Women in Christ Toward a New Feminism Wm. B. Eerdmans Publishing The challenge of promoting the "new feminism" has barely been addressed since it was first launched by Pope John Paul II in his 1995 encyclical *Evangelium vitae*. The thirteen contributors in this book, all outstanding international scholars, take up this task, together laying the necessary theoretical foundation for the new feminism. These chapters articulate an integral philosophical and theological understanding of persons that moves beyond patriarchy on the one hand and traditional feminism on the other. Central to the new perspective offered here is the biblical revelation of the human person - man and woman - in Christ, a vision that directs women beyond the "male" standard against which they have too often been measured. Far from constraining women to an "eternal essence," the dynamic view presented here encourages each woman to realize herself in perfect Christian freedom. **Look How a Highly Influential Magazine Helped Define Mid-Twentieth-Century America U of Nebraska Press** Andrew L. Yarrow tells the story of *Look* magazine, one of the greatest mass-circulation publications in American history, and the very different United States in which it existed. The all-but-forgotten magazine had an extraordinary influence on mid-twentieth-century America, not only by telling powerful, thoughtful stories and printing outstanding photographs but also by helping to create a national conversation around a common set of ideas and ideals. Yarrow describes how the magazine covered the United States and the world, telling stories of people and trends, injustices and triumphs, and included essays by prominent Americans such as Martin Luther King Jr. and Margaret Mead. It did not shy away from exposing the country's problems, but it always believed that those problems could be solved. *Look*, which was published from 1937 to 1971 and had about 35 million readers at its peak, was an astute observer with a distinctive take on one of the greatest eras in U.S. history--from winning World War II and building immense, increasingly inclusive prosperity to celebrating grand achievements and advancing the rights of Black and female citizens. Because the magazine shaped Americans' beliefs while guiding the country through a period of profound social and cultural change, this is also a story about how a long-gone form of journalism helped make America better and assured readers it could be better still. **USA Today Index Sachie, a daughter of Hawaii A New and Complete Concordance Or Verbal Index to Words, Phrases, & Passages in the Dramatic Works of Shakespeare With a Supplementary Concordance to the Poems Vanity Fair Performing Magic on the Western Stage From the Eighteenth Century to the Present Springer** Performing Magic on the Western Stage examines magic as a performing art and as a meaningful social practice, linking magic to cultural arenas such as religion, finance, gender, and nationality and profiling magicians from Robert-Houdin to Pen& Teller. **Human Sexuality An Encyclopedia Routledge** First Published in 1994. Women fight with men and with other women—often with “the other woman.” Victoria Burbank’s depiction of these women offers a powerful new perspective that can be applied to domestic violence in Western settings. Noting that Aboriginal women not only talk without shame about their angry emotions but also express them in acts of aggression and defense, Burbank emphasizes the positive social and cultural implications of women’s refusal to be victims. She explores questions of hierarchy and the expression of emotions, as well as women’s roles in domestic violence. Human aggression can be experienced and expressed in different ways, she says, and is not necessarily always “wrong.” Fighting Women is relevant to discussions of aggression and gender relations in addition to debates on the victimization of women and children everywhere. Ranging from Ed Sullivan to cyberspace, from kid shows to cable, and from the cheap thrills of "action adventure" to the solemn boredom of PBS pledge week, Leonard argues for a whole new way of thinking about television. For Leonard, the situation comedy is a socializing agency, the talk show is a legitimating agency, the made-for-television movie is the last redoubt of social conscience, and television criticism itself is the last refuge of time-serving thugs and postmodernists. Instead of scapegoating television as the cause of crime in our streets, stupidity in our schools, and spectacle rather than substance in our government, Leonard sees something else inside the box: an echo chamber and a feedback loop, a medium neither wholly innocent of nor entirely responsible for the frantic disorder it brings into our homes. **Violence and the Female Imagination Quebec's Women Writers Re-frame Gender in North American Cultures McGill-Queen's Press - MQUP** In the past twenty years Quebec women writers, including Aline Chamberland, Claire Dé, Suzanne Jacob, and Hélène Rioux, have created female characters who are fascinated with bold sexual actions and language, cruelty, and violence, at times culminating in infanticide and serial killing. Paula Ruth Gilbert argues that these Quebec feminist writers are "re-framing" gender. Violence and the Female Imagination explores whether these imagined women are striking out at an external other or harming themselves through acts of self-destruction and depression. Gilbert examines the degree to which women are imitating men in the outward direction of their anger and hostility and suggests that such "tough" women may be mocking