges in the New Millennium

# The NEPAD Debate

<u>Zed Books</u> *Publisher description*

# Handbook of Research on Sustainable Development and Governance Strategies for Economic Growth in Africa

<u>IGI Global</u> *Despite increasing reports across the globe on renewable development and maintenance, little is known regarding what strategies are required for improved economic growth and prosperity in Africa. Improving an understanding of the methods for promoting growth through reusable resource development and administration is a vital topic of research to consider in assisting the continent's development. The Handbook of Research on Sustainable Development and Governance Strategies for Economic Growth in Africa provides emerging research on the strategies required to promote growth in Africa as well as the implications and issues of the expansion of prosperity. While highlighting sustainable education, pastoral development pathways, and the public-sector role, readers*

will learn about the history of sustainable development and governmental approaches to improving Africa's economy. This publication is a vital resource for policy makers, research institutions, academics, researchers, and advanced-level students seeking current research on the theories and applications of development in societal and legal institutions.

# Investing in Cultural Diversity and Intercultural Dialogue

UNESCO *This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.*

# International Wildlife Management

# Conservation Challenges in a Changing World

Johns Hopkins University Press *This useful compendium demonstrates that researchers and scientists should follow their lead.*

# Competition Policies and Consumer Welfare

# Corporate Strategies and Consumer Prices in Developing Countries

Edward Elgar Publishing *The fundamental goal of competition law is to support productivity and innovativeness; in fact, the short-term effect of enforcement actions is often a reduction in product prices. This book reports the findings of consumer market studies into a range of goods and services in developing countries in Africa, Asia and Latin America. It finds a pervasive lack of competition in those markets, which not only reduces the standard of living of consumers, including poor and vulnerable groups, but also softens the incentives on firms to improve the efficiency of their operations and the quality of their products*

# Industrial and Urban Growth Policies at the Sub-National, National, and Global Levels

IGI Global *Recent global shifts in population have led to the fast urbanization of Africa. For Africa and the developing world, choosing the right policy strategies, processes, and tools are essential to turning urban centers into engines of industry and economic prosperity. Industrial and Urban Growth Policies at the Sub-National, National, and Global Levels is a pivotal reference source that examines current and evolving conditions of industrial and urban policies and their relationships around the world, especially between developed and developing economies. While highlighting topics such as the Fourth Industrial Revolution, urban policy, and global common good, this publication seeks to deepen and broaden the understanding of transformation in industrial development and responses to emerging urbanization processes. This book is ideally designed for industrial planners, entrepreneurs, urban development authorities, policymakers, academicians, researchers, and students.*

# Rethinking Development Challenges for Public Policy

# Insights from Contemporary Africa

Springer *Covers topical issues for Africa's development, economics and politics of climate change, water management, public service delivery, and delivering aid. The authors argue that these issues should be included in the post-MDG paradigm and add an important voice to recent moves by academics and practitioners to engage with each other.*

# Handbook of Research on Sub-National Governance and Development

IGI Global *Effective governance is a crucial aspect of all modern nations. Through various collaborative efforts and processes, nations can enhance their current governance systems. The Handbook of Research on Sub-National Governance and Development is a pivotal reference source for the latest scholarly material on the intersection between local and national politics, analyzing how this relationship affects nations' economy and administration. Highlighting theoretical foundations and real-world applications, this book is*

*ideally designed for professionals, academics, students, and practitioners actively involved in the fields of public policy and governance.*

# Status of digital agriculture in 47 sub-Saharan African countries

<u>Food & Agriculture Org.</u> *Sub-Saharan Africa is uniquely positioned significantly increase its current agricultural productivity to lift the region's more than 400 million people out of extreme poverty and improve the livelihood of approximately 250 million smallholder farmers and pastoralists in the region. To achieve that, substantive digital transformation of the agriculture sector is required through improved infrastructure and increased access to and use of digital technologies for agriculture. To improve the current understanding of sub-Saharan Africa's digital agriculture landscape, the Food and Agriculture Organization of the United Nations (FAO) and the International Telecommunication Union (ITU) undertook this study in 47 countries. The report is composed of 47 desk-based country case studies against six thematic focal areas, the aim of which is to present a snapshot of the status of digital agriculture in each country. This is followed by highlights of the main findings of the analysis of the country profiles with suggested steps for future action. The findings of the study are presented to FAO and ITU Member States, as well as all relevant stakeholders with the purpose of advancing and supporting investment in digital transformation of the agricultural sector in sub-Saharan Africa.*

