PLANETARY VISTAS

THE LANDSCAPES OF OTHER WORLDS

Springer The word “landscape” can mean picture as well as natural scenery. Recent advances in space exploration imaging have allowed us to now have landscapes never before possible, and this book collects some of the greatest views and vistas of Mars, Venus’s Titan, Io and more in their full glory, with background information to put into context the foreign landforms of our Solar System. Here, literally, are 'other-worldly' visions of strange new scenes, all captured by the latest technology by landing and roving vehicles or by very low-flying spacecraft. There is more than scientific interest in these views. They are also aesthetically beautiful and intriguing, and Dr. Murdin in a final chapter compares them to terrestrial landscapes in fine art. Planetary Vistas is a science book and a travel book across the planets and moons of the Solar System for armchair space explorers who want to be amazed and informed. This book shows what future space explorers will experience, because these are the landscapes that astronauts and space tourists will see.

VISTAS OF INFINITY - HOW TO ENJOY LIFE WHEN YOU ARE DEAD

Lulu.com This book deals with the reality of our life after death, not spirit communication, but actual visits with all sensory perception in tact using Out-of-Body travel. Jurgen Ziewe has spent over forty years refining his OBE skills via a lifelong practice of deep meditation. The author projects his consciousness into parallel dimensions and non-physical reality systems whilst retaining full waking awareness throughout. He probes into the infinite vistas of human consciousness and brings back detailed accounts of his journeys and observations. The reports gathered followed a strict research protocol, where the author interviewed dead people and visited the higher dimensional realities, from the darkest places to the most illuminated regions of cosmic consciousness and realms which are traditionally referred to as 'Heaven'. These are lively, first-hand accounts providing a narrative which is destined to revolutionize old concepts and perspectives.