men in their "macho" exploits of sexuality and violence. She illustrates the ways in which Quebec female authors are "feminizing" violence or re-envisioning gender in North American culture. Gilbert bridges methodological gaps and integrates history, sociology, literary theory, feminist theory, and other disciplinary approaches to provide a framework for the discussion of important ethical and aesthetic questions. **Weekly World News** Rooted in the creative success of over 30 years of supermarket tabloid publishing, the Weekly World News has been the world's only reliable news source since 1979. (Fine Arts) **The Works of Beaumont and Fletcher: The maid's tragedy; Philaster; A king and no king; The scornful lady; Custom of the country; The elder brother; The Spanish curate; Wit without money; The beggars' bush; The humorous London After a Fashion Reaktion Books** London Fashion Week is the pinnacle of the fashion season, and it features an array of native designers, from Burberry and Vivienne Westwood to Alexander McQueen and Nicole Farhi. The roots of London's place as the international epicenter of haute couture and prêt-à-porter stretch back centuries, and they are explored here by Alistair O'Neill. Arguing that fashion was central to the impact of modernity in late nineteenth- and twentieth-century London, O'Neill maps the progress of fashion against the city's neighborhoods and streets. Carnaby Street, Soho, Jermyn Street, and King's Road each get their turn in London, along with many others, revealing the intersection between London's urban history and the development of fashion. O'Neill's analysis is not merely confined to clothing—from the popularity of tattooing in the 1890s to the diverse uses of chintz in the 1980s design aesthetic, he traces the history of fashion in its various manifestations and explores how particular figures were key to disseminating fashion throughout British and international cultures. Participating in fashion, London shows, was not only a pleasurable aspect of modern urban life, but also a fundamental element of contemporary cultural sensibilities. London unearths vital moments of revolution in fashion that reflect deeper changes in London's history and culture, contending that these historic changes are unfairly marginalized in accounts of transformation in the city's culture. A fascinating look at style and urbanism, London offers an intriguing reconsideration of the role of fashion in city life and fills in long overlooked gaps in the history of London and modern design. **Indianapolis Monthly** Indianapolis Monthly is the Circle City's essential chronicle and guide, an indispensable authority on what's new and what's news. Nordic Major City Statistics Understanding American Politics, Second Edition University of Toronto Press Understanding American Politics provides a unique introduction to the contemporary political landscape of the United States by using as its core organizing feature the idea of "American exceptionalism," a concept that is at least as old as Tocqueville's study of American democracy. The second edition of Understanding American Politics maintains the unique strengths of the first edition while offering improved coverage of political institutions. A single omnibus chapter on institutions has been reorganized and split into three separate chapters on Congress, the presidency, and the courts. A new chapter on public opinion has also been included, and the chapter on religion and politics has been completely rewritten with a deeper appreciation of religion's influential role. The book has been revised throughout, taking into account the dramatic changes that have emerged since the 2010 congressional elections and the 2012 presidential election. The text also pays close attention to what is seen as the irreversible decline in America's global influence. Visit www.utpamericanpolitics.com for additional resources.

Women and the Second World War in France, 1939-1948 Choices and Constraints Routledge This is the first book (in either English or French) to offer readers an overview of women's experience of the Second World War and its immediate aftermath in France. It examines objectively the part that women played in both collaboration and resistance, synthesising much recent scholarship on the subject in French and English, and drawing on the author's own extensive research (including oral testimony) in Toulouse, Paris, and West Brittany. The findings are complex, and the immensely varied testimony challenges easy generalisation. This will be relevant for courses on French studies, French and European history and Women's studies.

Sex and the Scientist The Indecent Life of Benjamin Thompson, Count Rumford (1753-1814) McFarland One of the preeminent natural philosophers of the Enlightenment, Benjamin Thompson started out as a farm boy with a practical turn of mind. His inventions include the Rumford fireplace, insulated clothing, the thermos, convection ovens, double boilers, double-paned glass and an improved sloop. He was knighted by King George III and became a Count of the Holy Roman Emperor. Thompson's popularity with women eclipsed his achievements, though. He was married twice and had affairs with many other prominent women, including the wife of Boston printer Isaiah Thomas and that of a doctor who would crew the first balloon to cross the English Channel. He even fathered a child by the court mistress of the Prince Elector and had affairs with several other German noblewomen. Drawing on Thompson's correspondence and diaries, this book examines his friendships and romantic relationships.