# National Healing, Integration and Reconciliation in Zimbabwe

<u>Routledge</u> *This book brings together scholars from diverse backgrounds to provide interdisciplinary perspectives on national healing, integration, and reconciliation in Zimbabwe. Taking into account the complex nature of healing across moral, political, economic, cultural, psychological, and spiritual dimensions of communities and the nation, the chapters discuss approaches, disparities, tensions, and solutions to healing and reconciliation within a multidisciplinary framework. Arguing that Zimbabwe's development agenda is severely compromised by the dominance of violence and militancy, the contributors analyse the challenges, possibilities and opportunities for national healing. This book will be of interest to scholars of African studies, conflict and reconciliation, and development studies.*

# Cases on Technological Adaptability and Transnational Learning: Issues and Challenges

## Issues and Challenges

<u>IGI Global</u> *"The case studies in this volume enforce technology is a principle catalysts for transnational collaborative interventions in providing learning and professional development opportunities to the people of both developed and developing countries"--Provided by publisher.*

# Federal Register

# The Performance of Africa's International Courts

## Using Litigation for Political, Legal, and Social Change

<u>Oxford University Press, USA</u> *This book argues that we must look beyond the traditional criteria of compliance and effectiveness to judge the performance of Africa's international courts. It demonstrates how these courts are important venues for activists and opposition parties to wage political, social, environmental, and legal struggles on the international stage.*

# Global Governance of Civil Aviation Safety

<u>Taylor & Francis</u> *This book indicates the shortcomings of the current international legal system and customary international norms that govern international aviation law to comply with contemporary air transport market realities. As the air transport market develops globally, the safety regime of civil aviation should also be governed and applied globally. In this book, the author departs from current international legal norms to examine the emerging legal field of global administrative law. Through that lens, the possibility of reconstructing the set of legal mechanisms that govern domestic and international administrative interaction in the global field of aviation safety is explored. This book demonstrates that a legal system is never complete but always develops in tandem with changing needs, i.e. the participation of the affected parties. Exploring the principles of GAL theory contributes to addressing the contemporary legal issues relating to state compliance with international aviation safety standards that would otherwise not be covered by customary international law. In particular, the principles of GAL theory regarding global governance and the 'public' character of global regulations, the role of individuals and states in global governance, and state sovereignty are considered valuable*

contributions to contemporary global aviation safety issues in practice. It is asserted in this book that proper checks and balances in global aviation safety can be improved by making these accessible to individuals by way of national courts. Finally, establishing public awareness of global aviation safety standards will eventually create greater pressure on states to implement and enforce them. This book is in an area increasing academic and research interest of practitioners of public international aviation law, global administrative law, global governance, and global aviation safety, global air transport market regulations.

# Southern African Agriculture and Climate Change

## A comprehensive analysis

<u>Intl Food Policy Res Inst</u> *Southern African Agriculture and Climate Change: A Comprehensive Analysis examines the food security threats facing eight of the countries that make up southern Africa ⬚ Botswana, Lesotho, Malawi, Mozambique, South Africa, Swaziland, Zambia, and Zimbabwe ⬚ and explores how climate change will increase the efforts needed to achieve sustainable food security throughout the region. Southern Africa⬚s population is expected to grow at least through mid-century. The region will also see income growth. Both will put increased pressure on the natural resources needed to produce food, and climate change makes the challenges greater. Southern Africa is already experiencing rising temperatures, shifting precipitation patterns, and increasing extreme events. Without attention to adaptation, the poor will suffer. Through the use of hundreds of scenario maps, models, figures, and detailed analysis, the editors and contributors of Southern African Agriculture and Climate Change present plausible future scenarios that combine economic and biophysical characteristics to explore the possible consequences for agriculture, food security, and resources management to 2050. They also offer recommendations to national governments and regional economic agencies already dealing with the vulnerabilities of climate change and deviations in environment. Decisionmakers and researchers will find Southern African Agriculture and Climate Change a vital tool for shaping policy and studying the various and likely consequences of climate change.*

