Volume 6.3

01 Editorial | A note to the new Minister: Scrap EBacc and Nick Gibb **05 News** | The latest in creative teaching

08 Using Minecraft to inspire creative writing

Chris Waterworth explains what happened when he and his pupils used Minecraft to design, build and write about Willy Wonka's chocolate factory.

14 Turn your students into scientists!

In this issue's 'Strategies for the New Curriculum', Ed Walsh reveals how to develop scientific attitudes in secondary students.

20 How to teach the Stone Age

Teaching prehistory requires a very different approach to other more recent time periods. Archaeologist Matthew Charlton shares some interesting ideas.

26 21 strategies for better stretch and challenge

Realising students were coasting in lessons, Bedford Academy embarked on a whole-school project to identify key strategies for challenging more able learners. Kayleigh Greenacre reports.

34 Making maths make sense

From buying cookies to sharing pizza, Ana Helvia Quintero and Héctor Rosario explain how putting maths in terms children recognise promotes greater understanding and enjoyment.

42 Inspiring learners with a passion-filled curriculum

Vicky Hill describes her Hong Kong school's groundbreaking curriculum, which encourages children to explore the world and discover their passions.

50 Primary education needs metacognition!

The sooner we teach children to manage their own thinking, the better their life chances will be, says John Crossland—and here's how to do it.

59 Maths in the real world

Reveal the exciting role maths has to play in life beyond the classroom with this issue's selection of websites and online resources
