Heartlands High Integrating autism provision

Heartlands High School is a new community school for Haringey with outstanding facilities. The school has received artsmark status for the excellent work it produces in the arts, and has a specialised autistic provision faculty that runs alongside the mainstream school.

LEARNING SPACES

Learning Spaces is an independent magazine. The views expressed in signed articles do not necessarily represent those of the magazine. The magazine cannot accept any responsibility for products and services advertised within it.

Featured Articles

06 Standard school designs or bespoke solutions – is there a third way?

Ian Wilson suggests a design solution which provides all the benefits of repetition and standardisation but where each school can respond differently to prescribed programmes and accommodate their own site constraints.

06

18 The Hackney Pirates and their Ship of Adventure

Hackney resident and former teacher Catriona Maclay believed that, with some additional support, young people who have fewer opportunities and are falling behind could become fully rounded learners who are able to achieve at school and in the wider world. As a result the Hackney Pirates were founded in 2010 and this has become their vision.

42 Special Report on Outdoor Learning

At Learning Spaces we always try to include an article on external learning opportunities in each edition. This edition we decided to consider the impact of having separate enclosed spaces as part of the environment.

56 “A Hub on the Hill”

This was the vision for the site overlooking Plymouth Sound, articulated by the then Principal Helen Mathieson when we first met in December 2011.

64 Health & Safety – Implications For Schools as Clients

Louise Hosking looks at Health & Safety in construction projects via good design, planning & co-operation in schools.

76 Clever classrooms

For the first time, research has confirmed the positive impact factors such as good lighting, careful colour choices and a sense of ownership over the classroom space can have on children’s achievement. Hannah Sharron reports.

84 Is off-site construction the answer to the school places crisis?

By 2023, the number of pupils in England’s schools is projected to increase by a staggering 880,000. How will our buildings cope? Kevin Harvey presents the possibility of off-site construction – an approach already helping primary and secondary schools across the country overcome an array of place planning issues.