# A Census of Orphans and Vulnerable Children in Two Zimbabwean Districts

<u>HSRC Press</u> *This is a report on census of orphans and vulnerable children in two districts in Zimbabwe.*

# Zimbabwe's Military: Examining its Veto Power in the Transition to Democracy, 2008-2013

<u>The African Public Policy & Research Institute</u> *Political transition and democratisation challenges have been noted in African countries including Angola, Burkina Faso, Kenya, Mali, and the Democratic Republic of the Congo, resulting in the African Union (AU) intervening on behalf of citizens, using tried-and-tested mechanisms of imposing a power-sharing agreement to preside over a transitional period, during which there are key changes to the constitution and the political conduct of the incumbency, and partisan institutions are weaned from seeking to perpetuate the status quo. This book focuses on Zimbabwe's military and its perceived veto power in the transition to democratisation from 2008 until 2013. The objective was to analyse, monitor and comment on the unique democratic transformational challenges faced by Zimbabwe's Government of National Unity. One of the book's key findings is that every time partisan forces carry out an operation in the name of a political party, there is a direct correlation in which the same loses its national character. This is the context of the challenge facing Zimbabwean forces when used for partisan gain and why the Southern African Development Community (SADC), in its last communique in Maputo on 15 June 2013, sought to compel a written undertaking from the generals that they would desist from playing a direct role in the politics of the country. The AU had earlier expressed its deep regret when faced with the results of serious human rights abuses that were committed with impunity.*

# Development Strategies and Food and Nutrition Security in Africa

## An Assessment

<u>Intl Food Policy Res Inst</u> *Bibliography p. 41-48.*

# Millets and Sorghum

## Biology and Genetic Improvement

<u>John Wiley & Sons</u> *9.2 Origin and Taxonomy -- 9.3 Genetic Resources and Utilisation -- 9.4 Genetics and Cytogenetics -- 9.5 Reproductive Biology -- 9.6 Constraints in Tef Production -- 9.7 Genetic Improvement of Tef -- 9.8 Crop and Pest Management -- 9.9 Future Prospects -- References -- Chapter 10: Insect Pests of Millets and Their Host Plant Relations -- 10.1 Insect Pests -- 10.2 Host-Plant Selection by Insect Pests -- References -- Chapter 11: Millet Diseases: Current Status and Their Management -- 11.1 Introduction*

# Enhancing Urban Safety and Security

# Global Report on Human Settlements 2007

<u>Routledge</u> *Enhancing Urban Safety and Security addresses three major threats to the safety and security of cities: crime and violence; insecurity of tenure and forced evictions; and natural and human-made disasters. It analyses worldwide trends with respect to each of these threats, paying particular attention to their underlying causes and impacts, as well as to the good policies and best practices that have been adopted at the city, national and international levels in order to address these threats. The report adopts a human security perspective, concerned with the safety and security of people rather than of states, and highlights issues that can be addressed through appropriate urban policy, planning, design and governance.*

# Managing Conflict of Interest in the Public Sector A Toolkit

# A Toolkit

<u>OECD Publishing</u> *This Toolkit provides non-technical, practical help to enable officials to recognise conflict of interest situations and help them to ensure that integrity and reputation are not compromised.*

# 2017 Global Food Policy Report

<u>Intl Food Policy Res Inst</u> *IFPRI's flagship report reviews the major food policy issues, developments, and decisions of 2016, and highlights challenges and opportunities for 2017 at the global and regional levels. This year's report looks at the impact of rapid urban growth on food security and nutrition, and considers how food systems can be reshaped to benefit both urban and rural populations.*

# International Issues in SEND and Inclusion

# Perspectives Across Six Continents

<u>Taylor & Francis</u> *International Issues in SEND and Inclusion brings together a collection of cutting-edge researches on approaches to special education needs and disability education, across 6 continents and within 12 countries. Written by authors who are experts in their own countries in relation to special educational needs and disability, the book provides a unique knowledge and understanding of different international perspectives in special educational needs, disability and inclusion. The chapters present extended case studies and reflect on current policy, practice and theory within that context, challenging assumptions which can dominate the policy and practice of inclusive education. Each of the six continents has a separate section and introduction within the book to offer a relevant approach and context for analysis. The book will be of great interest to academics, researchers and postgraduate students in the fields of inclusion, special educational needs and disability, teacher education and comparative education.*

# Water Scarcity, Livelihoods and Food Security

# Research and Innovation for Development

<u>Routledge</u> *This volume reviews the evolution of ten years' learning and discovery about water scarcity, livelihoods, and food security within the CGIAR Challenge Program on Water and Food. It draws on the experiences of over 100 projects conducted in ten river basins in the developing world. The book describes how the program's design evolved from an emphasis on water scarcity, water productivity, and water access to an emphasis on using water innovations to improve livelihoods and address development challenges in specific river basins. It shows how the research was used to foster change in stakeholder behavior, linking it to improved knowledge, attitudes, and skills, which were fostered by stakeholder participation, innovation, dialogue, and negotiation. The authors describe development challenges, their drivers and their political context, how to address them through technical, institutional, and policy innovations; and the consequences of change at different scales, time frames on equity, resilience, and ecosystem services. Overall, the work represents a major synthesis and landmark publication for all concerned with water resource management and sustainable development.*

# Zimbabwe since the Unity Government

Routledge *Zimbabwe has moved from a condition of restricted expression to one of many contradictory expressions. Politics has lost none of its compromises and conflicts, but it has been amplified by an explosion of voices. For the first time, a genuine debate is possible among many actors, insiders and outsiders, and the question marks over Zimbabwe and its future are no longer in terms of a narrow choice between one party and another, one outlook or another. Compromise government has meant complexity of debate. This does not preclude disillusionment within debate, but it does include vigour and imagination in debate. This book includes essays from renowned scholars, governmental and diplomatic figures, and prioritises contributions by Zimbabweans themselves. The essays provide a blend of academic and practitioner observation and judgement which no other volume has done. This book was published as a special issue of The Round Table.*

# Biofuels, Land Grabbing and Food Security in Africa

Zed Books Ltd. *The issue of biofuels has already been much debated, but the focus to date has largely been on Latin America and deforestation - this highly original work breaks fresh ground in looking at the African perspective. Most African governments see biofuels as having the potential to increase agricultural productivity and export incomes and thus strengthen their national economies, improving energy balances and rural employment. At the same time climate change may be addressed through reduction of green house gas emissions. There are, however, a number of uncertainties mounting that challenge this scenario. Using cutting-edge empirical case studies, this knowledge gap is addressed in a variety of chapters examining the effects of large-scale biofuel production on African agriculture. In particular, 'land grabbing' and food security issues are scrutinised, both of which have become vital topics in regard to the environmental and developmental governance of African countries. A revealing book for anyone wishing to understand the startling impact of biofuels and land grabbing on Africa.*

# Regenerative Sanitation

# A New Paradigm For Sanitation 4.0

IWA Publishing *This book proposes Regenerative Sanitation as the next era of sanitation management and attempts to provide a foundation for the study of sanitation on the premise that sanitation is a complex and dynamic system that comprises of social-ecological, technological and resource systems. The preconception is that sanitation will deliver maximal benefits to society only when there exists a cyclical integration of the three subsystems to enable appropriate linkages between 'technological design' and the 'delivery platform' so as to achieve optimal and sustained sani-solutions. It also calls for the rethinking of sanitation to change the narrative towards more progressive trajectories such as resource recovery and reuse rather than just amelioration. It explores the contributions to food security, livelihood support, urban regeneration, rural development and even local economies. A new paradigm, theory and ten principles for ensuring practical and effective sanitation solutions and management is presented. In addition is a unique conceptual framework applicable to both developed and developing countries, and to all stages, processes and cycles of delivering sanitation solutions that could critically evaluate, analyse and provide credible, adequate and appropriate sanitation solutions. All of which culminates in a strategic and practical application platform called 'Sanitation 4.0' that advocates for total rejuvenation and comprehensive overhaul with eight key strategic considerations for the implementation. Regenerative Sanitation: A New Paradigm For Sanitation 4.0 is inter and trans- disciplinary and encourages collaboration between engineers, scientists, technologists, social scientists and others to provide effective and practical user-centred solutions. It includes relevant case studies, examples, exercise and future research recommendations. It is written as both a textbook for researchers and students as well as a practitioners' guide for policymakers and professionals.*

# Father Involvement in Young Children's Lives

# A Global Analysis

Springer Science & Business Media *This vital addition to Springer's 'Educating the Young Child' series addresses gaps in the literature on father involvement in the lives of young children, a topic with a fast-rising profile in today's world of female breadwinners and single-parent households. While the significant body of theoretical understanding and empirical data accumulated in recent decades has done much to characterize the fluidity of evolving notions of fatherhood, the impact of this understanding on policy and legal frameworks has been uneven at an international level. In a field where groups of fathers were until recently marginalized in research, this book adopts a refreshingly inclusive attitude, aiming to motivate researchers to capture the nuanced practices of fathers in minority groups such as those who are homeless, gay, imprisoned, raising a disabled child, or from ethnically distinct backgrounds, including Mexican- and African-American and indigenous fathers. The volume includes chapters highlighting the unique challenges and possibilities of father involvement in their children's early years of development. Contributing authors have integrated theories, research, policies, and programs on father involvement so as to attract readers with diverse interest and expertise, and material from selected countries in Asia, Australia, and Africa, as well as North America, evinces the international scope of their analysis. Their often interdisciplinary analyses draw, too, on historical and cultural legacies, even as they project a vision of the future in which fathers' involvement in their young children's lives develops alongside the changing political, economic and educational landscapes around the world.*

# Bridging the Academia Industry Divide

# Innovation and Industrialisation Perspective using Systems Thinking Research in Sub-Saharan Africa

<u>Springer Nature</u> *This book is the result of years of research following a realization of the mismatch of engineering skills produced by universities and those that industry required, based on the situation in Sub-Saharan Africa, equally applicable to other regions in Africa and indeed worldwide. The book is meant to assist engineering academics and engineers in industry to build capacity and cope with the dynamic trends in technology brought on by the 4th Industrial Revolution and to prepare for the 5th Industrial Revolution, an era predicted to be dominated by critical and system thinkers with creative and innovative skills as basic necessities. The book is also useful for policy-making researchers in academia, industrial and public sector researchers, and implementers in governments that provide required funding for the development of human resources and skills. The book primarily consists of the novel research and innovation approaches of modelling and building systems thinking sub-models which were ultimately integrated into the Universal Systems Thinking (UST) model aimed at improving the quality of engineers and engineering practice. The initiatives in this book include strategies for bridging the gap between industry and academia through systems thinking research. The book provides information on how to model, simulate, adjust and implement integrated systems thinking approaches to engineering education and training for capacity building and sustainability. The book also covers approaches to address research gaps and mismatch of skills while capitalizing on the successes of several projects carried out and supported by the Royal Academy of Engineering over the years.*

# Handbook of Climate Change Communication: Vol. 1

# Theory of Climate Change Communication

<u>Springer</u> *This comprehensive handbook provides a unique overview of the theory, methodologies and best practices in climate change communication from around the world. It fosters the exchange of information, ideas and experience gained in the execution of successful projects and initiatives, and discusses novel methodological approaches aimed at promoting a better understanding of climate change adaptation. Addressing a gap in the literature on climate change communication and pursuing an integrated approach, the handbook documents and disseminates the wealth of experience currently available in this field. Volume 1 of the handbook provides a unique description of the theoretical basis and of some of the key facts and phenomena which help in achieving a better understanding of the basis of climate change communication, providing an essential basis for successful initiatives in this complex field.*

# "Keep Your Head Down"

# Unprotected Migrants in South Africa

<u>Human Rights Watch</u> *Recommendations -- Background -- The legal framework -- The Immigration Act : violations and legal gaps resulting in human rights abuses -- Employment laws : violations and legal gaps resulting in human rights abuses -- Conclusion -- Acknowledgements.*

# Handbook of Transnational Environmental Crime

<u>Edward Elgar Publishing</u> *Crimes associated with the illegal trade in wildlife, timber and fish stocks, pollutants and waste have become increasingly transnational, organized and serious. They warrant attention because of their environmental consequences, their human toll, their impacts on the rule of law and good governance, and their links with violence, corruption and a range of crossover crimes. This ground-breaking, multi-disciplinary Handbook brings together leading scholars and practitioners to examine key sectors in transnational environmental crime and to explore its most significant conceptual, operational and enforcement challenges.*
